The hand engine which Tuttle & Cary ordered for the fire company is expected here on the next boat. The steamer Elmore arrived in Monday and came up to this city Tuesday. She had a full load of freight. Hunters attention:—If you want a good shot-gun or anything in the ammunition line, go to Letcher's. The hotel at Hobsonville is going to be ornamented with a new piano which Mrs. Wilson has purchased. Cohn & Co. keeps the largest stock of dry goods and groceries in the city, and orders are promptly filled. Miss Nettie Jackson, arrived via Forest Grove Sunday, and is visiting with Mrs. T. B. Handley of this place. If you want to see the latest styles in ladies' gold watches vest-chains and pins go to Letcher's jewelry store. Mrs. Burrough and her sister Alice Thayer are here on a short visit to their parents, Mr. and Mrs. W. O. Thayer. At the Astoria Regatta on the 19th, the sloop monogram was captized with 17 people aboard. All were rescued except three. Fishing will commence on the bay in a few days, and it looks as though we are going to have a good run of salmon this season. Cohn & Co. have just received a large stock of new goods on the steamer Elmore. Call and see them before they are all gone. The Tillamook papers are sailing into fake real estate agents. That's the caper gentlemen. That's what the Budget proposes to do, for the protection of men who come here to buy property.

Just received the finest line of silver thimbles and ear drops ever brought to Tillamook. Call and see them at Letcher's. At the meeting of the city council last Saturday evening the ordinance to open a street through Mr. Holden's property was passed. The new advent church was raised the first of the week and when completed will add much to the appearance of the block on which it is located. Cohn & Co. have bought the Henshaw property adjoining their store and they contemplate building a large building on the property in the spring. J. E. Sibley, manager of the Truckee Lumber Co. of Hobsonville, accompanied by his wife and son left for Portland Monday, via Forest Grove. Mr. Deary, the manager of the Alliance Meat Market, can be found behind the counter ready to give you any kind of a cut of meat that you wish. It is no trouble for us to show our goods, as we have a man especially for that business, so come and look them over any time. TUTTLE & CARY. A city law not allowing bells on cattle while running loose on the street, would please the majority of the tax payers, and rid the city of a great nuisance. Several of our out town correspondents had their articles crowded out this week on account of the large amount of news we have and the fact that they arrived rather late. Mrs. Wolfe, of Langis, Coos county, who has been visiting her father W. H. H. Cary of this place, left for her home Monday on the steamer Alice Blanchard. The yesterdays rain was very thankfully received by the people of this valley as it cleared out the smoke which has been hanging over us for the last three weeks. Mr. E. M. Pogue, the Salem stenographer is in town. Mr. Pogue came from Salem to Beaver over the Grand Route road in one day on his wheel a distance of over 60 miles. Several men have been arrested for the lynch affair that took place at Ellensburg and it is understood that the law will be enforced, and all the parties implicated will be punished. Joe Price met with a serious accident Sunday while on his way to town. He was riding fast when his horse stumbled and threw him, breaking the bones in his arm, just above the wrist. M. K. Handy left yesterday for his old home in the east, where he expects to form a colony and go to Mexico. We hope he will have better success than the negroes did a few months ago. The Alice Blanchard came in Sunday, and sailed Monday noon for San Francisco, with a cargo of lumber from the Truckee Lumber Co's. mill at Hobsonville. She stops at Coos bay on her way down. Now that the hay is all cut and put away for this year, what is the matter with the city council opening up various additions to the city which have heretofore and which are yet fenced up and used for private purposes. Oh! the bloomer girl is fair to see, Tho' dressed so queer about the knee, She won't be a woman, And she can't be a man, So let the poor girlie, Be what she can. Lumbering is getting to be quite an industry and from appearance it must be quite profitable for the saw mill at Gales Creek is hauling lumber to Mr. Herrington's place, a distance of thirty-six miles and over the mountains at that, for only \$2 a thousand more than you can buy it for here in this city. On the 15th three small boys of Woods took a boat and started out to sea to catch some rock cod but before they had got out any distance they lost their oars and were left to drift around at the mercy of the waves until they were washed ashore. No damage was done and the boys came back quite wet but much the wiser. In the face of the fact that times are considered hard throughout the whole of the United States, we can safely say that the so reported hard times have not been felt by us very much, and during the past year several nice and quiet expensive buildings have been built in this town, at an estimated cost of \$18,000, not counting the new bank building which has cost that much more. The Truckee Lumber Co., at Hobsonville, is now running full handed and cutting about 60,000 feet of lumber per day. This means that the Co. is spending \$275 per day in this county. Such industries as this is what makes good times, and the fact that they are running both sides of their mill, shows that the lumber market in San Francisco and elsewhere is looking up and that times are getting better. Yamhill Reporter: D. W. Potter returned from Netarts Monday. His family remained and will not come home for several weeks. Leo Collard was over in Tillamook city the first of the week. He says the town is lively and the people are full of their accustomed gaiety. Charley Hemstreet took him riding in his new boat, which is proving to be a great success. Jack Welch was seen and stated that he thought McMinnville needed a fifth barber shop, and he might locate here before long.

C. & E. Thayer's new bank building is nearing completion. It has its last coat of cement on now and all that is lacking is the painting which is to be put on the front of the vault, and will be an imitation of stone. The finishing up of the wood work is now being done by Dosler and Rowland and as soon as that is completed the counters will be set up, the doors opened and the shining eagles will be passed back and forth over the new counters. The building will, when completed, present a handsome appearance and add greatly to the looks of the city. Chas. Ewing, the government contractor on this bay had his pile driver and scoops attached by his book keeper and engineer for their wages. It appears that Mr. Ewing owes them a little over \$150 each. The attachment stopped the work at present awaiting for Mr. Ewing to secure bondsmen for the release of the goods attached or to secure the cash to pay off the claims. From the looks of things it appears to be a hard matter to do. Men are not to be pitied who take contracts so low that they cannot pay their men, as the government is willing to pay them well for their work if they only know enough to ask it. The contractor who operated here before Mr. Ewing, went away leaving several debts unpaid, and several of his work hands without a cent of money. It is to be hoped that this movement on the part of the work hands will prevent anything of the like with Mr. Ewing. School Report. The following is a report of the school in district number 15, for the term ending August 9, 1885. Number of pupils enrolled 8; average daily attendance, 7. COHN & COMPANY,

You don't want a coat that will rip up the back the first time you put it on, and you don't want goods that fade out on a few months. What you want is some good quality, well-made clothing,

something that will wear well and look well for a long time. We guarantee that we can fit you and give you better satisfaction than if you sent away to the so-called tailoring establishments. They do not make clothes to order generally, but take your measure and select something to fit you as near as they can. That is why so many fail to get fits in sending away. You can see our goods, try them on, and judge for yourself. You don't have to buy them unless they suit you, and you do have to pay all or part in advance if you send away, and what you pay you don't get back even if they don't fit. We keep gents' furnishing goods, ladies' underwear, dress goods and trimmings. A full line of boots and shoes, hats and caps. See us before marketing your produce.
