

GREAT DISCOUNT SALE! IS STILL ON

We are not discounting our prices, as we are selling goods on a very small margin, but we are discounting the prices of others and will still sell

Clothing, Hats, Shoes and Furnishing Goods.

at lower prices, quality considered, than you can get elsewhere.

If it is a sin to be the cause of reducing the price of clothing in Tillamook then we must plead guilty.

The fact that we are daily selling people clothing who had formerly bought their clothing outside of Tillamook County must mean something; either we are selling goods that they have been unable to buy elsewhere, or we are selling at lower prices, or a better grade of goods for the same money. Does this need interpretation? We submit the case.

OUR KLONDIKE LETTER - Sheriff Jackson Writes an Interesting Letter from Unalaska.

On board the Humboldt steamship 7 days from Seattle—2,000 miles distance—750 miles from here to Yukon, and then 2,000 miles further up the river to Dawson City.

Unalaska Aug. 25th 1897. Arrived here at noon today after an uneventful voyage. Saw whales, and had one heavy blow on the night of the 23. We met the Portland steamship with a few returning Klondike miners on the 23d, only one hundred thousand dollars on board. We sent back mail by her. The night of the 24th sighted the first land and volcano. The morning revealed more mountains, some of them covered with snow, and saw two smoking mountains, active volcanoes. These islands are beautiful and green. This is a most beautiful town, well built, snug cottages, a nice wharf and a most beautiful harbor. The mountains are one living green field of grass covered with the most beautiful wild flowers that ever I saw in my life; really this is a most beautiful country. The British Patrol-ship "Wild Swan" is here and the U. S. Revenue Cutter "Corwin." We are now cooling and our 300 passengers are buying everything in town and running wild over the hills. The best business that I heard of is to lease a large island from the U. S. government which can be done for \$100, and go into raising blue foxes. There are several parties in the business now and doing well. Well I will not go into the business until I fill my cans with gold. Tomorrow we start north across Behring sea for the mouth of the Yukon river.

Give my best love and regards to all my friends. I may not be able to write soon again. Good bye all. From Yours Truly J. H. Jackson.

The interiors of one thousand of the most attractive homes in the United States have been photographed by The Ladies' Home Journal. One hundred of the best of these pictures will be reproduced in that magazine. The first article of the series—"Inside of a Hundred Homes"—will appear in the October Journal. Bed-rooms, reception and dining rooms, bath-rooms, halls and apartments of every kind will be pictured just as they are in daily use. Every woman is interested in taking a peep into the most attractive homes in the land to see how they are furnished and arranged. She wants to get practical hints and new ideas for furnishing her own. The homes photographed by the Journal are those occupied by persons of moderate income. Their interior arrangement shows what perfect taste can accomplish with a little money and the touch of a woman's deft fingers. Homes in every state in the Union—from Maine to California—were photographed for the Journal's unique and useful series.

NOW IS THE CHANCE

To Consult the Famous Dr. Darrin While He Has Offices in Astoria.

Dr. Darrin's stay in Astoria is again extended to November 1 and parties desiring his services should not fail to consult this eminent electric physician at once.

The visit of Dr. Darrin to Astoria is filled with interest in many particulars. On his arrival he advertised extensively and the cry went up that there was some catch in it. Then he cured one case that was considered hopeless, and surprise was felt. After that the very worst cases in existence were given him as a test by all doubters. If he cures this one I will believe it, the doubters echoed, and after treatment the patient was sound as a dollar. Then they gave him another test case, and another, and so on with every instance. He effected a cure in nearly every instance. The doctor's territory was the rash of patients began, and the stream has been growing larger every day, numbering some of the best people in the state.

A visit to the office of Dr. Darrin is a curiosity as well as a wonder. Patients are carried in one day, and after a week's time, instead of being carried there, they walk in sprightly as young boys. What there is about him is certainly mysterious, for he has performed most wonderful cures, as the testimonials we have heretofore published have proved. As a further proof we add the following card:

CARD FROM A FINNISH PATIENT. For the benefit of friends in my Finnish countrymen, I wish to say I have taken Dr. Darrin's electric treatment for neuralgia in the heart, chest and lungs. I can truthfully say he has cured me, and I most cheerfully recommend his new cure by electricity. I have resided in Astoria for ten years.

HENRY MAKELA. Through the urgent request of many of our most prominent citizens in Astoria and surrounding country Dr. Darrin has consented to remain another month—until November 1—and can be consulted daily at the Occidental Hotel, Astoria, where he treats the poor free except for medicines, from 9 to 10 a. m. daily. Those able to pay, from 10 a. m. to 5 p. m.; evenings 7 to 8. All chronic diseases, blood taints, loss of vital power and early indiscretions permanently cured, though no references are ever made in the press concerning such cases, owing to the delicacy of the patient. Examinations free to all, and circulars and question blanks will be sent to any address

Charges for treatment reasonable. All private diseases confidentially treated and cures guaranteed. Patients at a distance can be cured by home treatment. Medicines and letters sent without the doctor's name appearing.

CLASSIFIED ASSESSMENTS. The New Plan by the A. O. U. W. and How it Works.

At the last session of the Grand Lodge A. O. U. W., there was adopted what is known as the classified assessment plan, dividing the membership into groups or classes of five years each, and charging each class mortality rates of its class based upon the American Expectancy Tables. The membership advancing from one class to the other until they reach their fiftieth birthday when the rate remains level thereafter, giving protection at current cost. The Oregon Grand Lodge also provided for reducing the number of assessments upon members over fifty years of age who have been continuously in the order for twenty years thereby reducing the cost to the old man when his earning power decreases. This plan was evolved after much thought, covering months of careful deliberation by some of the brightest minds in the United States.

There were fifty-four deaths in Oregon last year, calling \$108,000. Had the classified been in force seven assessments would have produced \$109,000 which would have paid the deaths and left over \$1,600 in the treasury. The cost per thousand dollars would have been as follows:

Table with 2 columns: Age and Assessment Rate. Ages 18 to 24 \$4.20 per annum; 25 to 29 4.55; 30 to 34 5.14; 35 to 39 5.81; 40 to 44 7.07; 45 to 49 9.17; 50 and over 12.45.

And this after the Oregon Grand Lodge has been doing business for nearly twenty years, which speaks volumes for the care that has been exercised in the risks that have been taken. Under the new plan a renewal of interest can be seen in the lodges, and at Tillamook where the Grand Lecturer of the order has just visited, fifteen new applications were received, ages ranging from 19 to 43 years and the result will be watched with interest by all. Fifteen Grand Jurisdictions have already adopted this plan and the results are eminently satisfactory, California initiating over 4,000 men in last year, the average age of which was 29 years, and New York running into the thousands with an average age of 28 years. The A. O. U. W. has the largest membership of any secret society in Oregon and we will endeavor to give our readers the result of the change from time to time as the work goes on.

THE WONDERS OF SCIENCE
