### Our Books Open.

We venture to state that this is the largest arculation in proportion to the population of range in the following order, beginning with the highest: Nchalem Times, Ocean Wave of Woods and Herald, of this place, we guarantee a larger circulation than all the others combin LIGHT lists and books are open for advertisers Therenever was a time but what the paper gained slowly at least, and the past two months has gained faster than at any time. We presame now we will have to grow only as fast as the county grows. Of the 1000 voters here. there are often several in the same family, there are several who board at hotels or in famies, some don't or can't read, some are too fore they would support it, and therefore we can't expect to have exactly all the people on our list, but we have about all the best ones. We are proud of the list and court investigation as to its genutioness, and only a few weeks ago we pared the 'dead beats' off very closely. This paper has has worked for development of the unity the past 8 years, and if we could have creased the population to 10,000 our list would be more than twice as large as it it. We thank our many patrons for encouraging the HEAD-LIGHT so substantially.
