

HEADLIGHT X-RAYS

Aaron Farmer and W. C. King and wife from Sand Lake were amongst those who look in the celebration here.

Dr. Wise arrived from Portland on Sunday, and is once more settled down as a staid and sober Tillamooker. His many friends are delighted to see him back again.

A. K. Fisher, who is connected with the historical department of the government, at Washington D. C., and who has been in town for some time, left for Yaquina bay on Monday.

"Skookum" was awarded the prize for the best character in the Calathumpians. It consisted of a bottle of Hood's Pepsin and Celery and was presented by the Williams Drug Co. It will doubtless be good for the animal's nerves.

Albert Malaney has just returned from Coos bay, Umpqua and other Oregon coast points. While absent he purchased the machinery for the Malaney Bro.'s new tug. Mr. Malaney says "Tillamook is all right," and that it is the very best point on the coast. The new tug is progressing rapidly.

Mr. Page's second-hand store furnishes a really desirable acquisition to the business places of this city. He buys and sells everything of value. His place is a veritable curiosity shop in which almost anything can be purchased. Mr. Page has sold nearly half a hundred stoves alone in the last six months.

The proprietors of the Forest Grove stage line complain that certain interested parties are reporting that the stage does not get into Forest Grove in time to meet the train for Portland, also that the stage does not make all its scheduled trips during the rainy weather. We have inquired into the matter and find both reports to be absolutely false. The stage has not missed the train in a single instance nor has it missed a trip since it started.

A rather annoying blunder occurred in last week's HEADLIGHT by which we were made to say that the celebration on Monday would be the 11th instead of the 12th. The type setter made the mistake in the figures, and the proof reader failed to catch the error. We were so crowded for time that everything went topsy turvey. However, we suppose that most of our readers can subtract 1776 from 1897 and get the correct figures.

The only accident that occurred in connection with the fourth of July, on Monday, was a runaway, which occurred on Main street. Mrs. Gupitt had driven up from Hobsonville, and drove up to the Allen House, the horse became frightened and broke away, running down Main street, and colliding with the ornamental trees in front of Cohn & Co.'s store, knocking down Peterson's barber pole. It finally struck a telephone pole, and broke loose from the buggy, which was badly smashed. The horse was finally caught near Captain Stillwell's place. Several persons narrowly escaped being run over, but fortunately no one was injured.

A Misstatement Corrected.

It has come to the notice of the committee which had the literary exercises and music in charge for the Fourth of July Celebration that it has been stated on the streets that the Orchestra which furnished the music for the ball, underbid other musicians to secure the contract. It is but fair to say that such is not the case. The parties who had taken the original contract broke it of their own accord and it was only on the urgent solicitation of the committee that Mrs. Stohard and the other players in the orchestra agreed to play at all.

Committee.

County Court is in session. Full report next week.

The two little sons of Frank Linville are here on a visit to their father.

John Westenburger and Wm. Grasshoff came in last Monday to stay awhile.

John Affolten of Salmon River passed through here last Monday with his team.

On Friday the infant child of Mrs. Henry Page, met with a terrible death by falling off of a foot crossing and was drowned in hawk creek near Mr. Page's residence.

There are several men here now looking for homesteads. This part of the country is settling up steadily with an industrious class of people.

A petty robbery occurred on the fourth of July at La Mode Millinery Parlors. Mrs. Williams was absent from home during the afternoon and part of the evening. A certain person was seen to enter the front door by means of a key. The party who saw the person enter did not know that the intent was burglarious and did not give the alarm. About \$4 was taken from the place. The party who took it is known and can save trouble by returning it.

News has been received from Slab creek that a little child of G. H. Page's was drowned there yesterday. There are no further particulars at hand.

A neighborly unpleasantness found an airing in the justice court Wednesday. The Headlight does not think it would be particularly edifying to its readers to publish either names or details.

Miss Mann, teacher of the South Prairie school, left on Wednesday morning for a visit to Portland. She went via the Forest Grove stage line.

A small blaze occurred in the southeastern part of the city this morning. The fire companies turned out promptly but found that the fire was far beyond the reach of their hose, it being located in the kitchen part of the residence of Orr Nolan. Fortunately the fire was put out by Mr. Nolan and the neighbors before it gained much headway.

The Mount Lebanon Shakers have recently perfected an ingenious cure for dyspepsia. Their Digestive Cordial consists of a food already digested and a digester of foods happily combined.

The importance of this invention will be greatly appreciated when we realize what a proportion of the community are victims of some form of stomach troubles. Thousands of pale, thin people have little inclination to eat, and what they do eat causes them pain and distress.

This Digestive Cordial of the Shakers corrects any stomach derangement at once. It makes thin people plump. Every one will be greatly interested to read the little book which has been placed in the hands of druggists for free distribution.
