No old shelf worn stock; Everything new and up to date.

W. H. H. CAREY, OPPOSITE BANK.

COUNTY ITEMS.

GATHERED BY OUR CORRESPONDENTS.

A Brief Glmpse at Last Weeks Happenings.

Woods Wavelets.

(FROM THE OCEAN WAVE)

Sheriff Jackson came down to Woods Monday on official business.

Krebs Brothers received a raft of logs Tuesday; they have been running their new mill at Little Nestucca for few weeks but expect to commence sawing again at Woods shortly.

In another column "A Reader" takes us to task for venturing the assertion some days ago that it was not fair or just for ocean transportation companies to discriminate against this place in the matter of freight rates. Other towns that have reasonable rates have grown and prospered, partly at the expense of this county, and will continue to do so as long as present conditions continue. When merchandise can be delivered here at the same rates that other towns get, goods will be sold as cheap here as at other places. There are plenty of business men who would be glad to find as good a location for business as Woods provided goods could be brought here at reasonable rates; and if one could not, or would not, sell goods as cheap as they are sold elsewhere, others would.

Emma Items.

John Page was visiting at Emma last Sunday.
W. B. Veits of the south eastern part of the County was seen here last Thursday.

Albert Schetter and Albert Becker of Neskowin passed through here on their way to Cedar Camp on the 9th.

Elmer Jackson was in from Salmon River and says that many cattle are dying in that part of County.

Some fresh bear signs have been seen here telling us that spring has opened for good.

Vegetation has started, and grass has started to grow again.

Bay City Breezes.

The spring term of school opened Monday under the management of Prof. Fred Smith and Mrs. George Seward.

Abraham Cohn, of Tillamook, paid Bay City a visit last week.
Mrs. John Barker and Mrs. Orchard of Tillamook visited our burg last Thursday. Their journey home was not without excitement, but no serious harm was done.

Mr. Young purchased Frank Long's entire stock of groceries last Thursday. Mr. Long expects to start in business in the near future.

Mr. Young intends to go to Portland this month to purchase his spring stock of general merchandise.

Rev. Potter and wife visited the County seat this week.

Vesper Doty returned home on Str. Chilkat. He has recovered his eyesight, but his foot is not any better.

Hugh Barnard was a passenger out on South voyage of Str. Chilkat. Mr. Barnard is going to try the climate of Bandon.

The Chilkat has worked up a large passenger trade. Even on her voyage south she had several passengers from this port.

Mr. Long is trying the experiment of burning coal. Owing to the warm weather he will hardly be able to judge of its merits.

The Presbyterian and M. E. Sunday Schools are preparing a union Easter concert to be held next Sunday.

The protracted meetings at the Presbyterian church are being continued.

Prof. Smith expects his family on the next trip of the Elmore. They will reside in Mr. Bridgford's house.

Dr. F. R. Madison was a passenger in on Str. Elmore. He will succeed J. H. Bridgford as Inspector.

The North Pacific Steamship Co. has placed the Steamer Chilkat on the run between Eel River to San Francisco. The steamer Weott has been placed on this route, and on her voyage north will carry redwood lumber from Cook Bay to Portland. Capt. Dunham made many friends while here who regret the change, but the Weott will be better able to handle this run, and will soon develop a large trade.

Two years ago R. J. Warren, a druggist at Pleasant Brook N. Y., bought a small supply of Chamberlain's Cough Remedy. He sums up the result as follows: "At that time the goods were unknown in this section; to-day Chamberlain's Cough Remedy is a household word." It is the same in hundreds of communities. Whenever the good qualities of Chamberlain's Cough Remedy become known the people will have nothing else. For sale by S. J. Sturgeon.
The Rev. W. H. Weaver, pastor of the U. E. Church, Dillsburg, Pa., recognizes the value of Chamberlain's Cough Remedy, and does not hesitate to tell others about it. "I have used Chamberlain's Cough Remedy," he says, "and find it an excellent medicine for colds, coughs, and hoarseness." So does everyone who gives it a trial. Sold by S. J. Sturgeon.

