I. W. F. Jones, manager of the Tillamook Headlight Co., do solemnly swear that the above is a correct statement of the average weekly circulation of the HEADLIGHT for April 1896.

Subscribed and sworn to before me this 4th day of May, 1896.

Notary for Oregon.

Our Books Open.

We venture to state that this is the largest circulation in proportion to the population of the county of any local newspaper in the state, and with due deference to our worthy contemporaries in this county, whose circulations range in the following order, beginning with the highest: Nehalem Times, Ocean Wave of Woods and Herald, of this place, we guarantee a larger circulation than all the others combined and will be pleased to compare our mailing lists and book with them in public. The HEADLIGHT lists and books are open for advertisers or others who may desire to test the accuracy of our statement, and the various post masters may be seen as to whether our figures are correct. We are proud of the list, considering the size of the county, and realize we can't get many more until we get more people here. There never was a time but what the paper gained slowly at least, and the past two months has gained faster than at any time. We presume now we will have to grow only as fast as the county grows. Of the 1000 voters here, there are often several in the same family, there are several who board at hotels or in families, some don't or can't read, some are too poor, and some are too stingy to take a paper. A few would see the HEADLIGHT in halves before they would support it, and therefore we can't expect to have exactly all the people on our list, but we have about all the best ones. We are proud of the list and court investigation as to its genuineness, and only a few weeks ago we pared the "dead beats" off very closely. This paper has worked for development of the county the past 8 years, and if we could have increased the population to 10,000 our list would be more than twice as large as it is. We thank our many patrons for encouraging the HEADLIGHT so substantially.

CATARRH

is a LOCAL DISEASE and is the result of colds and sudden climatic changes. It can be cured by a pleasant remedy which is applied directly into the nostrils. Being quickly absorbed it gives relief at once.

Ely's Cream Balm

is acknowledged to be the most thorough cure for Nasal Catarrh, Cold in Head and Hay Fever of all remedies. It opens and cleanses the nasal passages, allays pain and inflammation, heals the sores, protects the membrane from colds, restores the sense of taste and smell. Price 50c. at Druggists or by mail, ELY BROTHERS, 56 Warren Street, New York.

Fits Cured

Prof. W. H. Pecke, who makes a specialty of Epilepsy, has without doubt treated and cured more cases than any living Physician; his success is astonishing. We have heard of cases of 20 years' standing cured by him. He publishes a valuable work on this disease, which he sends with a large bottle of his absolute cure, free to any sufferer who may send their P. O. and Express address. \$1800.00 GIVEN AWAY TO INVENTORS.

\$150.00 every month given away to any one who applies through us for the most meritorious patent during the month preceding.

We secure the best patents for our clients, and the object of this offer is to encourage inventors to keep track of their bright ideas. At the same time we wish to impress upon the public the fact that IT'S THE SIMPLE, TRIVIAL INVENTIONS THAT YIELD FORTUNES, such as the "car-window" which can be easily slid up and down without breaking the passenger's back, "saucer-pan," "collar-button," "nut-lock," "bottle-stopper," and a thousand other little things that most any one can find a way of improving; and these simple inventions are the ones that bring largest returns to the inventor. Try to think of something to invent.

IT IS NOT SO HARD AS IT SEEMS.

Patents taken out through us receive special attention in the "National Recorder," published at Washington, D. C., which is the best newspaper published in America in the interests of inventors. We furnish a year's subscription to this journal, free of cost, to all our clients. We also advertise, free of cost, the invention each month which wins our \$150 prize, and hundreds of thousands of copies of the "National Recorder," containing a sketch of the winner, and a description of his invention, will be scattered throughout the United States among capitalists and manufacturers, thus bringing to their attention the merits of the invention.

All communications regarded strictly confidential.
