The HEADLIGHT has Double the bona fide Subscription list of any other Newspaper in Tillamook County.

Telephone No 6.

Office corner of Main and 2d streets.

The HEADLIGHT is heartily tired of the fight between itself and the County Court and had hoped that since the matter was settled by the awarding of the county printing to itself, the controversy could be dropped. It seems however that it is not so and in defense of our own rights we are compelled to make a statement with reference to certain printing. In doing so we have nothing to say about the other paper published here. Our fight is with the County Court. Some time since certain bridge notices were to be published. The law does not specify what paper they shall be published in but common sense dictates that they shall be published in the county official paper which the court itself decreed should be the HEADLIGHT.

The notices were not brought to the county official paper but given to the other paper and the people who had a right to expect to see those notices in the HEADLIGHT did not get to see them at all unless they also took the other paper. Recently the County Treasurer desired to published a list of warrants due and payable. He asked Judge Conder what paper they were to be published in and was instructed not to give them to the HEADLIGHT, the county official paper. why did he do this? The HEADLIGHT is paid to do all this work and stands willing to do it. The county will have to pay it for doing the work anyway; then why not have it do the work? Judge Conder claims that the other paper will *not* charge for doing the work but he has no contract to that effect and in the absence of a contract it can charge for the work if it desires and the county will have to foot the bill. But whether it charges for the work or not, such notices are official notices and belong to and should be published in the county official paper. The only object in refusing the Headlight the notices referred to is to make the people take another paper than the county official paper in order to get the official news and to get even with the Headlight for having dared to question the infallibility of the decisions of the county court. The court it seems has never forgiven the Headlight for the rather severe knockout administered to the court last winter in the matter of the county printing and it is using every possible endeavor to rob the Headlight of the notices which people have a right to expect to see in the official paper. It also seems that notwithstanding the fact that the court had to reverse itself and give the county printing to the Headlight the other paper, still under its five dollar contract, claims the official notices and the court is trying in its weak small way to bolster up the other paper's claim to being official. We have nothing against any of the members of the court personally but it is to their worse than childish methods of doing business and the mean, petty spite manifested that we object.

However the readers of the Headlight need not worry for they will see in its columns *all* the official notices, the County Court to the contrary, notwithstanding. And in addition to this we promise to keep the people pretty accurately informed of the official acts of that august body that unfortunately at the present time has control of public affairs. This fight is not of our seeking nor to our taste but when it comes to defending the rights of our readers we no longer have any choice in the matter and must either fight or turn coward and cowardice is even less to our taste than fighting.

Whenever the County Court begins to do business in a square manly fashion the Headlight will cease all criticism. We remained silent under the wrong of being defrauded out of the bridge notices but when that contemptible spirit was carried to the extent of ordering the County Treasurer to give the notice of warrants payable and all other offiicial notices to another than the official paper we considered that forbearance had ceased to be a virtue and hence this protest. If any one doubts any of the statements here made they can easily verify them by inquiring at the County Clerk's office.

"The powers" we are informed in cable dispatches have concluded that if Greece insists on going to war with Turkey and proves victorious, she shall in no wise be allowed to enjoy any of the fruits of victory. All this sounds very great, very grand and very dictatorial, but do "the powers" consider in this manifesto what constitutes them "powers." Their power arises from the willingness of their subjects to fight for their sovereigns. It is a well known fact that outside of Russia where there is no public opinion, public sentiment in the armies and navies and amongst the common people is almost universally against the attitude of "the powers" and should the crowned heads and pampered lordlings of Europe insist on their present policy they may find that before the war is ended which Greece may inaugurate they may cease to be "powers." The time when they were willing to be murdered simply for the aggrandizement of their sovereigns may be nearer at an end than these self constituted lords of the people suppose.

General Weyler has concluded not to have General Riviera, the captured Cuban patriot court-martialled and shot. His orders to the contrary when General Rivera was first captured have therefore for some reason been set aside. The exact reason is not known but it is safe to say that the interest manifested in Rivera by the United States Government had considerable to do with it. Weyler is a great butcher but not an utter fool.

The attorneys for murderer Durrant of San Francisco are now asking the Supreme Court of the United States for a stay of proceedings until an appeal to that august body can be prepared. If the people of San Francisco were only given half a chance they would dispose of Durrant at much less expense than by the process now employed.

"Today English men-of-war stand ready to bombard Crete if the Greeks do not withdraw their few troops and allow the infidel tocontinue his massacre of the Christian as commanded by Mahomet; English diplomats are busy forming a coalition of European powers to overawe their weakest yet strongest brother. It was England who said, "Hands off" to the world while the Turks murdered three hundred thousand Armenians. Mighty England! And faithful to her example, we have fallen with her, consistent imitators even in her degration. We have Cuba as Englnd has Crete and we glory in it.

