The steamer Truckee has reduced passenger rates, and is making favorable rates for freight. She runs direct between San Francisco and Tillamook every ten days, the weather permitting.

Her accommodations for passengers are first class, and a good table is set for those who take transportation on that boat. Every attention is paid to the wants and conveniences of passengers. The rates now are \$10 for cabin one way, or \$18 for round trip. Second class fare is \$7 one way. For further information call on or write to J. S. Kimball, 22 Market St., San Francisco, or to H. C. Thomas, Master, at Hobsonville. See advertisement next week.

Masonic Notice

There will be a regular Masonic communication of Tillamook Lodge No. 57, A. F. & A. M. in the Masonic hall on Saturday night Jan. 4. All Master Masons in good standing are invited to attend. By order of W. M. F. R. BEALS, Sec'y.

Dr. W. J. May and Mark Miner had

their boat capsized while hunting a few days ago, and were three hours in the water hanging to the boat. They were almost exhausted and chilled through when Bert Abbott and Joe Hauxhurst appeared and rescued them. The rescuers were presented with \$20 each, and Jim Wilson was given \$20 for recovering Dr. May's gun, which was a new one that cost him \$60. As both of the men are now in the best of health, the experience may result seriously. Mr. Miner is quite ill from the effects of the experience, and while hanging on the boat frequently signified his intention of giving up and letting loose, but Dr. May urged him to hold on until help came.

Our neighbor, the Advocate, is suffering

from internal dissension. It is claimed by W. H. Reynolds, D. T. Edmunds, and the Stoibards that Mr. T. B. Handley, who owns a small interest with the others, is trying to run the whole establishment, freeze the plant out, and gobble up the newspaper, others and all. There are two sides to the story however, and it is understood that the Stoibards have transferred what stock they had, and that the company will be reorganized and that Mr. A. W. Severance will become a stockholder and editor in chief, turning Mr. Handley down completely—in fact freezing him out. It is said Mr. Handley locked the other stockholders out on one occasion, and that he has considerable claims against the concern. Also, a claim for a year's unpaid rent is likely to cut some figure in the fight. Advertisers have been warned to pay no money to the present management by one faction, and litigation will begin in a few days. We trust our contemporary may successfully get out of its present entanglement.

School districts that wish to levy taxes must do so soon in order to be able to get the assessment entered on the County Clerk's books in time for this year's collections. It will save mountains of work, much confusion and many mistakes if the levies are made for even mills.

Some persons, (we presume it was Aunt Abigail Scott Duniway) has sent us a lot of blue print photographs which are intended to ridicule bloomers. As soon as we get around to it, some of them will be reproduced by our lightning engraving process, not that we are opposed to bloomers, for we rather like them on appropriate occasions. Bloomers have come to stay.

There was a big crowd at the Allen house Tuesday to attend the drawing for Cohn's spring wagon. The lucky number was 4554, and was held by Jonas Olson. Two other prizes were given, one of \$5 in merchandise, which was won by ticket 3726 by J. H. Jackson. A prize of \$2.50 was won by ticket number 3902, held by—The total number of tickets out were 5409, about about 200 more than last year, and the time in which they were issued was ten days shorter this year.

The steamer Girtle is all right in rough weather. The worst storms on the bay do not necessarily interfere with her progress. Last Tuesday the bay was very rough, but the Girtle behaved well, and demonstrated the fact that she is a safe craft under the most trying circumstances. It seemed as if the waves could see her coming, and her appearance, with the calm and impressive countenance of Capt. Cary at the helm, seemed to allay the surging billows and pour oil on the troubled waters as it were. This little boat is a great convenience to the people of this city and for those who reside on the bay.

The Leap Year ball was greatly appreciated by the bashful young men of this vicinity. Many who had never before dared to look a pretty girl in the face were gently yanked from their seats and whirled through the mazy waltz until they were dizzy with embarrassing delight. At the start the ladies were quite diffident, and it looked as if it would be a failure on account of the backwardness of the gentler sex. However, as the evening wore on the aspect changed. Several young men who were afraid of being slighted ventured in through curiosity, and the ladies grew bolder. Those who had been thumb-sucking wall-flowers were relieved, and sometimes several fair maidens were rushing after the same gentleman. None of the men were slighted. The editor of this paper barely escaped. Being averse to subjecting himself to the wiles of the feminine charmers, he fled precipitately—sliding down the stairs, in a rather undignified manner. Anyway, it was fun to see the girls ask the men to dance. It has generally been the other way. We unfortunate men have generally to ask for the favors, and we haven't always got what we asked for. Go it, you giddy girls, and may you have a good time while leap year lasts. It will not come again until 1904.