Literary Notes

"Does Modern College Education Educate, in the Broadest and Most Liberal Sense of the Term?" is one of the most important inquiries that could be set on foot. This discussion, which is to be taken part in by President Gilman of the John Hopkins, President Dwight of Yale, President Schurman of Cornell, President Morton of the Stephens Institute, Henry Thurston Peck of Columbia, Bishop Potter and others of the most distinguished men of both the United States and Europe, is begun in the April Cosmopolitan by a radical inquiry into the educational problem along the lines of Herbert Spencer. President Gilman will follow in a direction almost equally searching. All together there is promised the frankest possible expression of opinion, and it seems probable that it will be the most thorough comparison ever made by educational methods with the needs of every-day life at the close of the nineteenth century.

The Cycler and the Cow.

Last Monday a bicyclist might have been seen scorching along the sidewalk of Main Street. Men, women and children, who heard the clang of the wheelman's bell hustled pell mell to places of safety. The wheelman sped by with a lordly air. What to him was the common herd that didn't ride a wheel? Further along he spied a cow on the walk. Loud clanged the wheelman's bell, but the cow was on a Tillamook sidewalk, and it knew it had some rights that even the wheelmen were bound to respect. It had been accused of being so poor that it couldn't make a shadow and in the sunlight, leaning up against a telegraph pole it was trying, with rather poor success, to prove its accuser a liar. The wheelman yelled and swore but the cow only smiled, and moved still more squarely across the walk. The wheelman stopped just in time to avoid a collision with the cow. He cursed little for the rights of the public, and nothing for the City Council, but he took off his hat to the cow, which, thereupon ambled into a vacant lot, and allowed him to pass by. Afterwards pedestrians were actually left in undisturbed possession of the walk for two and a half minutes.

On the editorial page will be found an article commenting on the action of the County Court in failing to stand by its implied agreement of giving all official printing to the HEADLIGHT. The editorial states the facts as they are. We regret that it became necessary to do so for personally we have found the commissioners and judge pleasant and social gentlemen. But their official acts we have found, so far, as the HEADLIGHT is concerned, anything but fair, and henceforth we propose to show things up in their true light no matter who it hits or how disagreeable the task may be. The HEADLIGHT only asks for fair treatment for itself and its readers.

The Rev. W. H. Weaver, pastor of U. E. Church, Dillsburg, Pa. recognizes the value of Chamberlain's Cough Remedy, and does not hesitate to tell others about it. "I have used Chamberlain's Cough Remedy," he says, "and find it an excellent medicine for colds, coughs and hoarseness." So does everyone who gives it a trial. Sold by S. J. Sturgeon.

There's only one kind of printing that we don't do. That's the poor kind. That's the kind you don't want. But when you do want something that is neat, clean, right-up-to-date, printed on good paper, with fine ink, from type that is new, and of the latest face, set in an artistic and intelligent manner—in short, when you want a strictly first-class job, just drop into our office, and make your wants known.

BOOMED TO DEATH.—George Smith received a letter a few days ago from J. E. Sorbin, who is now at Roseland, says the Corvallis Times. In the letter Mr. Sorbin gives a rather crisp statement of the condition of affairs where he is. He says the country is doomed to death, and men of all trades and professions are there, and there is nothing for them to do. A house of 20 rooms will rent at \$200 per month, and others in proportion according to size. City lots sell at from \$1000 to \$6000; board and lodging is from 7 to \$10 per week! The average laborer will get \$2 per day, while professional men receive from \$3 to \$4 per day, when they are lucky enough to find employment. There are now 1000 idle men in Roseland, and those who command means are leaving. Freight from Portland there is \$50 per ton, and there is a 25c duty. Snow is now four feet deep at Roseland.

Americans are the most inventive people on earth. To them have been issued nearly 600,000 patents, or more than one third of all the patents issued in the world. No discovery of modern years has been of greater benefit to mankind than Chamberlain's Colic, Cholera and Diarrhoea Remedy, or has done more to relieve pain and suffering. J. W. Vaughn, of Oakton, Ky., says: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy in my family for several years, and find it to be the best medicine I ever used for cramps in the stomach and bowels. For sale by S. J. Sturgeon."

ANSWERS HARVEY

THINKS HIM SOMEWHAT INSINCERE.

Wants Some Figures Published in the Headlight.

