As there were several channels between them and land, they were not in an enviable position and as their first cries did not attract attention, the tide had reached their waists before help arrived to take them from their watery grave. They will be wiser in the future.

The Mount Lebanon shakers have recently performed a great deed of charity although it was not designed as a charity, being nothing more nor less than an advertising scheme. It however resulted in great good just the same; They gave away 1,000 bottles of their Digestive Cordial to those suffering from stomach derangements.

It was so effective those who used the remedy that they were loud in their praises of it and in consequence a large demand for the Cordial was at once created.

The druggists of this town have little books that tell all about it. Digestive Cordial creates an appetite, aids digestion and brings about a rapid increase in flesh and strength.

Laxoi is the name of a palatable Castor Oil. Just the thing for children.

A Pack of Cards—Prayer Book and Bible.

A private soldier named Richard Lee was taken before a magistrate for playing cards during service. It appears a sergeant commanded the soldiers at church, and when the parson had read the prayers he took the text. Those who had a Bible took it out, but this soldier had neither Bible nor common prayer book, but pulling out a pack of cards he spread them before him. He just looked at one card, and then at another. The sergeant of the company saw him and said:

"Richard, put up the cards, this is no place for them."

"Never mind that, said Richard."

When the service was over the constable took Richard before the mayor.

"Well, says the mayor, 'what have you brought the soldier here for?'"

"For playing cards in church."

"Well, soldier what have you to say for yourself?"

"Much sir, I hope."

"Very good. If not, I will punish you more than man was ever punished."

"I have been," said the soldier, "about six weeks on the march. I have neither Bible nor common prayer book. I have nothing but a pack of cards, and I'll satisfy your worship of the purity of my intentions."

And spreading the cards before the mayor, he began with the ace; "When I see the ace it reminds me there is only one God. When I see the deuce it reminds me of Father and Son. When I see the three it reminds me of Father, Son and Holy Ghost. When I see the four spot it reminds me of the four evangelists that preached, Matthew, Mark, Luke and John. When I meet the five, it reminds me of the five virgins that trimmed their lamps—there were ten, but five were wise and five were foolish and were cast out. When I see the six, it reminds me that in six days God made heaven and earth. When I see the seven, it reminds me on the seventh day he rested from the great work he had created and hallowed. The eighth reminds me of the eight righteous persons that were saved when God destroyed the world, viz. Noah and his wife, with three sons and three wives.

When I see the nine, it reminds me of the nine lepers that were cleansed by our Savior, there were nine out of ten who never returned thanks. When I see the ten, it reminds me of the ten commandments which were handed down to Moses on tablets of stone. When I see the king I am reminded of the King of Heaven, which is God Almighty. When I see the queen, I am reminded of the queen of Sheba, for she was as wise a woman as Solomon was a man. She brought her fifty boys and fifty girls all dressed in boys apparel, for King Solomon to tell which were boys and which were girls. King Solomon sent for water for them to wash; the girls washed to their elbows and the boys to the wrists, so King Solomon told by that."

"Well," said the mayor, you have given a good description of all the cards except one."

"What is that?"

"The knave," said the mayor.

"I will give you a description of that too, if you will not be angry."

"I will not," said the mayor, if you do not term me to be the knave."

"Well," said the soldier, "the greatest knave that I know is the constable that brought me here."

"I do not know," said the mayor (that he is the greatest knave, but I know he is the greatest fool."

When I count how many spots there are in pack of cards, I find three hundred and sixty-five, as many days as there are in a year."

"On counting the number of cards in a deck, I find fifty-two, the number of weeks in a year, and I find four suits, the number of weeks in a month. I find there are twelve picture cards, representing the number of months in a year, and on counting the number of tricks I find thirteen, the number of weeks in a quarter."

"So you see, sir, a pack of cards serves for a Bible, an almanac and a common prayer book."
