COUNTY ITEMS.

GATHERED BY OUR CORRESPONDENTS

A Brief Glimpse at Last Weeks Happenings

Woods

(FROM THE OCEAN WAYS)

Mrs. Judge Gearin, of Portland, is at our resort.

J. B. Long starts toward Klondike with his little steamer Saturday.

E. E. Gooding and family expect to move to Salem in a short time.

J. B. Long with his little steamer Kiwanda towed the remainder of the lumber for the big bridge up through the Cut Off last Tuesday night. It will be hauled the remainder of the distance.

Mr. W. R. Wauans, state missionary of the American Sunday School Union, is in this vicinity organizing Sunday Schools; any districts thinking about organizing a Sunday school will receive his assistance by dropping him a card at Beaver where he will remain for a short time.

Last Tuesday at 2 o'clock Rev. Jess Faulconer, of Dolph, solemnized a holy matrimony which made Mr. Arthur Dimick and Miss Alice Sherwood, both of this place, man and wife. Quite a number of friends and relatives of the contracting parties were present who took part in the sumptuous wedding feast, which was served after the ceremony.

Bay City

Wm. Mills visited some of his friends here last Sunday.

Rev. Potter is moving into J. H. Bridgeford's residence.

Robert Watt is preparing materials for his new house, which he intends to build right away.

Lon Reifenberger, who works in the logging camp, had his foot severely crushed under the wheels of the tram car.

Jas. Mapes and E. L. Knight have gone into a new business. They are building vats and soon will be prepared to turn out first class leather, tanned in first class style.

If you do not believe that confidence is restored, you will be convinced by visiting the Truckee mill. They are all as busy as bees making very extensive improvements in all lines.

Winfield Cone is kept busy now looking up timber for different parties. He has been away for several weeks in company with several eastern capitalists.

Mr. and Mrs. Curtis had a pleasant surprise last Saturday by the arrival of the former's father and mother, and Mrs. Curtis' brother together with his family.

Rev. Potter will take his vacation next week, and will not return until after conference. His topic for next Sunday's sermon will be "Where the Money Goes."

Nehalem

(From the Nehalem Times.)

S. Thompson has moved his family into J. B. Pape's house.

Daniel Cronin returned Wednesday from a few weeks trips to Astoria and Portland. He reports considerable excitement over the Klondike gold mines.

Mr. Carlin, the well known cigar man from McMinnville, and C. F. Taff, a nephew of H. H. Downing, spent a day this week "whipping" the Nehalem for the "funny beauties." They brought in a fine string of fine large trout, the largest of which measured 18 inches in length.

The small stern-wheel river steamer H. C. Grady, which left the Columbia river a short time ago for San Francisco, has arrived there in good shape. This is the first trip ever made by a stern wheel-er on the Pacific for such a distance. She experienced some heavy blows, but by dextrous handling she weathered them all without any serious damage. She will be used in the freight business on Sacramento river.

Hebo

Sellie Kellow has been hauling stingles to Tillamook.

Mr. Johnson, of California, is stopping with his uncle, Mr. T. J. Owens of this place.

Trout fishing at night has already begun on our little river.

Jim Sloan, of Forest Grove, is visiting friends in this vicinity for a few days.

Part Edwards of this place passed here with a load of salmon from Tillamook last Saturday.

A. T. Bain, of this place, spent a few days in Woods last week repairing his nets and boat preparatory to fishing for salmon this fall.

South Prairie.

By way of apology for the lack of news from these parts, will say that your correspondent has been down with the Klondike fever, having only recovered sufficiently to be able to resume correspondence.

School District No. 2 has employed Miss Loretta V. Starr, a Salem lady of experience in teaching, to teach the fall term in the district. Her school so far is running nicely.

Dervy and Thomas Quick, old time boys of the prairie, have returned from a recent trip to Idaho, well pleased with their outing.

Gravel hauling is the order of the day here, although pretty well completed now, for the year. Supervisor Dailey is a "rattler" when it comes to making roads. Another season's work like this one, and we will have a fine winter road from Pleasant Valley to Tillamook.

Addie Harris and family have gone camping.

Haying is about over, oats and hay being now on the stocks.

This prairie is not going to do anything rash about the Klondike business, as that country is frozen enough to keep five or six years.

No mystery about it. When the Shakers offered some time ago to give away a bottle of their Digestive Cordial to any one who might call at their New York office, there was a great rush and a great many people thought they were crazy.

Subsequently events proved it to have been a clever advertising transaction, for although they gave away thousands of bottles, it was in the end profitable; nearly every one that took a free bottle came back after more and paid for it with pleasure, saying they had derived better results from its use than from any other medicine they had ever used.

There is nothing so uniformly successful in the treatment of the stomach troubles as the Shaker Cordial, and what is better, it relieves at once.

Laxol, the new form of Castor oil is so palatable that the children lick the spoon clean.