Oretown Ore., Mar. 31st 1897.
Editor HEADLIGHT.

Mr. Anon has seated himself and grasps his pen with a firm grip. Since the knock-out blow, which a recent issue of the HEADLIGHT conveyed to him.

To be honest, it was one of those left hand swings. Just such a blow that floored Corbett, and for a while we were completely floored.

Now as Mr. Harvey uses his language with such force, and qualifies it with You's and Misters in such profusion, and really gets sulphureous, we ask the readers of the HEADLIGHT to allow us in this one reply to "dig em up" in his own kind, and from this on we will confine ourselves to something better than to throw mud and to make little flings.

First, we wish to correct one item, which as it appeared in the issue of 12th was not as we intended it should be, either our mistake or the printers. It makes us say that \$200. should have done twice as much work as was done. This muck we wish to correct. Now as to what we said we still say: the work performed by two men, the honored Commissioner lays too much stress on.

It was one and one team put on the road 20 yards of gravel, couldn't two teams and four men have more than doubled the work? If one man bosses the job and shovels, couldn't he work 12 men as easy?

Now Mr. Editor, we saw the Hon. Commissioner on the road leaning on his shovel, while the two men performed the operation of fishing gravel out of the creek bed, about 60 yards away, and for this, and for more days about this time, a job was waiting him at \$1.50, and yet he worked for the County for nothing, and let the man who shoveled gravel boss the job, and draw \$1.00 per day. If it was any other man than Commissioner Harvey we would smile. But as it is him, we dare not. Now one word more as to "putting up or shutting up." We are in no mind to do either. We have lived in the County long enough to work the roads seven seasons, and during this time we have known Mr. Harvey, being on the road with pick and shovel but one season. He may have been represented by some one else, as in the case above, or worked in some obscure place by himself.

As to Mr. Harvey's proposition to work the roads on a dare, for nothing, we doubt its genuineness and sincerity. This is bluff or buncomb of the thinnest kind. This don't cover the issue between Mr. Harvey and the people. As to being one step nearer the office of Commissioner, we don't aspire now nor never have. If ever we do, we will tell Mr. Harvey that we will never take the whole proxy vote of our precinct in our pocket, and go to convention to receive the nomination of ourselves. We may work the roads for nothing, but this we will not do.

A word as to the cash amount of money for this district. We have asked Mr. Harvey at different times, and he either didn't know or wouldn't tell. We don't know which, for we could never find out. We don't know of our own knowledge to day, but we have reasons to believe that the money which belonged to this district has not been expended here, and it would be a great satisfaction to the people to know the shape our fund is in. Mr. Harvey says the HEADLIGHT will publish any thing good, (since the HEADLIGHT floored him recently,) and so why not publish this? We ask Mr. Harvey to get the clerk's statement of the fund, and publish it. Then all may know. If we are wrong, we will acknowledge it, but not until then. As to taxes, Mr. Anon don't pay any taxes. Does Mr. Harvey? Speak up; be truthful!

Now as to our personality, and why we have assumed the nom de plume "Anon," that is our secret but we may continue favoring him by digging him up occasionally.

Anon.

Last week two cases were tried in Judge Sappington's Court, which were of considerable local interest. Wm. Barker sued D. Tempest to replevin some stock which Tempest had wintered for him, and then kept because Barker refused to pay for the wintering. Barker contended that the stock had been so starved as to be damaged more than Tempest's bill amounted to. Plaintiff was represented by E. E. Selph, and defendant by I. T. Maulsly. The case was decided in favor of Mr. Tempest.

The other case was somewhat similar. Joseph Harrison sued Mr. Tempest to replevin some stock held for pasture. Three cows were dead, and one horse and one cow furnished the basis for the case. Mr. Selph was Attorney for Plaintiff, and I. T. Maulsly for defendant. The decision in this case was in favor of the Plaintiff.

Notice is hereby given that the undersigned has been granted right to maintain a ferry across the Tillamook river on the county road, near the mill of the Pacific Lumber Co. and

That I will have the same ready for the accommodation of the public on the first day of May, 1897.

Rates reasonable.

Dated this 25th day of March, 1897
A. Zacher Prop.
