WADE & BRIGGS,
Opposite Bank. Tillamook, Oregon.

colonel left for the Grove at noon over the Wilson river road, and we hope he reached home without further adventure.

The graduating exercises of the Tillamook public school took place on Friday evening at the opera house, which was packed with citizens, who had taken a great interest in these exercises on account of this being the first occasion in which pupils had graduated from the high school and common school courses in the Tillamook public school. The principal, Mrs. E. T. Allen, by dint of perseverance, had enthused new life in the school, and advanced it and the pupils a step further in progress, which is exceedingly gratifying to the citizens of this city. Although only two graduated from the high school course, it is well to announce that quite a number of pupils started these studies who are now teaching school or engaged in other employment a few months since. The pupils acquitted their parts well, did honor to themselves and their instructors, which was appreciated by the citizens. The graduates from the high school course were Miss Ruth Cooper, first honor; Miss Pearl White, second honor; and those from the common school course were Frankie Drew, Mary White, Grace Forde, Annie Edie, Herbert Cooper, Blanch McNeil, Allie Quick, Katie Plank, Uz Nolan and Rachel Crawford. The diplomas were presented by Mrs. Allen and Mr. B. L. Eddy with appropriate remarks, the flowers and decoration adding to the pretty scene. We give below the programme which was so well rendered:

MISS BARTON'S APPEAL.

It was a surprise to me that my opinion either way should be held of sufficient importance to be mentioned. What difference could it make to others what I approved or disapproved, believed or disbelieved in? But as I reflected upon it it did occur to me that perhaps it ought to be of sufficient importance to myself to induce me to take the opportunity which offers at this moment to make my record a trifle more clear, if possible, and this will require very little time.

I believe I must have been born believing in the full right of woman to all the privileges and positions which Nature and justice accord to her in common with other human beings. Perfectly equal rights—human rights. There was never any question in my mind in regard to this. I did not purchase my freedom with a price; I was born free; and when, as a younger woman, I heard the subject discussed, it seemed simply ridiculous that any sensible, rational person should question it. And when, later, the phase of woman's right to suffrage came up, it was to me only a part of the whole, just as natural, just as right, and just as certain to take place.

And whenever I have been urged, as a petitioner, to ask for this privilege for woman, a kind of dazed, bewildered feeling has come over me.

Of whom should I ask this privilege? Who possessed the right to confer it? Who had greater right than woman herself? Was it man, and if so, where did he get it? Who conferred it upon him? He depended upon woman for his being, his very existence, nurture, and rearing. More fitting that she should have conferred it upon him.

Was it governments? What were they but the voice of the people? What gave them their power? Was it divinely conferred? Alas! no; or they would have been better, purer, more just and stable.

Was it force of arms—war? Who furnished the warriors? Who but the mothers? Who reared the sons and taught them that liberty and their country were worth their blood? Who gave them up, wept their fall, nursed them in suffering, and mourned them dead?

Was it labor? Women have always, as a rule, worked harder than men.

Was it capital? Woman has furnished her share up to the present hour. Who, then, can give the right, and on what basis? Who can withhold it?

In regard to my nationality, I was born in the old Huguenot town of Oxford, Mass., U. S. A. My father and mother were born there. My grandfathers and grandmothers, with two exceptions, were born, lived, died, and were buried there.

There is, once in a while, a monarch who denies the right of man to place a crown upon his head. Only the Great Jehovah can crown and anoint him for his work, and he reaches out, takes the crown, and places it upon his head with his own hand. I suspect that this is in effect what woman is doing today. Virtually there is no one to give her the right to govern herself, as men govern themselves by self-made and self-approved laws of the land. But in one way or another, sooner or later, she is coming to it. And the number of thoughtful and right-minded men who will oppose will be much smaller than we think; and when it is really an accomplished fact, all will wonder, as I have done, what the objection ever was.

