The late freshet brought considerable more political timber down.

Why not have a committee to go into secret session and make all the nominations!

The office should seek the man. However, a competent man can not be criticised for seeking an office in an honorable way.

Those who send in requests for the National Recorder are being listed as fast as they come. The order will not be sent in for two weeks perhaps.

This will be a red hot campaign from all appearances. Several of the old war-horses are getting their fighting point on. It is to be regretted, but it seems inevitable.

Those who pay \$1.50 on subscription to the HEADLIGHT need have no fear of losing the money. The HEADLIGHT has never suspended in the last eight years and is in better shape than ever.

Gentlemen we suggest that dairying and all other industries be laid aside until you settle this campaign. It will be such a satisfaction, you know, for the farmers to know who will get the fat salaries.

Get in, boys, and don't be afraid; the offices belong to us and we are going to have them. What a nice comfortable time eight or ten republicans can have—it beats farming, with wheat at 25 cents per bushel.—La Grande Gazette, (rep.)

No doubt the A. P. A. was instrumental in defeating the appropriation for sectarian schools for the Indians, and it was a good thing. But the A. P. A. should not take all the credit on itself. There are many other patriotic Americans that believe in keeping state and church separate.

A man who talks about boycotting the HEADLIGHT borrows it and reads it whenever he can get it, and may be seen eagerly perusing it as soon as he can pick up a copy after it is issued. It would be a shame if he and a few others like him should withdraw their support. They get the result of our work for nothing, and should let our patrons do the kicking if any is done.

Howard Winter, of Hapgood & Co., reports that the sale of Columbia river salmon is getting harder all the time. He recited an instance where the packer of a standard brand of fish was offering pound flats for \$1.20 per dozen. Either the fish must have been fall packed or the canner lost heavily by the transaction. Another firm who have always had a good sale for a standard brand of spring pack have had to remove the original label on 9,000 cases of fish and put on an entirely new label. The reason assigned for this was the limited demand for the brand in question at former prices, and rather than sacrifice the reputation, and break prices for this class of goods, took this method of making the best of a bad bargain. Despite all this cry of low prices, more money than ever is being put into this business. Why don't the

canners advertise their brands and create a demand? It can be depended upon that the owners of the new canneries on the Sound will do it. Good advertising will sell more for a poorer grade of salmon and at a higher price than the sales created by reason of a superior quality, without advertising. There is a moral in this for Columbia river cannerymen.—Cathlamet Gazette.

We invite all who wish to discuss the A. P. A. question through this paper, either for or against, the only conditions being that all articles must be signed for publication, and we will not publish any long-winded articles. We shall be pleased to see people put themselves on record regarding the matter. Both sides will be treated fairly and alike.

GALL PERSONIFIED.

Say, editor, do you exchange with the Wayback Itemizer? If you do, please save the copies for me.

We do not. Well, its a good paper, and you ought to try it. It's published in the town I came from.

Why don't you subscribe for it? And why don't you subscribe for our paper?

I see the point. Here's a dollar and a half. It's my treat. I'll send \$1.50 to the Wayback Itemizer also and not try to steal the efforts of his labor.

TERMS.

Candidates can advertise themselves at the same rates we charge for regular advertisers.

Any man who is attacked in these columns by the editor or by a correspondent can defend himself without charge.

After the convention this paper expects to support most or all of the nominees of the republican convention.

No man will be supported by the editor or the paper editorially until after the convention.

Those who do not want the support of this paper are not obliged to receive it. This refers to those candidates who are trying to boost themselves into office by offering money to start an opposition campaign sheet.

Candidates who are going into the newspaper business can depend wholly upon their own newspaper for that sort of support.

Republicans, populists, democrats and A. P. A's. can have political notices published at regular rates, ten cents per line, without prejudice.

Cash must be paid before election. It is hard to collect from defeated parties and candidates.

Phil Messner has moved his stage station from the Mountain House to Fairdale, which brings it a couple of miles nearer the town, making the evening ride from here considerable shorter.—North Yamhill Record.

The Huston Bros. with their families, accompanied by P. H. Messner, started yesterday to cross the mountains to Trask, to take possession of the toll road, which these two brothers have purchased from Geo. F. Burton. Mr. Huston informed a Record reporter that they will spend at least \$500 in work on the road, building around the heavy hills etc., which will put it in the best of condition for travel.—N. Yamhill Record.

J. F. Rhee, of Glenora on Willson river, and J. T. Harris, of lower river, arrived in the city Saturday morning having come through from Tillamook by wagon clearing the road of obstructions as they came. This was not found to be a difficult job. A few small sized land slides had to be passed, a few small bridges put in and what trees and limbs there were down in the road removed. There is no snow on the road to interfere with travel. This makes the road passable but a great deal of travel is not expected for some time yet.—Forest Grove Times.

Mr. Louis E. Bean, at the head of tide of the Siuslaw, has written to Fish and Game Protector McGuire, an interesting account of his experience as an amateur in the propagation of salmon at Seaton, on the Siuslaw river. He secured 11 female and 15 male chinook, and 4 female and 8 male silversides. The first eggs were taken on November 8, and the last on November 23. The first commenced hatching on January 7, and by February 5, nearly all were hatched. He estimates he had 45,000 chinook and 12,000 silverside eggs to commence with, of which 80 per cent of the chinook and 35 per cent of the silversides hatched. He wants Mr. McGuire to come down and investigate the matter, and will hold the young fish for two or three months to see how they will thrive. He would like to have a hatchery established on the Siuslaw, and says Mr. Kyle, of the Florence Canning Company, is willing to give a few hundred dollars to help along and he thinks Mr. Elmore of the other cannery will do the same. The fishermen there are very enthusiastic over the matter and will do all in their power to help the scheme along.—Eugene Guard.

We all know that any tired muscle can be restored by rest. Your stomach is a muscle. Dyspepsia is its manner of saying "I am tired. Give me rest." To rest the stomach you must do its work outside the body.

This is the Shaker's method of curing indigestion, and its success is best attested by the fact that these people are practically free from what is without doubt the most prevalent of all diseases. The Shaker Digestive Cordial not only contains digested food which is promptly absorbed without taxing the tired digestive organs, but it is likewise an aid to the digestion of other foods in the stomach. A 10 cent trial bottle will convince you of its merit, and these you can obtain through all Druggists.

Laxol is the best medicine for children. Doctors recommend it in place of Castor Oil.
