

HE WASN'T DEAREST.

But the Fat Woman Cyclist Talked to Him Without Reserve.

There is one amusing feature about wheel riding that all old riders and a good many new ones must have noticed—that is the way in which a moderately proficient rider will carry on a conversation with some one behind him without really knowing who that some one may be.

The other day a wheelman was coming up the Dodge street hill. There isn't much of a hill on Dodge street, but slight as it is it bothers the new riders. Just ahead of the wheelman in question, who was riding at a leisurely rate, was a stout lady, mounted on a new bike. Half way up the incline the wheelman was astonished to hear her call out:

"Coming, dear?"

The wheelman didn't answer. He felt sure the inquiry couldn't be to him, and he kept silence.

"All out of breath, dear?" she called again.

And again the wheelman made no reply. "Don't be discouraged," she cheerily shouted. "You'll get there by and by, dearest."

The wheelman thought so, too, but he made no mention of the fact.

"Does it tire our little armies so much?" continued the stout lady.

That was too much for the wheelman. He put on steam and passed the lady. As he whirled by she caught sight of his smiling countenance.

"Oh, I beg your pardon!" she cried, and narrowly averted a tumble.

When the wheelman had gone a little farther, he looked back over his shoulder and saw a tank young fellow, with fuzzy little side whiskers, toiling wearily up the hill.

And he feels pretty sure that was "dearest."—Cleveland Leader.

A Woman's Burden.

This is a story of a woman addressed to women. It is a plain statement of facts too strong in themselves to require embellishment, too true to be doubted, too instructive to be passed over by any woman who appreciates the value of good health.

The women of to-day are not as strong as their grandmothers.

They are bearing a burden in silence that grows heavier day by day; that is sapping their vitality, clouding their happiness, weighing them down with the woe of ill health.

Mrs. Alexander B. Clark, of 417 Michigan Avenue, Detroit, is a typical woman of to-day. A wife with such ambition as only a loving wife can have. But the joys of her life were marred by the existence of disease.

Suffering as thousands of her sisters have suffered, she almost despaired of life and yet she was cured.

To-day she is well! She wants others to profit by her experience; to grow well; to enjoy health; to be as happy as she is.

"For five years I suffered with ovarian trouble," is Mrs. Clark's own version of the story. "I was not free one single day from headache and intense twitching pains in my neck and shoulders.

"For months at a time I would be confined to my bed.

"At times black spots would appear before my eyes and I would become blind. My nerves were in such a state that a step on the floor unsettled me.

"Eminent doctors, skillful nurses, the best food and medicine all failed. Then I consented to an operation. That, too, failed and they said another one was necessary. After the second I was worse than ever and the world was darker than before.

"It was then I heard of Dr. Williams' Pink Pills for Pale People.

"I heard that they had cured cases like mine and I tried them.

"They cured me! They brought sunshine to my life and filled my cup with happiness.

"The headache is gone; the twitching is gone; the nervousness is gone; the trembling has ceased, and I have gained twenty-six pounds.

"Health and strength is mine and I am thankful to Dr. Williams' Pink Pills for Pale People for the blessing."

Dr. Williams' Pink Pills have proved a boon to womankind. Acting directly on the blood and nerves, they restore the requisite vitality to all parts of the body, creating functional regularity and perfect harmony throughout the nervous system.

The pallor of the cheeks is changed to the delicate blush of health; the eyes brighten; the muscles grow elastic, ambition is created and good health returns.

Dr. Williams' Pink Pills are sold by all druggists, who universally consider them the most important remedial agent they have to dispense.
