If the Mills crowd knives the straight-outs, and the straight-outs bolt the Mills candidates, there will be few successful republicans this year in this county.
At the council meeting Monday night two ordinances were read the second time. The matter of paying the claims of certain witness fees was put off until next meeting.
Somebody writes from Hobsonville, "Please change HEADLIGHT to Bay City." He didn't sign his name however, and the fulfillment of his desires will be delayed.

J. E. Crandall and family intend starting for Tillamook this morning, to be gone several weeks. Ed. has some painting contracts over there. We wish them a pleasant trip and a safe return.—North Yamhill Record.
Henry Alderman is engaged in the McIntosh & Townsend creamery. He says he finds it a great deal more congenial than politics. A whole lot of politicians would be better off learning to make good cheese and butter.
A life insurance agent is here looking for suckers. The Woodmen or Workmen are good enough for Tillamookers, and they don't pay a fat sleek agent \$10 per day, or a \$50,000 per year salary to the president of the organization.

It is seldom you find pearls in a cesspool. Digging into old graves is neither pleasant nor profitable. There are skeletons in every closet. Leave them there unless a good purpose is served by turning them out. Remember some of those ugly rumors regarding yourself before you go dragging the dumps of vice for uncleanly objects of evidence against your neighbor.
Some ungodly, depraved, filth monger, who pretends to be a butter maker, brings to town and puts on the market occasionally some reeking, polluted, abominable compound which looks worse than axle grease, smells worse than rancid margarine, and tastes like the settlements of soured dishwater. It has the melfidious aroma of the cow stable, the consistency of soft soap, and is held together by numerous cow hairs of various lengths and colors. Our merchants

should spot the people who sell such rank accretions as butter, and discountinue to purchase their products. Any careful person can make pure, sweet, beautifully grained, good flavored, wholesome butter in this county, and there is no excuse for any other kind.
Republicans should settle down to support their ticket regardless of the A. P. A., silver question, old factional fight or any thing else. If we all start to settle old grudges, consider religious prejudices, and scratch of a few names we don't like, we can easily defeat all the ticket, or most of it.
Ben Perry keeps boats to let. He has several different kinds, and can fit you out with a light row boat, or a sail boat. He also has a hand-power stern wheeler which will carry a number of persons and make good time. Boats let by the day or week, at reasonable rates.
The steep grades and distance cut off by the improvements on the road to North Yamhill will be of great benefit, and much better time will be made this summer with less inconvenience to passengers. Mr. Messner will be running the stages clear through regularly as soon as the road dries a little. Messrs. Huston are putting the road in as good shape as possible.
Mrs. May Willey, assisted by some of her pupils and others, recently gave a musical which was very much appreciated by those present. Mrs. Dr. Wise kindly threw her elegant home open for their use. Some twenty pupils played very creditably. Mr. J. E. Sibley and family of Hobsonville, were present. Mr. Sibley entertained us with some selections on the violin, also Miss Josie Petre on violin.
Quite a number of claims are being offered Mr. Steinhilber at \$800 each or \$5 per acre. There is quite a body of good timber land tributary to Wilson river yet that can be purchased of the government at \$2.50 per acre, and it is expected a number of claims will be taken soon, with the intention of selling to the new syndicate, which will at once begin milling on a large scale if sufficient land can be obtained.
The printer's dollars—where are they? A dollar here and a dollar there scattered over numerous small towns all over the country miles and miles apart. How shall they be gathered in? Come home you are wanted. Come in single file that we may send you again to battle for our credit. Reader are you sure you have not one of the printer's dollars sticking to your trousers? Feel down and see if we are not right.—Exchange.
The silver party of Yamhill county nominated a full ticket. H. G. Guild, editor of the Sheridan Sun and Orm C. Emery, editor of the Newberg Independent were nominated for representatives. John Gill, of Yamhill county, the populist nominee for joint representative with Tillamook county, was endorsed by the silver convention. The two free silver editors, together with Bro. Clark, of the North Yamhill Record, who is also of the same belief, are likely to make a lively campaign in Yamhill county.

A very unfortunate and deplorable incident occurred at the academy this week, and though several parties are at fault, it seems impossible to locate the blame exactly as it should be. Some ugly gossip was going among the pupils regarding a boy and girl who were attending school there, and the little story was passed from one to another through the school with various modifications usual in such circumstances. Mrs. May the preceptress soundly thrashed one young man and three young ladies, and others were accused and threatened with whipping for the alleged gossiping. Some of the young ladies who claimed to be innocent, indignantly refused to be subjected to so degrading a punishment, and promptly left school. Those who were punished promptly left also. Some of those accused of lying and gossiping, vigorously deny it, though they say that there was considerable gossip by some, and that some of the real guilty parties who acted as informers were as deeply in the affair as any one, and escaped the accusations and thrashing only on account of their peculiar smoothness and the partiality shown. Every parent who has children there naturally feels that his or her own daughters are blameless and have told the truth, and is bound to such an opinion. It is alleged that some who quit tried to attend the public school, but were turned away on account of the public school being already overcrowded, and also because some of said pupils had been forced to quit public school on account of incorrigible behavior. Such affairs are to be regretted and the details are not fit to be printed, and while the mode of punishment was probably not justifiable, we wish to say right here that all decent, well-meaning people in this town should at once unite to stamp out this most damnable and contemptible disposition of gabbling and tattling. Certain slimy-mouthed, venom-tongued, scandal mongers should be ignored and forced to seek companionship only among their own dirty kith and kind. Too many good names have already been bedraggled and besmirched by the infamous slanderers, who wish to bring all down to their own level. These last remarks are made incidentally, and we assure the public that in the near future we shall give you a sermon on slander that will be more to the point.

Burned to Death.

N. A. Eberman was burned to death at his home in Seaside April 19. Mr. Eberman, who has been paralyzed for several years past, was left alone while the other members of the family attended the evening church service. About 8:30 P. M. flames were seen bursting from the Eberman residence. As the crowd watched the burning building, the body of the old gentleman could be seen in the center of the ruins. It was partially out of bed, and the old man had evidently made a heroic effort to escape. With his feet resting on the floor and his body leaning against the bed, he was literally roasted until scarcely a vestige of him remained.
The origin of the fire is unknown but it is thought to have been caused by the explosion of an oil lamp. The loss will amount to \$1000, and there is no insurance.

Mr. Eberman was born in Henry county, Tennessee, 74 years ago, and came to Oregon in 1843, locating near Skipanon. Shortly afterward he married a daughter of the Hon. Wm. Harrison, by whom he had 15 children, 11 of whom survive him. He was a veteran of the Cayuse war.—Oregonian.

[Wm. Eberman, of this city is a son of deceased.]

I. O. O. F. Celebration.

The Odd Fellows will celebrate the 77th anniversary of the foundation of the order on Saturday, the 25th. The 26th is the real anniversary but it comes on Sunday. A large crowd of Odd Fellows and their families are expected from various parts of the county.
Appropriate ceremonies will be held in the Christian church, after which there will be a grand spread of basket dinners in the large hall at the Allen House. The Rebekahs have charge of the celebration, and it is expected it will be a grand success.
Some friends of the order will give a grand ball in the Larsen hall at night. The price of tickets will be 50 cents per couple, and those who like can pay the usual price extra for lunch or supper.
