After reciting the statutory provisions for acquiring railroads, the court continues: "The facts set out in each county exercise over all roads within its borders, and all applications for laying out, altering or locating county roads shall be by petition to the county court of the proper county" and the statute is quoted to show that petition to the county court is not a prerequisite to the exercise of the right to appropriate the road of a private corporation, and it is held that, after a corporation has been organized, and the right to appropriate to appropriate its property by the county court may be instituted.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
