R. D. Sales, our mailcarrier, is making arrangements whereby he will be able to carry passengers through from Hobsonville to Nehalem City; but there will shortly be a change in the schedule, he is awaiting the arrival of contractor Phil Condit.

A Tillamook Exhibit.

J. O. Hauthorn, state commissioner for Oregon has written to Hon. J. W. Maxwell with reference to a Tillamook exhibit at the Trans Mississippi and International exposition at Omaha which will be held between the months of June and November of the present year. The letter and its object are both of importance and we therefore produce it here in the hope that it may stir up some of our people to the importance of making an exhibit of our products and thus increasing the market for our butter and cheese.

Senator J. W. Maxwell,
Tillamook, Oregon.

My Dear Friend:—

Knowing that you are one of Tillamook County's most honored and leading citizens, I appeal to you for information as to who would be the most qualified person likely to take hold and interest the people of Tillamook in behalf of the State Commissioner to make an exhibit from your County at the Trans-Mississippi & International Exposition which is to be held at Omaha between the months of June and November 1898. The State is also desirous of obtaining funds to defray the expenses of placing the Oregon exhibit in Omaha. The money so raised will most likely be refunded to the Donators by the Oregon Legislature at its next session as there was a large amount of money, something like \$8,000, left over from the funds that revert back to the State from the World's Fair Fund. Therefore for all money now subscribed receipts will be issued in such a way that those subscribing can use them for vouchers for the purpose of drawing on the State Treasurer for the amounts subscribed after the same has been set aside for that purpose.

I should like very much if your good self would take hold of this matter and interest the people in your County to make exhibits and the charges for the same will be taken care of either at Astoria or Portland and there will be no charge to the parties wanting to make the exhibit. The money subscribed as above is to pay for space for the State's exhibitors. Your County is known for its fine butter, cheese, timber, vegetables, fish etc. and should by all means be represented.

Yours respectfully,
J. O. Hauthorn,
Commissioner for Oregon.

New neck bands put on at the Laundry for 10cts.

If that black suit is glossy have it stamed to take the gloss off. Atwater will do it for you.

We do steaming and renewing at the Laundry and Dye House.

Atwater will crease your pants; for 15 cts.

Life Saving Station Needed.

To the HEADLIGHT:
Hon. Thos. Tongue writes me that he has been for some time laboring to secure a life-saving station at Tillamook, but is met at every move by a constant series of adverse reports from the River and Harbor authorities. They say that the commerce of the place is too insignificant and the dangers too remote to justify the expense. Mr. Tongue has however prevailed on the Treasury Department to refer the matter to F. J. Blakeney, Superintendent of the Life Saving Service, at San Francisco, for another report.

Now let us do something. There are something like 200 passages made over the bar in a year by steam and sail vessels, and while the navigation of this bar has so far been peculiarly fortunate we can not expect it to be so always. Already a number of lives have been lost at the entrance to Tillamook Bay, notably Lieut. Kinchloe with five others, and last year those who could have been saved without doubt had there been a suitable boat in the vicinity.

Humanity and prudence demands that we prepare for the next emergency of the kind, and I respectfully suggest that all who can say a word, write to Mr. Blakeney, at San Francisco, immediately and urge a favorable report from him in this matter.

T. B. Handley.

The Shakers have made a discovery which is destined to accomplish much good. Realizing that three fourths of all our sufferings arise from stomach troubles, that the country is literally filled with people who cannot eat and digest food, without subsequently suffering pain and distress, and that many are starving, wasting to mere skeletons, because their food does them no good, they have devoted much study and thought to the subject, and the result is this discovery of their Digestive Crystal.

A little back can be obtained from your druggist that will point out the way of relief at once. An investigation will cost nothing and will result in much good. Children hate to take Castor Oil, but not Laxol, which is as stable.
