

GREAT HOLSTEIN COW.

A Black and White That is a Famous Butter Maker.

The cow in the picture is a good illustration of how an American breeder can take pure blooded old country stock and improve on it.

The American black and white is a smaller boned cow than her Holland ancestor. She has the distinctive dairy

AMERICAN HOLSTEIN-FRIESIAN.

points in a more marked degree, and she produces decidedly more butter than the original importations did.

The beautiful creature in the picture belongs to an eastern herd. She yielded over 62 pounds of milk in one day when she was only 2 years old.

The three ways of improving stock breeding, feeding and care have all been employed to bring about the results here summarized.

To Know a Good Cow.

A subscriber wants to know the points of a good cow, taking the Durham, for instance, and on what part of the body they are to be found.

Without saying anything as to the merits of breeds the Jersey cow stands today as the general type of the dairy cow, and all great performing cows of whatever breed or family are but variations of that form.

The Guernsey Cattle club, Peterboro, N. H., sends out a scale of points, free, that comes as near embodying the correct 100 points in dairy type as has been issued.

On and after October 10th, regular wharfage charges will be made on freight passing over our dock at Holstonville.

People who want First Class JOB PRINTING

AND WHO KNOW GOOD PRINTING WHEN THEY SEE IT INVARIABLY COME TO