Americans are murdered for a pastime in Spanish cells while an American Secretary of State and a Spanish Minster exchange polite nothings over their black coffee and cigars. Spain laughs at the howlings of our press; for she knows that an American President will never stir for fear of disturbing trade and causing a fall in American and English securities. In Cuba as in Crete it is past the question of politics, it is a question of civilization and humanity, and yet because the London *Times* does not denounce us as cowards and poltroons but rather pats us on the back and commends us for our conservatism we are contented and happy, sun ourselves in their smiles, and allow our citizens to be knocked on the head or have their throats cut in Havana without a protest.

Such schools do not graduate Truxtons, Prebles, Decaturs, Perrys, or Paul Joneses Neither do they bring forth Howards or Nelsons. They are productive rather of Rothschilds and Pierpont Morgans. —Overland Monthly.

Concernin Immygrashun.

Editer HEDLITE.

Deer Sur.

I have heerd sum goossip on the streats to the effect that notwithstandin the fackt that in my letter last weak I spoke agin immygrashun, a passel of immygrants has landed on our shores since then. Is that troo? If so what are we comin to? Our vacant lands are a settlin up. Cow paster is a growin skeercer. Even the sittycounsil of Till y-muck is a passin ordiences restrictin the rites of cows, and the maor aint a vetoin of em. Feller sittyzens we must cleer more land. These hands of ours that fer yeers hasent held enny thing mor'en a gun or fishpole must take up the ax and the grubbin ho? Fer ten yeers my wife has been a usin of mine, choppin fire wood and cleerin out roots. I expect thay'l be a site when I see em agin, wimmin is so hard on aige tools, onnecessarily so, I think

Then thare is sumthin else about these immygrants that looks kinder suspishus. Thare hands is hard and looks as tho tha worked hard and tha bring thare families. That meens that tha will have to russle and that meens that we will have to russle. But what I was agoin to remark is this. What is these people's religin? What is thare pollytix? What is thare idees on different things.

Last Sunday as is my usual habit I wuz to church, and I didn't see any of em thare? Why? Where ware tha? Were tha fishin? If so what an offal example tha were a settin. Its ondecent to fish on Sunday. It aint rite no how I fish every day in the weak and rest on Sunday; if others don't tha shood be put in jale and kept thare till tha lurn whats rite and whats rong. To go fishin on Sunday not only sets an ondecent example to the risin gennyrashun, but it makes fish skeercer. The bible says that the ox and the ass shall rest on Sunday and why dont that inklood the fisherman who dont go to church.

And speekin of goin to church;- perhaps these people went to sum other church. If so what rite had tha to do it? I beleeve in religus liberty-that is, liberty to git religin, and when people git religin tha usually jine a church that has religin and that hits my church to a t. Whats the use of church if it aint got religin? Cut it down why cumbiritli it the ground! I beleeve in fredum to worship God, but if tha are ignerent and fulish and wont worship rite tha do more harm than good and shood be legally diskouraged If know my church is rite because the holy goast tells me so and if thats rite everything that differs with it is rong and rong shood be suppressed. I sum of theese people what wont keep Sunday were put in jale and sum of those what keep it rong were put with em thayd mayby lurn sum sense. Put em in jale, give em the bible and the dissyplin, and when tha git so tha bleeve in them 2 books let em out. Sumthing's got to be dun soon or what will cum of us?

P S. Whats the matter with the Kounty Koart? Why dont yoo fellers let it alone? Why do yoo blame it fer livin up to the grate dimunykratic doctrin first promulgated by Grover Cleveland that 'public offis is a private snap'? Tha ma never have another snap! Tha wont if yoo dont shut up.

If we could trace Dyspepsia to its source, it would lead back to kitchens. In fact the secret of good health is good cooking. If well cooked, foods are partially digested; if poorly cooked, they are less digestable than in their raw state. If you are a victim of faulty cooking; that is, you suffer from Dyspepsia, the rational cure must be looked for in an artificially digested food, and a food which will aid the digestion of other foods. Such a food virtually rests the tired digestive organs, thereby restoring them to their natural strength.

Notice to Taxpayers.

The law requires that each male between the ages of 21 and 50 years living within the county shall pay a poll tax of one dollar ($1) at the time of assessment, and if not so paid, to be reported to the sheriff of the county, with added costs, for collection, at once. The law allows no exemption for poll tax, except to active members of the Oregon National Guard, and all active firemen who have been members of any company, for one year next preceding the time of assessment, and exempt firemen. That there may be no cause for complaint I ask that each person liable to poll tax be prepared to pay the same to the assessor, or his deputy, at the time of making the assessment. I ask the aid of every person in the county, that the law may be strictly complied with. Persons exempt will be required to show their certificate of exemption.