CLARA BARTON.

tion let an aim be made to weed out the bad, the polluted, the corrupt, and introduce in its place the pure, the true, the thrifty and law-abiding citizen, even if we have to disfranchise a number of men from voting and granting the right to woman to bring about purity in the ballot box. This is a broad subject, and can be argued upon from many standpoints, but whether woman suffrage will bring about what we have intimated remains to be seen.

The teachers engaged for the public school in this district are Prof. B. O. Snuffer, principal; Miss Mamie Means, room No. 3; Mrs. Mary Whitten, room No. 2; Mrs. F. R. Beals, primary. School will commence on September 3rd.

A republican majority of about 250 on Monday in Tillamook county will not terrify our unterrified democratic friends, for we expect they will come up smiling at the next election, even if the stuffing is already knocked out of them.

Mr. E. A. Chamberlain sent us in a box of strawberries grown from his sharpless plants, and we can vouch for the fine fruit. If the box had been like the widow's cruise the editor and his staff would not have objected, for the strawberries tasted morish.

Mr. H. B. Hendricks is still agent for the Oregon Fire Relief Association, the rates in which are about one-fourth of those in standard companies. The membership is growing very fast in Tillamook.

Drop Mr. Hendricks a postal card at Bay City if you want fire insurance.

Mr. O. R. Chamberlain was in the city on Wednesday and informs us that he secured 140 gallons of oil from the whales he killed with a butcher's knife on the beach, which he has sold to Mr. Geo. A. Edmunds for 40c. and 50c. a gallon, the oil from the heads fetching the latter amount.

Mr. A. Watt received a telegram Saturday from Ontario, Canada, announcing the death of his mother, which occurred on the 24th May. The deceased lady was in her 81st year and had visited Oregon twice. She was in Tillamook about two years ago and visited her sons at Bay City.

Dr. Lowe, the optician of McMinnville, who sold so many glasses while stopping with Dr. Wise last summer, has moved to Eugene, Or., but will be in Tillamook at the Allen House for ten days the last of June. The Dr. don't peddle and will not visit any place but Tillamook, so if you want your eyes tested you must see him at the Allen House.

Tillamook Lodge, No. 290, Fraternal Union of America, after their regular meeting on Saturday, gave a farewell social to Mr. and Mrs. John Perry and Mr. and Mrs. Chas. E. Bester, who are leaving this county in a short time for Eastern Washington. A fine lunch was spread and indulged in, after which a social dance was enjoyed.

A large crowd attended the entertainment and shadow social at the Fairview school house last Saturday, and all report a good time. The proceeds, which amounted to \$12, will help to establish a library in that school district. This is a commendable object, for every school in Tillamook county, no matter how small the school or few the pupils, should have a library.

Decoration day was fittingly observed in this city on Wednesday, when exercises were held at the opera house, which was arranged by member of the G.A.R. The hall was well filled, when patriotic songs and recitations were rendered, with speeches by Messrs. W. H. Cooper and T. H. Goynne and Revs. F. H. Neff and Smith. It being a fine day, quite a number of persons went to the cemetery to decorate the graves.

Captain Genereaux with others came in on the steamer Harrison from San Francisco with appliances for the purpose of getting the stranded steam lumber schooner Laguna off the spit, where she is high and dry at low tide. Anchors have been carried to deep water with strong lines attached, and when the high tides comes a strain will be placed on them, and in this way it is expected to work the Laguna into deep water.

The hack which Sheriff Alderman was taking the ballot boxes to the precincts in the south part of the county had a mishap on Monday, the passengers and contents being dumped out this side of Beaver. Colonel J. E. Eddy was along, and being a newspaper man, he was not a privileged character that trip, so went through the dumping process. No bones were broken, and in about twenty minutes they were sailing along as though nothing had happened. On returning to the city next day Colonel Eddy tried to buck a Tillamook mud hole. He showed himself a novice at the business by getting stuck good and hard, and gained some experience in knowing how to extricate himself from that predicament. The
