SOME POLITICAL REMARKS.

A little gold-bug silence would help McKinley a great deal in this state.

Protection is a very good issue and the most practical for the republicans of this state.

Let's have a diamond standard; it would be so much safer you know and the few who own diamonds could regulate matters so easily.

Voters, a few men sneer at you and tell you that the majority of you don't know how to vote—can't govern yourselves. How do you like it!

The repudiators are those who threaten to pay savings bank deposits, insurance losses, laborer's wages, for farmers produce, etc. in half money.

Talk about anarchists! What is worse than the men who threaten to wreck the country, create panics and foreclose mortgages on homes unless people vote a certain way.

We have no kick against the local gold bugs, but it is against those who live in Europe and have their agents on Wall street. We are sorry for those here who are led around by them.

How do you like to have a few men fling the lash over your heads abuse you, call you lunatics, tell you that you are incapable of self government, and then demand that you vote as they say?

If the Oregonian and a few other blatant domineering papers would shut off their abuse, McKinley would stand some show of carrying Oregon. As it is, many of those who are daily insulted are liable to resent it in an emphatic manner. Gag the Noisygonian, and McKinley is all right in this state.

We intend to vote for McKinley, but we contemptuously resent the domineering of those who threaten ruin unless he is elected. No amount of bulldozing or cajoling is likely to make or unmake votes for any man these times. People are beginning to think and act for themselves.

Every effort is being made to scare the people into a notion that the gold bug idea must prevail. All kinds of threats are made, all kinds of reports circulated, and the money power is just now trying to pinch the people as a terrible object lesson. The people don't scare worth a continental, and it should be remembered that even a worm turns some times.

The gold bug papers have told us a thousand times lately that the silver dollar is worth only 53 cents, and that it passes only because it or the silver certificates are redeemable in gold. We all knew that and called attention to it before the gold bugs did. This state of affairs is exactly what we object to. We want to give silver a fair chance only (not try to legislate value into it) and it will be worth as much as gold. The chestnut about the Mexican dollar containing more silver than ours, is familiar to all of us, and understood as well as the fact that the Mexican dollar is worth only half

as much as the greenbacks, which are intrinsically worth nothing. The silverites are well informed and can't be fooled by any such play on logic. Mexico is prosperous today—more so than ever before, and doesn't bother much about gold. Give us something new. Don't forget that the silver people are studying this question more than others and the more it is agitated, studied and understood the stronger they become.

Some people laugh at the idea that the government stamp can make a piece of paper as good as money. Yet its stamp makes 50 cents worth of silver worth a dollar, and at a time when there is no gold in the treasury to redeem the silver or silver certificate. As the faith of the public in the government is so great that the bonds bring a premium of 10 to 15 percent, why not use the government's good credit—stretch its tension—a little farther, and issue a few more promises to pay—greenbacks in place of issuing bonds and paying interest on them?

Repudiators! Who are? You say the government's honor is at stake! Of course it is. It should be conducted for all alike. You ask if anybody proposes to pay their gold obligations in depreciated silver. No. It's not coming to this. You gold bugs threaten, however, to pay insurance policies savings bank depositors, workingmen's wages, for farm products etc in depreciated silver. You are the repudiators. Why, you loaned money when it was worth only half what it is now, and you are foreclosing mortgages because you can't get dollar for dollar, with big interest, when a dollar will buy what two dollars would some time ago.

In placing your advertising, consider the circulation of the paper. A paper that has 800 subscribers is worth four that has less than 200, as an advertising medium. The HEADLIGHT will submit its list of subscribers to advertisers. Will any other paper in this county do the same?

In the last three months, notwithstanding the hard times, more advertising has been done and more subscriptions taken by the HEADLIGHT than ever before in the same length of time since the paper was started, and it now has a larger patronage than ever before. Of course, in making this statement we must except the times when this paper was receiving such large numbers of land notices and while the receipts of the paper were very large then, the present business depends upon the local support mostly.

When your stomach begins to trouble you it needs help. The help it needs is to digest your food and until it gets it you won't have any peace. Stomach trouble is very distressing, very obstinate and very dangerous. Many of the most dangerous diseases begin with simple indigestion. The reason is that indigestion weakens the system and allows disease germs to attack it. The antidote is Shaker digestive cordial, strengthening, nourishing, curative. It cures indigestion and renews strength and health. It does this by strengthening the stomach by helping it to digest your food. It nourishes you. Shaker digestive cordial is made of pure herbs, plants and wine, is perfectly harmless and will certainly cure all genuine stomach trouble. Sold by druggists, price 10 cents to \$1.00 per bottle.

Successful management of the calf lies at the very foundation of stock raising, and there must be no slack in attention or watchfulness. Scouring, the bane of calf rearing, indicates indigestion, and results from over feeding, irregular feeding, giving food too cold, or permitting the young animal to get chilled or wet.

