The steamer Laguna, which went ashore on the North Spit of Tillamook bar, is a wreck and her machinery is being taken out.
If it is necessary for the prohibitionists to nominate a county ticket, it looks unusually strange that the same principal does not apply to road supervisors.
Before buying milk cans, do not fail to see the Buhl Can with the Victor Steel breast. They are the best cans in the market. For sale by Wade & Briggs.
The democratic or prohibition county conventions must have hoodooed the local news this week, for it's hard to find it since they had their pow-wows.
Go to McIntosh & McNair's for stoves and heaters. Latest improvements and designs. Call and see us if you want hardware, wagons, buggies or farm implements.

The prohibitionists are making an effort to have John G. Wooley, who is often called the "John the Baptist" of temperance work, to lecture in this city next month. He will make a tour of the state in the interest of the prohibition party. It requires one hundred subscribers to the Voice to induce him to come to Tillamook.
The Portland newspapers report a shock of earthquake in that city. Well, there's a political campaign on there this year, and the corruption which attends those events is enough to cause an earthquake and the devil to shout for joy as well. But should the woman suffrage amendment pass won't there be a great time hustling up the body house element to the polls.
Quay has lost his seat in the United States senate, the vote standing 32 for seating and 33 against. Thus Quay lost his seat by one vote, which only partly satisfies the public. When the senate is so equally divided on so important a matter, it is plain to see that political hoodlums have a great influence over the senators. The votes makes it more imperative that United States senators should be elected by popular vote.
Supple, the Portland shipbuilder, has set up the frame for the steam schooner which he is building for Samuel Elmore for the Astoria and Tillamook trade. It is the intention to have the craft ready to go into commission by June 20. Her dimensions are: Length, 100; beam, 24; depth of hold, 9 feet. She will be equipped with compound engines and surface condenser. She will be supplied with steam winches and lighted with electricity.
Our friends in the prohibition party say they are going to make it "hot" for the old parties in this county. Hotter the better, boys. But, this spasmodic attempt to force prohibition upon the citizens of this state is played out, for it is plain that other plans must be devised if the prohibition party really expect to attain practical results. The meeting together of a few of the faithful previous to an election and nominating a ticket may go on until doomsday, but until the party shows some signs of enthusiasm and an increase in numbers throughout the state, the prohibitionists practically

wish to remain between the devil and the hot place.
The Himpel & Wheeler mill at the mouth of the Nehalem has been sold. John E. Dubois, of Dubois City, Penn., who owns some 30,000 acres near the mouth of the river, has purchased Mr. Himpel's interest. It is understood that the capacity of the mill will be enlarged to 60,000 feet per day. The output is entirely spruce. Some new machinery will be added and a powerful tug and barge constructed.—Oregon Mist.
Mr. D. T. Edmunds' warehouse was broken into on Saturday night and between \$50 and \$60 worth of goods was stolen. The nocturnal thief, or thieves, gained an entrance to the premises by breaking in at the back. They are invited back, when they will receive a grand reception by being peppered with a charge of buckshot. If these nocturnal pilferings continue it will be necessary for the city to engage a night watchman and provide him with a gun.
The Telegram's Astoria correspondent sends that newspaper this item of news: Lying on the O. R. & N. dock in this city is freight for Tillamook merchants which was delivered here last September. For nearly eight months this freight has laid on the dock, and even now there is no immediate prospect of its delivery. Other freight has since been laid down here and taken on to Tillamook by the steamers of the Pacific Navigation Company, which has a monopoly of the business between Tillamook and this city. The people of Tillamook have long tried to get an opposition line to go into the business, but thus far their efforts have not been successful. They complain bitterly of the indifference with which the steamboat line regards their interests and at the excessive freight and passenger rates charged.
There is one amendment to the constitution of Oregon the voters will be called upon to decide at the coming election. It deals with the pernicious system of running the public into debt as well as into the hands of the money sharks. The amendment abrogates the present section of the state constitution which provides that no county shall incur an indebtedness exceeding in the aggregate sum of \$5,000, and in its stead proposes to substitute a section that shall extend the limitation of indebtedness to cities, school districts and other municipal corporations, as well as counties, so that their aggregate indebtedness shall not exceed 5 per cent of the taxable property therein. Now how will this amendment effect Tillamook county? In spite of the fact that the law with regard to the \$5000 indebtedness of counties is a dead letter—the indebtedness of Tillamook at the present time is about \$40,000—the proposed amendment will give power to our county officials to increase to indebtedness of the county to \$62,852.05. Are the taxpayers in favor of that? Take for instance Tillamook city or school district, the county could incur an indebtedness of 5 per cent on taxable property, the city could do the same, the school district could add another 5 per cent, and we do not know but what the Port of Tillamook Commission could add the fourth 5 per cent indebtedness. Now that is piling on the agony too much. It is just as well to ask where we are at and open our eyes to the alluring temptation