"I'm going out for a century run on the Fourth," said Columbus with a wink at Cicero, "just to show the later Yankees that you are not the only freckles on the nose of Liberty."

"Good," returned Washington, unsuspectingly; "what kind of a wheel are you going to ride?"

"The pin-wheel of course, on the day we celebrate. What one do you think?" roared Columbus, and Washington ruefully ordered lemonade and cigars for the crowd.

The price of the Headlight for the present month is retained at 75cts. per annum. At the end of the month it will be restored to former figures. Most of those in arrears have already paid up and renewed. The period of low rates positively will not be extended further.

"George," laughed Manhausen, "tell the truth, that cherry tree and hatchet story wasn't true, was it?"

"No it wasn't," said Washington. "It was grossly exaggerated. What I really did was to cut down an oak with a paper cutter."

And Manhausen took off his championship medals and pinned them upon the breast of Washington.

"Going to celebrate our day, Socrates?" asked Jefferson.

"I'd like to," said Socrates, "but times are hard, and I can't afford to buy any fireworks."

"Why don't you get your wife to help? She'll blow you up for nothing," suggested Jefferson.

"Poor old Diogenes," sighted Dr. Johnson. "He'll be laid up for at least a month."

"What's happened to him," asked Plato.

"Oh, he started to look for an honest man in the American colony last night and handled his lantern so carelessly that he set off a keg of powder. They say he'll come down in about 10 days."

GENERAL NEWS.

GLEANED FROM ALL OVER THE WORLD.

Conveyed in Short and Pithy Paragraphs.

SAN FRANCISCO, Aug. 3.—The steamer Beige arriving from the Orient, via Honolulu, this morning, and brought the following Hawaiian advices under date of July 27:

The arrival of the steamer Moano from San Francisco, due here July 29, means much for Hawaii. In close official circles it is generally understood that United States Minister Sewall will carry out his instructions received in the last, which are said to be to the effect that it the Moano brings word that congress failed to pass the annexation treaty, then Minister Sewall is to declare a protective and raise the American flag. Minister Sewall has had frequent consultations with president Dole within the past week and it is believed that they have agreed upon a programme.

NEW YORK, Aug. 6.—Bradstreet's tomorrow will say:

General trade shows the most pronounced gains this week, at Chicago, St. Louis and Galveston. The feeling of confidence that general business is to improve in the early autumn is in marked these cities, and purchases of dry goods clothing, shoes and other staples have increased heavily, and are followed by a disposition to move prices up. Purchases were restricted at Kansas City, Omaha and some other northwestern points early in the week, owing to the extreme heat, but rains and cooler weather have stimulated demand again.

On the Pacific coast business is brisk, the feature in California being heavy wheat shipments from San Francisco; at Portland large exports of lumber, and at Seattle and Tacoma active demand for supplies for Alaska and Northwestern territory, and for wheat, fruit and hops. The movement of the general merchandise throughout the country is unquestionably larger than last week. Cotton and woolen industries are better off, and the stagnation in the iron and steel has given way to a growing inquiry and increasing output. More significant still is the extraordinary expansions in bank clearings this week, and the last month.

NEW YORK, Aug. 6.—R. G. Dan & Co's weekly review of trade will say tomorrow:

Four years ago, August 5, 1893, a number of Dun's reviews was issued reporting failures in that month amounting to over \$60,000,000, while in the month just closed failures have been only \$7,117,727, the smallest in any month since 1892. The statement of failures by classes of business for July and for 45 months shows that in manufacturing lines, failures have been smaller than in any other month of the extreme period; in trading, smaller than any other month except one, and in many branches of each department, smaller than in most months of which records exist. The pessimists who pronounced reports of gain fictitious and misrepresentations, have grown weary of their dismal views, and begin to see the dawn of better days.

FOREST GROVE, Aug. 6.—Mr. Anton Planner, the banker, whose mysterious disappearance about two months ago excited so much comment, returned to Forest Grove this morning as unexpectedly as he left.

LONDON, Aug. 4.—A dispatch from Constantinople says the greatest activity is displayed at the Yildiz Kiok. Ministers are summoned to the presence of the sultan at all hours of the day and night.

The military commission is busy discussing special measures and ordering further supplies of war material, which, it is believed, are destined for Crete, as Djeved Pasha, the new commandant, has called for troops and ammunitions in order to crush the Cretan rebellion.

ASTORIA, Or., August 6.—The fishing season closes Tuesday. It is utterly impossible as yet to make an estimate of the pack, but it will probably be in the neighborhood of 500,000 cases. It is known that the fishermen's union cannery packed 30,000. Of the other packers, some have made the usual packs, while others have fallen below last year's output. The fishermen on the upper river have done comparatively nothing, the catches being very light. An up-river fisherman says the men have barely made expenses. On the lower river the men have done better, and all cleaned good wages. The high men on the lower river have 19 tons to their credit, valued at about \$1500. The seiners have made light catches, but the traps have done very well. Fish are plentiful in the river at present, and the next few days will probably see big catches.
