**Income of \$1,000,000 a Month.**  
"It is just the same as a mountain of \$20 gold pieces," said Charles W. Akers, the secretary of the territorial government of Arizona, to a Washington Post man. The hill of \$20 gold pieces which he referred to is the United Verde mine in Arizona. "It is beyond question the greatest mine in the world. There is so much silver, gold and copper there that it makes one fairly dizzy to figure out how much."  
Senator Clark is almost the sole owner of the mine. The other shareholders have merely enough for the purpose of corporate organization. The profit now is \$1,000,000 a month. This is 5 per cent too little, rather than any too much. There can be no possible doubt about the profits. Now the lowest level at which they are working is 500 feet. You know these are very shallow workings. Yet if they go no lower and keep on working as they do now, there is enough to keep the mine running with the same monthly profit for fifty years.  
"If the mine should be worked to make as much money as possible, a tunnel would be projected at about a 2,500 feet level. It would come out a river and furnish plenty of water. Borings have shown that the ore is of the same quality to this depth. If the plan of the progressive engineers were adopted, 25,000 men might be employed instead of 3000. I would not even guess at what would be taken out of the mine then. The ore bears gold, silver and copper. If there was only the same quantity of one of these metals the mine would be worth working for that alone.  
"Not many miles away Senator Clark has enough property which the experts say is just as valuable as this. The title to this other property has been in liquidation for about six years, but Senator Clark has won the final verdict. I do not know that this other property is to be developed at once. Arizona is in a very flourishing condition at present. The mining properties are getting on much better footing. Formerly some of the Arizona enterprises had rather poor names, but the public is learning that they have real worth."

Duke of Portland is a half brother to the celebrated stallion Astell, who made a record of 2:12 at three years of age, and subsequently sold for the enormous sum of \$25,000.

Duke of Portland was shipped from Kentucky to the coast by Congressman Tongue and Van B. De Lashmore, and while owned by them and in training has repeatedly been driven at a 2:20 gait. As a sire Duke of Portland has no superior. His colts are good sized, well formed and speedy.
