\$1800.00

\$150.00 every month given away to any one who ap-plies through us for the most meritorious patent during the month preceding.

We secure the best patents for our clients, and the object of this offer is to encourage inventors to keep track of their bright ideas. At the same time we wish to impress upon the public the fact that

IT'S THE SIMPLE, TRIVIAL INVENTIONS THAT YIELD FORTUNES,

such as the "car-window" which can be easily slid up and down without breaking the passenger's back, "sauce-pan," "collar-button," "nut-lock," "bottle-stopper," and a thousand other little things that most any one can find a way of improving; and these simple inventions are the ones that bring largest returns to the author. Try to think of something to invent. IT IS NOT SO HARD AS IT SEEMS.

IT IS NOT SO HARD AS IT SEEMS.

Patents taken out through us receive special notice in the "National Recorder," published at Washington, D. C., which is the best newspaper published in America in the interests of inventors. We furnish a year's subscription to this journal, free of cost, to all our clients. We also advertise, free of cost, the invention each month which wins our \$150 prize, and hundreds of thousands of copies of the "National Recorder," containing a sketch of the winner, and a description of his invention, will be scattered throughout the United States among capitalists and manufacturers, thus bringing to their attention the merits of the invention.

All communications regarded strictly confidential. Address

TILLAMOOK COUNTY.

Great Wealth of Timber-The Dairying Industry.

Tillamook bay is 40 miles south of the Columbia and 500 miles north from San Francisco The county is about 70 miles long, lying on the coast, and is 20 to 30 miles wide. There are four bays-Nehalem, Tillamook, Netarts and Nesers, generally navigable several miles, and five of them empty into Tillamook bay. These streams have fine water power and are excellent for floating logs. Many small creeks are good for water power or floating logs. There are several fine takes on Nehalem beach. Springs of pure water are found everywhere. Tillaook bay is a good harbor; and the others will be with proper improvement. Coasting schooners visit all of them.

mountainous, and covered with valuable timber. There are some fine prairies in the valleys, some open hill land, much excellent tideland and a great deal of bottom land, the last requiring clearing. There is coal in places, but the

timber is the greatest resource.

Here is the most valuable belt of timber in the United States, cedar, fir, spruce and hem-lock being the leading varieties. Some of these trees are 10 or 12 feet through, and 200 to 300 feet in heighth, straight as an arrow, free from limbs, clear and sound. The average fir tree is four to six feet in diameter, and no denser for-ests are known to exist. There is enough timber here to keep a hundred large sawmills sawmills and several small ones in operation, but this industry has barely commenced. The saw-mills alone will cause a good city to grow up

here, and will support thousands of people.

There is much fine farming land, and farming and stockraising pays, but dairying is the lead-ing industry at present. The best butter and cheese on the coast is made here, the climate water and feed being suited for it. several large creameries, besides many small dairies, and the county, though new, takes the lead of the state in the dairying business. There is grass here the year around. Hay can be easily produced, and root crops are enormous, so cattle can be kept with little expense. Small fruits and vegetables of all kinds yield abundantly. Apples, pears, prunes and plums do well, and cherries thrive in some localities. .6:00 p. m. abundantly. Apples, pears, prunes and plums do well, and cherries thrive in some localities.

6:00 p. m. Bee-keeping is profitable, and the honey is of exquisite flavor.

exquisite flavor.

The fishing interests here are great, and the salmon canneries give employment to many. The output of salmon—canned, dried or salted amounts to more than the wheat crop of some

Gold-mining is carried on quite extensively

The scenery is magnificent beyond description, and the Tillamook coast is becoming a popular summer resort. The beaches, with their picturesque arched rocks and wide stretches of white saud, attract many visitors each year, many of them camping out all summer. Clams, crabs, oysters, musels, all kinds of shell-fish, flounders, rock cod and other fish are plentiful and easy to secure. Speekled trout are abundant in the streams. Deer, elk, bear, grouse, ducks, geese, suipe and other are plentiful.

The climate is mild, cool in summer, warn rains in winter, little or no snow, seldom any ice, no drouths, no cyclones, thunder storms rarely occur, and there is very little fog. Straw-20.00 berries frequently ripen in December and Janu 20.00 ary, and cattle roam the hills all winter with-13.00 out being fed. There is absolutely no malaria 1.50 scarlet fever were never known here, and con-2.50 sumptives or rheumatics fare as well as any-

velop, but is making rapid strides in the way of improvement. Good roads are being built, industries are being started, towns are growing up, and a railroad is expected soon. The per-centage of increase is greater than any other county in the state according to the state census of 1895, there being now about 4000 people. This will be doubled before another zens who have means. It is not a good place for a poor man with a large family, unless he has an iron nerve and a good constitution for work. There is much government land yet subject to entry, but it is tar back in the hills covered with brush or timber. Yet, there are courageous energetic people taking places there all the time, clearing them up, and making homes.

Tillamook city, on an arm of Tillamook bay. is the principal town and county seat. It has Is the principal town and county seat. It has stores, sawmill, bank, newspapers, creameries, an academy, good schools, churches and lodges. The streets are well improved, and the town has electric lights. The population is about 1000, and it is building up fast. There is a daily mail, daily stages to North Yamhill, and in the summer to Forest Grove, on the Southern Pacific railroad. A boat makes weekly trips to Astoria, and one every two weeks to San Francisco, both carrying freight and passengers. There is a teiggraph line from Tillamook to the Willamette valley.

Nebalem, Woods, Bay City, Beaver, Doloh Whater valey.

Nehalem, Woods, Bay City, Beaver, Dolph and Garibaldi are ambitious places which anticipate much in the future.

The United States government is spending a few thousand dollars every year to improve Tillamook harbor. Seventeen thousand dollars was expended here last year, and we expect \$25,000 this season, besides a few thousand dollars to complete a road to the light house. The best time to come here is in July, August or September. The transportation facilities are better and more regular during these months.
