"Town Talk."

The rapid substitution in this country of Italians, Poles, Hungarians, and the like for English-speaking unskilled labor has unquestionably had some tendency to make capitalists more arbitrary and less carefully just in dealing with workingmen. This new immigration has sharpened the distinction between organized and unorganized labor. The trades unions can usually take pretty good care of themselves, but it is comparatively hard for the newcomers from Eastern Europe to resist injustice. Those engaged in mining, it is true, have now been more or less completely brought into labor organizations; but generally speaking the newcomer is at the mercy of capital. For the past two years the immigrants coming from Austro-Hungary, Italy, Poland, and Russia have constituted 52 per cent of our total immigration. Their average illiteracy is 40 per cent, as compared with about 3½ per cent among immigrants from Great Britian and Ireland, France, Germany, and Scandinavia. Only one in about 25 of the immigrants from southeastern Europe is a skilled workman. They are exploited by our corporations in gangs at low wages upon all kinds of work requiring muscle rather than skill, and they are not always treated with ordinary justice by contractors.—From "The Progress of the world," in American Monthly Review of Reviews for October.

A Fearful Experience

A POSTMASTER LOSES THE USE OF HIS LEGS AND ARMS.

Edwin R. Tripp, of Middlefield Center, Meets with a Hazardous Encounter Which Renders Him Helpless.

From Otsego Republican, Cooperstown, N. Y.

Mr. Edwin R. Tripp, the postmaster at Middlefield Center, N. Y., recently had a dangerous experience which left him in a helpless state. His system was so much shattered that it was feared he might never recover.

In an interview with a reporter of the *Republican*, regarding this experience which had attracted considerable attention, Mr. Tripp stated:

"In March, 1892, I was taken with what I afterward learned was locomotor ataxia, and was unable to walk, and I kept getting worse until I lost the use of my arms. I doctored with two skillful doctors but received no benefit, and also used a galvanic battery but kept getting worse and the doctors told me they could do no more. This was in May and June, 1892. I gave up all hope of ever having the use of my limbs again, and did not expect to live very long. I was unable to dress or undress myself, and could not get around the house unless I was moved in a chair.

"I think it was in June that I read of the case of a man in Saratoga Co., N. Y., who was taken very much as myself. He had taken Dr. Williams' Pink Pills for Pale People which contained, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves, and had been cured by their use.

"I learned that the pills were prepared by the Dr. Williams' Medicine Company, Schenectady, N. Y., and only cost 50 cents a box or six boxes for $2.50 at any druggist's, and sent for two boxes. I used the pills faithfully and they gave me an appetite. I then sent for four more boxes, and before I had taken all of them my feet and legs which had been cold began to get warm.

"I was a member of the Town Board that summer and had to be carried and put into a wagon to go to the meetings, and in fact was helpless, as my neighbors know. In August I could walk around the house by pushing a chair. I kept getting better and managed to move around more, until at election time that year, I walked with a cane to the polls, a short distance from my home. I continued to take Dr. Williams' Pink Pills for Pale People until I had taken eighteen boxes. I could then get around, and to-day walk to the post office and back, a distance of one-quarter of a mile, three times a day, and attend to my duties as postmaster.

"In the spring of 1893 I was elected town clerk, which office I held for three years, I had previously been a justice of the peace for thirty-two years. I am now 70 years of age, and have lived in this town for about forty-six years. For nearly fifty years I worked at the blacksmith's trade. I am able to do work in my garden now, and saw some of my wood. I consider that my restoration to health is due to the use of Dr. Williams' Pink Pills for Pale People.

EDWIN R. TRIPP."

Subscribed and sworn to before me this 23d day of June, 1897.

Which One

There were two little kittens, a black and a gray,
And grandmother said with a frown:
"It never will do to keep them both,
The black one we'd better drown.

"Don't cry, my dear," to tiny Bess,
"One kitten's enough to keep;
Now run to nurse, for 'tis growing late,
And time you were fast asleep."

The morrow dawned, and rosy and sweet,
Came little Bess from her nap;
The nurse said, "Go into mamma's room,
And look in grandma's lap."

'Come here," said grandmamma with a smile,
From the rocking chair where she sat;
"God has sent you two little sisters;
Now what do you think of that?"

Bess looked at the babies a moment,
With their wee heads, yellow and brown,
And then to grandmamma soberly said:
"Which one are you going to drown?"

As Page & Son See It

The following extract from a letter written by Page & Co. Commission Merchants, to the Tillamook Dairy Association is selfexplanatory, and shows the reason for the present agitation concerning better transportation. It also shows incidently what is the opinion of Portland commission houses on the subject:

"Butter market extremely dull. Have lowered the price of Trask River to 40c hoping to increase the sale. Quite a lot of your butter received on the 17th is already quite strong, as naturally would expect it to be; was quite a long time on the way and we have had it in store now quite a while; you will undoubtedly suffer quite a loss. It is simply outrageous that the transportation between here and your place should be so bad that you should have lost on this lot of butter this amount of money. Had it arrived when your Mr. Brant was here could have sold a portion of the Trask River at 60c, and certainly would have placed all of it at 55c without any trouble at all. By the time it arrived here the market was perfectly flat."
