Larsen and Woolfe will make a strong team and they are certain to have a big run of work when the season fairly opens up.

Two applications will be made at the next term of the County Court by persons desiring to put a ferry across the mouth of the Tillamook River. Just what right the County Court has in the matter is a matter of dispute amongst the lawyers here. The HEADLIGHT doesn't care a rap about the matter so that we got the ferry. We can only express the hope that the County Court will not make a mess of the whole affair as it did once before, and thus cheat us out of a ferry altogether.

All fools day passed off quietly. There was the usual numbers of nickels laced down and the usual number of people who broke their finger nails endeavoring to pull them up. There were men who went about with spoons of white thread in their pockets, the end of the thread having been carefully poked through the back of the coat and left hanging down about 6 inches, and of course there were plenty of women who tried to pull off the unsightly "ravelin" not discovering that they were sold until they had pulled out about 20 of the 300 yards the spoon was warranted to contain. There were all kinds of sells and all kinds and classes of people sold but everybody was good natured and no harm done.

"How can Schilling's Best tea cost so little and be so good?"

Easy. It is roasted every day in San Francisco—like fresh coffee and peanuts.

Other tea is roasted once a year in Japan, etc—like stale coffee and stale peanuts.

John Harrington brought into Tillamook on the last trip of the Augusta, a new gasoline launch, the "Cora" of Portland. The Cora is a very pretty and trim little craft about 30 ft. long and 7 foot beam. She has quite a reputation for speed, and will doubtless become quite a favorite here. She takes the place of the Steamer Girtle which was taken to Astoria on the last trip of the same steamer that brought in the Cora.

We print this week the first of a series of letters from an old Tillamooker who signs himself "Hyrum Mossback Plunkitt" and who is supposed to represent the old situation spot, unfortunately still prevalent amongst a more or less limited number of people. For the sake of that class of people who most always have their jokes labelled, we will say that the letters are written in an ironical vein and the meaning must frequently be looked for in the direct opposite of what is said. The gentleman who writes the letters will not dissent to personalities as he has no enemies to punish, and thin skinned people who may imagine that they see their own portraits in any of the letters can rest assured that they were not in the author's mind when he wrote his letters. We shall have from Mr. Plunkitt an occasional review of current events from his standpoint that cannot fail to be interesting.

Beaver Budget.

For fear some one of our neighborhood might be needy as work is scarce as well as provisions, our citizens met Monday P. M. and after an appropriate speech by C. M. Isley was raised in cash, a committee of 3 elected with instructions to look out for all who might need help. That kind of work will measurably do away with padlocks.

Last Monday A. Stevens went to Tillamook with four horses for provisions. Something is wrong. Either our citizens are wrong by not patronizing our merchant or our merchant sells so high our citizens can't afford to buy from him. Which is it? Somebody answer, please.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.
