"Going into a decline." How often do we hear this expression. What does it mean? It means that people are losing flesh, growing thin, wasting.

The way to correct this condition is to improve the digestion. The condition arises from an inability to eat and digest food. In fact food does more harm than good because it ferments and putrefies in the stomach, developing poisonous substances which when absorbed causes various disorders.

What is required is that the stomach be made to perform its duties. The Shaker Digestive Cordial is a food already digested and a digester of foods as well. It will make the stomach healthy. Get a bottle from the druggist and read about it.

A Remarkable cure of Chronic Diarrhoea. In 1862, when I served my country as a private in Company A, 167th Pennsylvania Volunteers, I contracted chronic diarrhoea.
