Mrs. Chas Pye received word by telephone on Tuesday of the death of her brother-in-law, T. W. Williams. She started for Tillamook immediately to attend the funeral.

I suppose Editor Watson simply can't tell the truth. In his last issue he says, by objections to the report of the Com-

mittee on Credentials was overruled by about 64 to 2. Now as a matter of fact less than one third voted, Yes! and a somewhat less number voted No! the remainder not voting at all.

He is either a natural descendant of Amnias, or evil association have corrupted his good morals. I despise a liar worse than a thief.

For more than a hundred years the Shakers have been studying the remedial properties of plants. They have made many discoveries, but their great achievements was made last year. It is a cordial that contains already digested food and is a digester of food. It is effective in removing distress after eating, and creates an appetite for more food so that eating becomes a pleasure. In a thin people become plump and healthy under its use. It arrests the wasting of consumption.

There never has been such a step forward in the cure of indigestion as this Shaker Cordial. Your druggist will be glad to give you a little book descriptive of the product.

Give the babies Laxol, which is Castor Oil made as palatable as honey.
