Salmon trout or grilse are biting well in the bay, but it takes unusually strong tackle to hold them. The editor knows to his sorrow that these huge many fellows make sad havoc with light fishing tackle.

Bob Hayes returned yesterday from Klondike. He exhibited a two bushel potato sack full of nuggets, varying from the size of a nut to that of a large sized Tillamook potato. He says that the only provisions he had left after the trip, was a ten pound package of dried fish and dog's heads. Daily press please copy.

Engineer Holcombe came in from Newport on Sunday evening's stage. Mr. Holcombe came here to survey the bars at Nehalem and here with the object in view of making needed improvements. He expects to charter the steam tug Maggie now lying at Nehalem for the purpose and has his crew ready for business. It will require about one month's time to complete the work.

Mr. Wm. Squires has on his hermitage, on Tillamook river, a fine lot of fruit of all descriptions. Among other trees he has a lot of English walnut trees three years old, which are making splendid growth. He has some from California, but they do not bear. Tillamook climate is a little too severe for them, but Mr. Squires thinks that the English variety will do well here as the climate is very similar to their native habits.

A special despatch to the Headlight from Forest Grove sent through the courtesy of Manager Stokes announces the wreck and utter loss on Aug. 5th of the Steamer Mexico, Commanded by Capt. Thomas (formerly of the Truckee) at the extreme end of Dixon's entrance, 200 Miles south of Sitka. The Mexico was on her way down from Sitka with 70 passengers on board, and a cargo of freight. The weather was extremely foggy and it was impossible to see even 10 yards ahead of the boat. She struck on what is known as west Devil's rock and it was soon evident that the steamer must go down. The passengers and crew were safely landed but none of their baggage except such as they carried in their hand bags was saved. The steamer sank in two hours after striking in 500 feet of water.

The gasoline launch Maria has been sold by Mr. Herrington to Mr. Oliver, who has been engaged for years in running a row boat from the mouth of the Nehalem river to the town of Nehalem, and will be placed on that route. The launch will be taken over the bar and steamed over the Nehalem bar to her destination. The boat will be a great convenience to the traveling public, and we trust a source of profit to her owner.

Rev. A. S. Wade of Prineville is in this county visiting relatives at Bay City. He will preach in the Christian Church in Tillamook next Sunday, morning and evening his subject being, "Is the Bible an Indecent Book." Charlie Smith, the popular saloon keeper has sold out his business to Clark Hadley and retired permanently from the saloon business. Mr. Smith was a very popular business man and his place had a good reputation for excellent liquors and he carries with him, into whatever business he may go, the good wishes of hosts of friends. Clark Hadley, who purchased the business is one of our Tillamook boys, well known, and well liked and the place will not suffer any loss of popularity by its change of ownership.

Off For Klondike. The Klondike fever ran its usual course in Sheriff Jackson and on Monday evening he set out in company with his brother Dick, he left for the famous gold fields. Mr. Jackson will go unannounced well equipped. He has been a miner for over 40 years, much of the time being employed as a mining expert, and this knowledge will be of incalculable value to him. In addition to this his knowledge of wild frontier life and the fact that he is, from previous residence, thoroughly familiar with the climate, and the hardships to be undergone will place him at a great advantage over less fortunate persons. Mr. Jackson will sail from Seattle on the steamer Humboldt on the 13th inst, and expects to arrive in Dawson City by the middle of September. There is little doubt that he will make a success of his venture. He leaves behind him hosts of friends, and if good wishes count for anything, he will return a millionaire. Mr. Jackson promised us a regular letter for the Headlight and the readers of this paper may therefore depend upon reliable information concerning the famous gold mines after he gets there.

H. H. Alderman is now practically sheriff in charge with E. W. Stanley as deputy. Everyone feels gratified that the affairs of the office have been left in such able hands as those of acting sheriff Alderman who as deputy has demonstrated his ability to properly attend to all its duties.

Improvements at the Truckee Mill.

The Truckee mill is undergoing repairs and important improvement are being made. An addition of 51 feet is being put on to the end of the mill to enable it to cut longer timbers, and also to accommodate a new pony haul saw, which, hereafter, will do all the lumber cutting, except the halving of the logs, which will continue to be done by the large double circular saws. An addition of 42x120 feet is also being added to the side in which the box factory, which has been largely increased in efficiency will be situated. Two new boilers and one new engine will be added. The mill company will employ from 20 to 25 new men, making a pay roll of about 45 men in all. The improvement is a very important one for this county.
