An Interesting Trial

The examination of Jeff Wallace on a charge of larceny of a cow, last Monday before Justice Sappington, excited more than usual interest on account of the prominence of the parties concerned.

Jeff's many friends refused to believe that there could be anything wrong in the matter and the evidence justified their confidence in him.

It appeared that two years ago Wallace, while driving a herd of cattle to Yamhill County lost a heifer and some months later found one in the same locality, which he took to be his, but having some doubts in the matter, in-

stead of driving it away he put it in Perley Hiatts field with the understanding that if another owner turned up the animal should be surrendered, but if it proved to be Wallace's property, Perley should have a half interest for caring for the cow. After a year or so Jeff sold his chance to Perley Hiatt and later on John Bangarner claimed the cow, and took it away. Upon this Mr. Bangarner caused the arrest of Mr. Wallace. Handley & Handley appeared for the defense while W. J. May was retained for the private prosecution, G. O. Nolan acting as Dist. Atty. A number of witnesses testified that they knew the cow Wallace had lost and fully believed this to be his, while the Bangarner's family swore positively it was their property. After a stubborn contest Jeff Wallace was discharged and completely exonerated from any evil intent in the matter. The decision meets with general approbation in the community. The two cows must have had a remarkable resemblance to each other and it is impossible to say which one has disappeared.

Himple & Wheelers' mill was shut down again Monday for want of log to work on, but they expect to start up again soon and with a continuation of this fine weather the loggers will be able to keep the mill supplied.

A man may know another person for two or three years, and know him "at a distance" for six or seven years longer, and even then he may not be as capable of judging that person's true character as the people are who have been personally acquainted with and have witnessed the trickery of that person for seven long years.