of the money shark and unscrupulous officials. Tillamookers should vote against the amendment.
READY TO BE SLAUGHTERED.
The Prohibitionists Nominate a County Ticket.
The prohibitionists held a meeting at the court house on Tuesday evening, at which a fair attendance of citizens put in an appearance for the purpose of hearing prohibition discussed. The Misses Bewley and Mrs. Geo. Edmunds rendered appropriate songs, and addresses were made by Revs. Blalock, Armstrong, Dolberhide and Neff, all of whom confined themselves to the subject under discussion, dealing with the drink question from a moral and social purity stand point.
On Wednesday the prohibitionists met at the same place and nominated a prohibition county ticket, as follows:
Joint representative—R. Y. Blalock.
County clerk—Alva Finley.
Sheriff—F. L. Buell.
Commissioner—W. F. Campbell.
Treasurer—A. E. Imbler.
Assessor—S. F. Moon.
Surveyor—Wm. Petteys.
School superintendent—To be filled.
Coroner—W. T. Doughty.
Justice, first district, G. M. Kobb.
Justice, second district, J. C. Bewley; constable, J. A. Monroe.
Justice, third district, N. Coulson; constable, H. E. Chapman.
Wedding Bells.
Married, at the home of the groom, on Wilson river, on Saturday evening, April 21, 1900. Miss Margaret Nelson, of Oakland, Cal., to Mr. Andrew Anderson. Rev. G. A. Osbrink, officiating, assisted by Rev. Ockerson, who gave a most pleasing and appropriate address in the Swedish language, after which Rev. Ockerson pronounced the benediction.
The bride wore a charming costume of silk creydon with ribbon garniture and silk lace. The groom also made a pleasing appearance. Both are highly respected and well known.
After the ceremony the guests tendered congratulations and good wishes, after which a sumptuous repast was spread and a hearty good time enjoyed by all. The couple were the recipients of usual and large number of fine and beautiful presents, which are appreciated for the sentiments of friendship as well as the value in themselves.
Sooner or later the nation will have to deal with the adulteration of food products in general as it has with the manufacture of dairy products and their marketing under false pretenses. The Senate Committee on Manufactures recommends the establishment of a bureau under the Department of Agriculture, with power to fix a standard of purity to which manufacturers must conform. The difficulties experienced by the states in framing and enforcing pure food laws exhibit the necessity of this work and the obstacles to be met. The sooner a beginning is made, the sooner will our consumers be protected against adulterated articles and our manufacturers against unfair and dishonest competitors.—Oregon Mist.

Oregon Blood Purifier,
The King of Spring Medicines and Blood Purifier.

It purifies the blood and tones the digestive organs, takes away that dull heavy headache, pains in the back and general tired feeling. That's what it's made for; and when you have Rich Red Blood coursing through your veins your appetite is good, your digestion is sound and you are sure to feel sound and vigorous.
During the past year I have sold more Oregon Blood Purifier than all the rest of the Sarsaparillas and spring medicines put together. Don't that speak well for its merit? Comes in two sizes, 50c. and \$1 per bottle.
