

1776 - JULY 4 - 1896

The Fourth is the most prominent day in American history, and the people of Tillamook will celebrate in true American style. All turn out and help us. Cohn & Co. will be with you in flying colors.

Their large stock selected for the Fourth of July trade has ar-

rived and is the finest ever shown in the city.

New line of clothing—new patterns in summer dress goods. The latest styles in hats. Everything up to date. Don't forget that we are the leaders of Low Prices, in all lines of groceries buying direct from manufacturers, which other retailers cannot do. Having our own wholesale house in Portland enables us to do so.

Bring us your produce if you want the highest price for it. We will buy all the wool, hides and butter we can get.

The band deserves great credit for the enterprise it has shown in serving the public with good music at small cost. The members are becoming quite proficient with their instruments and should be encouraged by the public.

The militia has left Astoria, and all is quiet as before. The fish are running light. The leading citizens and Non-union fishermen petitioned the governor to take them away, and he saw his mistake. The Governor was imposed upon badly.

Mr. W. Evans, the dyer and clothes cleaner, is rustling for business, and is getting a good deal of it. He is doing good work and at very low prices. No person able to do this kind of work was ever here before. It will pay you to take your faded or shiny suits to him.

R. R. Hays was elected as one of the delegates to the Head Camp of Woodmen which meets in Denver in August. He will represent the camps in Clatsop, Tillamook, Columbia, Washington and Clackamas counties. Mr. Hays will leave for the Willamette valley again the 5th where he is engaged in organizing new camps.

The appropriation for the Light House road is all expended, and Mr. A. E. Withers, the government superintendent has returned to Portland. He will recommend that the timber be cut away to 100 feet on the south side of the road clear through. The road is finished and can be easily traveled with a wagon to within one-half mile of the Tillamook river at Tomlinson's place. There is little work to do, however, and it can be completed in a few days. It will be nec-

Marching Through Georgia.

[New Version as Sung by one of the Boys.]

Bring along the bugle, boys, and let our children see,
How we made her jingle in eighteen-sixty-three,
How we followed Sherman in his campaign to the sea,
While we were marching through Georgia.

CHORUS.

Hurrah! Hurrah! we sound the reveille;
Hurrah! Hurrah! for the gallant battery,
The boys were always in the front until they reached the sea,
While we were marching through Georgia.

How we lost our money at the chuck-luck game we played,
How we made our breast-works with shovels, pick and spade,
How we cleaned the chickens out at every place we stayed,
While we were marching through Georgia.

CHORUS.

How we fooled the officers that came in late and green,
How we carried commissary in our old canteen,
How we run the Pickets without ever being seen,
While we were marching through Georgia.

CHORUS.

How we formed our skirmish line as we marched along,
How we thought of something else besides this good old song,
How we all skedaddled when we found the Rebs too strong,
While we were marching through Georgia.

CHORUS.

How we relished that old black coffee we made as strong as lyd,
We ate our old sow belly instead of chicken pie,
We flirted with the mesdames some; how is that for high?

While we were marching through Georgia.

CHORUS.

While this march was going on in eighteen-sixty-four,
The copper-heads they met in barns as oft they did before,
Declared this war a failure and fought the draft for more,
While we were marching through Georgia.

CHORUS.

God bless our dear old comrades who have crossed the golden shore;
We miss their dear old faces; we do not see them any more,
We'll protect their wives and children when the wolf is at the door,
While the Grand Army stays together.

CHORUS.

that the people in the south end of the county have suffered such impositions so patiently, and it seems forbearance would no longer be a virtue on their part. We suppose they get used to such a state of affairs and neglect to kick. If they don't kick long and hard however, they will always be imposed upon. Some even think that the roads are as good as could be expected, but the fact is, it takes little or no work to keep the roads in as good condition as they are, and the rates of toll are excessive, and considering the horrible condition, the people should not pay a cent of toll, and band together to carry the matter to the supreme court in every instance. The bridges on the Baxter road are mere death traps and should be condemned at once. The Little Nestucca people are so forbearing that they will soon lose the respect of the balance of the county, especially considering that the outsiders, campers, are not charged as much toll as the settlers. It's a wonder they don't take the law in their own hands.

For the third time we remind the merchants here that the appropriations for improving Tillamook bay are now available. Quick and emphatic action must be taken if we want the money spent here this summer. It seems the people here are too miserably slow to accept a good thing when it is within their grasp, but they willingly devote all their time fighting each other.

Any person who wishes to purchase a good livery and feed business, with a full line of buggies, vehicles and stock, can get a bargain by calling on L. L. Stillwell, Tillamook, Oregon. Will sell cheap for cash or will trade for other property. Only livery stable in the town or county. Large two story barns room for thirty head of horses, corral, good two story residence, three lots, on main street, centrally located, go with the business.

When the Little Nestucca people want to do trading, they should come to Tillamook, where they can get goods as cheap, and cheaper in many instances, than in Sheridan, besides saving the toll.

If they must trade outside, they should travel the free Slab creek road. And, the citizens down there should never rest nor abandon their fight until the county court makes a free road from Little Nestucca to Dolph.

The court seems disposed to do the settlers justice, and we believe there will be no further hesitation in granting it to Little Nestucca people.

Some of the tall roads in this county should be fixed up or made free.

The Three Rivers road is in a bad condition also and the court should allow no tolls to be collected until the road is greatly improved.

It is wonderful

to see his ad in this paper. Some of the prices he quotes are astonishing. He will send you a catalogue with pictures and prices, and you are sure to do some trading with him if you get his catalogue. Mr. Gadsby is reliable, and he wants to build up a big trade in Tillamook. It will only cost you a postal card to get his large, illustrated catalogue. Address, Wm. Gadsby, 113 St. Portland, Oregon.