Oregonian and HEADLIGHT, \$2 per year.

DR. DARRIN IS COMING TO TILLAMOOK

He Will Arrive in This City September 1st, Stopping at the Alderman.

AN EMINENT SPECIALIST

His Success in Treating Diseases is Simply Marvelous.

List of Endorsements From People Who Have Been Cured By Him.

The HEADLIGHT is pleased to announce that the renowned physician, Dr. Darrin will soon be in Tillamook. Dr. Darrin is not simply a medical practitioner, but a physician of a very high order of merit, a scientist—one whose years of close study, close observation, close practical experience, has enabled him to draw not only the testimonials, but the highest personal endorsements from the leading men of the country—congressmen, judges, etc.—and whose success in the medical field is today without a parallel. Dr. Darrin has an enviable rank in his profession as a wonderfully successful physician. He is essentially original in his method of practice, and those who have been under his care are surprised at the newness and novelty of his system of practice by electricity. His honesty and straightforward advice before taking a case has won for him the confidence of his patients as well as the general public. The Dr. is a gentleman of genial, social nature, and his private practice is marked by the formation of a personal friendship with those with whom he comes in professional contact.

Dr. Darrin makes a specialty of all diseases of the eye, ear, nose, throat, deafness, catarrh, bronchitis, la grippe, consumption, dyspepsia, constipation, heart, liver and Kidney diseases.

He permanently cures all diseases of the genito-urinary organs in either sex. Such as syphilis, blood taints, scrofula, gleet, gonorrhea, stricture, seminal weakness, spermatorrhea, loss of manhood, and loss of desire or sexual power in man or woman.

All pectifiar female troubles, luehorrea, displacement, etc., are confidentially treated, as well as all acute, chronic, private and nervous diseases of whatever nature, if curable. No cases taken if not. Consultation free.

Office hours are 9 a. m. to 8 p. m. Charges low and reasonable, according to circumstances and ability to pay.

Patients can be cured by home treatment after one visit to the doctor's office. All business relations with Dr. Darrin are strictly confidential. Read the cures:

Ed Hynes, Albina, Or., catarrhal deafness, restored.

P. C. McFarlane, Vancouver, Wash., sciatic rheumatism cured, Thomas Buff, Mocksburg, Or., dizziness, kidney and liver complaint, restored.

J. R. Cunningham, Wapanitia, Wasco county, Oregon, total deafness two years in one ear and partially so in the other cured.

E. B. Chamberlain, Woods, Tillamook county, Oregon, afflicted fifty years with kidney and liver complaint and neuralgia of the stomach, cured in six months.

Henson McCoy, The Dalles, Oregon, deafness and terrible pain in the ear and head for six months, until he was nearly crazy, restlessness and insomnia, restored to health by electricity after all other treatments had failed.

Remember the time, Sept. 1st to September 15th.

The fact that cows in winter are milked in close, unventilated stables is one reason why so much of the winter made butter is poor to begin with and so quickly spoils. While milking if some loose earth or coal ashes be thrown over the freshly voided solid or liquid excrement, there would be less of what is called animal odor in the butter.

Principal Office, 249, Berry St., S. F. Mills at Truckee, Cal.

La Grippe!

DR. H. PATCHEN'S SPEC. is rapidly becoming an indispensable family medicine. It not only takes effect immediately, arresting the pangs of influenza, but acts on the emunctories of the system; thus freeing it of the accumulations of La Grippe of long standing. This is why rheumatism so frequently yields to this treatment and Disturbances of the Lungs, Stomach, Kidneys and Bowels are so quickly overcome. 50c per large bottle, 50c per small. Inquire of your Druggist.

H. C. THOMAS, Master,
Hobsonville, Or.

For your Protection.—Catarrh "Cures" or Tonics for Catarrh in liquid form to be taken internally, usually contain either Mercury or Iodide of Potassa, or both, which are injurious if too long taken. Catarrh is a local, not a blood disease, caused by sudden change to cold or damp weather. It starts in the nasal passages, affecting eyes, ears and throat. Cold in the head causes excessive flow of mucus, and, if repeatedly neglected, the results of catarrh will follow: severe pain in the head, a roaring sound in the ears, bad breath, and oftentimes an offensive discharge. The remedy should be quick to allay inflammation and heal the membrane. Ely's Cream Balm is the acknowledged cure for these troubles and contains no mercury nor any injurious drug. Price, 50 cents.

WANTED—AN IDEA Who can think of some simple thing to patent? Protect your ideas; they may bring you wealth. Write JOHN WEDDERBURN & CO., Patent Attorneys, Washington, D. C., for their \$1,800 prize offer.
