O. Nolan. He guarantees the warrant to be good, or nothing will be charged for the warrant. These warrants are getting scarce now and are hard to get. They have sold at prices ranging from \$50 to \$1000. Mr. Nolan will sell the one he has, however, at a price that will enable somebody to select a good piece of land, get a patent at once, and cheaper than it can be procured any other way, considering time time to be of value.

The rise in the river is bringing the salmon up by the thousands.

God sends the rain, and the salmon. If you don't like the rain go to California, or if you don't like the fish don't eat them.

A Piano for \$40!

Chicago's most prominent music house Lyon & Healy, have a number of slightly used and second hand pianos, taken in trade, used in concerts, and in fact not brand new instruments, which they have determined to sacrifice rather than to make room for. These instruments comprise Square pianos at \$40, \$60, \$80, \$100, and \$125. Upright pianos at \$125, \$140, \$150, \$165, \$190, \$200, \$225, \$240 and upwards. Grand pianos at \$200, \$250, \$300 and upwards. Nearly all originally sold for from two to four times their present price. Almost all prominent makes (in squares and uprights) are represented, including among numerous others Chickering, Knabe, Steinway, Weber, Decker, Steck, Fisher, etc. This is an opportunity that will not occur again as Lyon & Healy never had so many pianos of this class before. Immediate attention is necessary. A good plan would be to order a piano, leaving the selection to Lyon & Healy. How-

ever, they will send a list and full particulars upon application. Any piano not proving satisfactory may be returned at their expense. Address at their new salerooms, corner Wabash Avenue and Adams Street, Chicago. Distance is no obstacle in taking advantage of this remarkable chance to obtain a piano, for in proportion the saving to be made, the freight charges are insignificant. If you do not already know them by reputation any banker will assure you of Lyon & Healy's entire responsibility and record of over a third of a century for honorable dealing. Write today so as to avoid disappointment.

Str. Augusta sailed from Astoria Saturday for this port. She comes in place of the Harrison for the Rose Hill cannery and is probably tossing about the ocean now. Miss Alice Chapin was married to J. L. Dunn at Ellensburg, Washington, October, 30th. This office has received more new subscriptions in the past month than ever before since the paper started. Job work has been excellent, though low prices have prevailed. We must admit, however, that advertising continues very slack, except from some of the old "stand-bys." We hope the holiday trade will increase this some. Begin to fix up your holiday announcements. The trade will be better this year than usual we apprehend.
A large force of men are working on the Slab Creek road. This will give the settlers of the Little Nestucca a free road to the valley, the only road leading from the county to the valley which is not a toll road. Part of the road is built, and there is only six miles to build to connect with the Salmon river road. It is on the lowest pass in the county, and will be the best route as it is mostly through an open country. It will be ready for travel this fall.
The whistling buoy stationed off Tillamook entrance was washed away last storm. It came ashore in the entrance to the bay, but afterward went out again and has not been reported since. It could have been made fast with a rope and saved, but it seems the government pays noth for such services, and no one tried to save it. Of course, the people of Tillamook don't care about aids to navigation! If the government wants to keep a buoy for our benefit, why, blame-it-all, let the government attend to it.
