Enough Bees for One Time.

Last Friday morning Messrs. Kelso and Gust Wickland started in to mow some oats at Homer Mason's ranch north of town, and as Mr. Wickland was driving the team on the first round, with Mr. Kelso close in the rear, he ran into and upset a hive of bees which Mr. Mason had hived there and left, not having time to remove them before the oats had grown up and hidden them. As soon as the bees found out the trouble they began to fly out to avenge their wrecked home. Mr. Kelso being fleet of foot on such occasions, hastily placed several hundred feet between him and the enraged bees, but not before he had felt the hot feet of a score or more bees. Mr. Wickland could not well run as he had his team to care for and get out of the road. In a very short time his head and hands were literally covered with bees each one trying to sting the hardest.

After a little trouble with the horses Mr. Wickland succeeded in getting out of danger and on reaching home became suddenly very sick from the poison of the stings. Soda and clay pastes were applied freely and he was soon out of pain and all danger. Mr. Wickland says there must have been several hundred bees on his head and hands says further that the next time he will send Mr. Kelso on ahead to let the bees know he is coming.

The city is now without a marshal, as Marshal Clements resigned the office last Saturday and his resignation was accepted. There are several applicants for the position, but the council have not yet chosen one to fill the vacancy. A special meeting is called for Saturday Aug. 20th to appoint a policeman to act until the next regular meeting of the council when a marshal will be selected from among the applications.

One of the children of Mr. Harris was taken down with the diphtheria a few days ago and it has caused much excitement among some of our citizens. Mayor Eddy informs us that the house has been quarantined and everything possible is being done to prevent it's spreading. Dr. Wiley, who is attending the case, says the patient is much better and thinks there is no danger of it reaching further than that home.

Four young men came into the Allen House last Saturday for meals and beds. Of all the different ways of going to the beach for an outing, the one we saw the other day beats the best of them. ### War NewsStop!!

Last Saturday at half past 4, P. M. the war which has raged between the United States and Spain for 3 months and 22 days was brought to a close by the signing of a protocol by Secretary Day for the United States and M. Cambon, for Spain.

This protocol which is to form the basis of a definite treaty of peace provides in substance as follows:

"Spain will relinquish all claim of sovereignty over and title to Cuba.

"Puerto Rico and other Spanish island in the West Indies and island in the Ladrones, to be selected by the United States, shall be ceded to the latter.

"The United States shall occupy and hold the city, bay and harbor of Manila, pending the conclusion of the treaty of peace, which shall determine the control, disposition and government of the Philippines.

"Cuba, Porto Rico and other Spanish island in the West Indies shall be immediately evacuated.

"The United States and Spain shall each appoint not more than 5 commissioners to negotiate and conclude the treaty of peace. The commissioners are to meet at Paris not later than the 1st of October.

"On the signing of the Protocol hostilities will be suspended, and notice to that effect will be given as soon as possible by each government to the commanders of its military and naval forces."

According to the terms of the protocol the American and Spanish generals and leader are being notified as quickly as possible. Gen. Miles has received the word and stopped his advance. Gen. Schwan had not yet been notified by Aug. 15, and a battle was fought between his forces and the Spaniards in Porto Rico in which the Spaniards were defeated. Most of our Navy are returning home with the honors it has won. The work of reducing the army is progressing and soon we will have only the memory left of the Spanish-American war.

Dewey being so far away had not received the word of peace terms up to Aug. 16, and on that day, the reports came that he bombarded the city of Manila. The city proper was not damaged, only the outskirts being bombarded. The city surrendered and Augustine, the Spanish general, fled. Very meager reports are obtainable as they must come through the German consul.

The cost of the war up to Aug. 13, was \$98,000,000. Appropriations made by Congress on account of the war aggregated about \$50,000,000, and cover the time to January 1, 1899.

Emmett Quick, driver on the Forest Grove stage, tells us they are doing a rushing business now. It has required two teams to take the passengers out for several days past, as many as 12 passengers going a day.

J. E. Tuttle, the telephone man, was busy the first of the week moving the telephone along the beach to Nehalem from the woods and brush out into the open ground so that it will not trouble him this coming winter.

Mr. Cusick and wife, of Albany, are in the city. Mr. Cusick is an old friend of Hon. J. W. Maxwell and a banker of Albany. This is his first visit here and he is well pleased with our city and vicinity.

Ex-official Edwards looks fine sitting in a brand splinter new wagon. It's been so long since he has used a wagon he has forgotten on which side the driver should sit to use the brake. He intends to move out on his ranch on Trask river.

There is one of two things certain. Either the town council will have to widen the sidewalks on Main street, or people will have to take the middle of the street, whenever a boat comes in, or else the merchants will have to do less business. Our sidewalks are crowded with freight on the arrival of the boat. If any town or city in Oregon can beat Tillamook in the amount of business done, for its size, they'll have to double the business they are doing.
