There are some fine prairies in the valleys. good qualities of his country in glowing colors, and people are becoming wary of places that some open hill land, much excellent tideland are advertised so highly.

I traveled over Oregou for a year investigating carefully and deliberately the resour advantages of this favored state. I have traveled over Tillamook county, remaining a year, and will give the actual facts, so that anyone coming here will not be disappointed.

This county has a great future before it. The opening of the Nicaragua canal, which has This county has a great future before it. sight to secure timber claims along the pains. Many poer men have taken claims of this kind, selling out to good advantage after proveing up. There are some good claims left. When work begins on the Nicaragua canal, the value of all this timber will be greatly enhanced.

I find some poor and some good land in this county. The bottom land is the best, but it generally needs clearing, and the tide lands, often open, are also good. A person who has not seen mills and several small ones in operation this industry has barely commenced. The painter of the paint the enormous crops raised here, of fine quality, can hardly believe the truth ragarding our various products. Farming and stock raising pays, but dairying is the leading and best paying industry at present. Tillamook butter and cheese, except the products of Switzerland, have no equal, the pure water, invigorating climate, and nutritious feed, like in Switzerland, being suited for it. This county leads the state in the dairying business, and feed for cattle is easily produced here. The grass is green all the year.

ced here. The grass is green all the year.

It would delight some of our eastern farmers to be here—a good crop sure every year, I was cheese on the coast is made here, the climate, astonished to see farmers near Tillamook owning only 15 acres, keeping 5 cows, and supporting a large family of 10 or 12 members, besides putting a little money in the bank all the time. astonished to see farmers, besides putting a little money in the bank an one that a large family of no or 12 members, besides putting a little money in the bank and the county, though new, takes the dairies and the county, though new, takes the ing on the street corners in town or attending all the evening dances, they work their ground lead of the state in the dairying business.

There is grass here the year around. Hay can be the property and protections are entered and protections.

Ing of the street corners in town or attending all the evening dates, they work the sound in the longing and at their cows regularly.

There are many ways for one to make a living here. Work can be obtained in the logging camps and at other vocations. It is said this is the best lazy man's country in the world, as one can live here on fish, clams, game and wild berries. However, those who come here should small fruits and vegetables of all kinds yield have some means and be industrious. It is easy for such men to get a start and make money.

I find the climate mild and pleasant, cool in summer, and warm rains in winter. There are no eyclones, frost and snow are rare, and very little fog. Sickness is not prevalent. Fevers, malaria, diphtheria and ague are not known here. Consumptives and rheumatics improve rapidly exquisite flavor.

owing to the purifying sea breeze.

Families come here from all parts of the state to camp on the beaches in the summer, and some come all the way from Idaho and Montana.

There are dfsadvantages and defects here, the same as elsewhere, but I don't know f a better place, and none that can equal it, except Coos county, on the coast, in the southern part of the of the interior counties. one that may be considered bad by those not accustomed to it, is the fact that it rains here on the beach sands.

Gold-mining is carried on quite extensively on the beach sands. nearly all winter, and is very wet, in comparison with the dry cold winters of some regions.

The scenery is magnificent beyond description, and the Tillamook coast is becoming a

rapidly constructed now-very fast considering this is such a new country.

It should be remembered that the timber here is a great and wonderful resource, not yet their picturesque arched rocks and wide fully developed, but as soon as the Nicaragua canal is built, many large saw mills will be built and the farmer can sell every article that he can produce, right at home, at excellent prices each year, many of them camping out all sumto supply the men who work in the mills and logging camps. ALVATION IS FREE!!! Those of you who have starved on the wind swept plains of Kansas, watched your crops wither and die for the want of moisture, and if they do live, see them eaten by grasshoppers or chinchbugs

saw your potatoes and gardens destroyed by gophers and prairie dogs--those of you who have faced the famine in Nebraska, burned corn to keep from freezing to death, fed your cattle nine months out of the year-those who have weathered the withering blasts of the Dakotas, had your ears and feet frozen off, shivered by a red hot stove or toyed with the death dealing zephyrs when the thermometer marked 60 degrees below freezo--you who have braved the uncertain and changeable freaks of old Boreas in Iowa and Minnesota, dug through snow banks to get from your house to your barnyard, or witnessed your buildings go up in a cyclone, --you who have shaken with the ague on the Wabash, coughed your lungs out in Chicago, wrestled with yellow fever in Memphis, or sneezed yourself silly on the alkali plains of Texas-saw your buildings, household goods, and crops floating placidly down the swollen Mississippi, saw your fodder rot in the shock, the weevil taking your wheat and the devil getting your nearest relatives--you who have seen crops fail seven years in succession, passed through a "busted" oi boom in Pennsylvania, the devastations of war in the South, the strikes in New York city, or tried to eke out a living on the yellow clay hills of Vermont--you who have worked hard for years, yet poor, everything mortgaged but the old woman and chilren, and still living from hand to mouth-you who are backsliders, weary of well doing, and discouraged in trying to earn a living honestly-if all these and many other afflictions have been your lot, why, at one fell swoop end all your troubles by coming to Oregon, and to Tillamook, where you will find absolution from most of the evils of the world.
