The little sloop, "Annie Katharine," bound Klondikeward, which came into this bay a week ago for repairs, is laid up high and dry at Garibaldi. She was unloaded Monday afternoon at low tide by J. E. Tuttle and a gang of volunteers. She had dragged her anchors and drifted on the beach in front of the Anderson house on Monday forenoon, and after being unloaded, the waves completed the work of demolition. The boat is now almost a wreck. She is 30 feet long and about 10 feet beam. She was schooner-rigged and a fine sailer. The strength which comes to us from eating nourishing food is better than stimulation, because it is new strength. The strength which belongs to a strong body, well nourished by proper food (properly digested), is the only health that is lasting.

The difference between Shaker Digestive Cordial and other medicines is simply that it helps nature to make strength. It does not profess to cure sickness except as that sickness is a result of weakness caused by food not properly digested.

Shaker Digestive Cordial will relieve the pangs of indigestion, and make thin, sick, weak people as well as if their stomachs had never been out of order. It is a gentle aid to the digestion of nature's strength-maker, food.
