From present indications it looks as if there is to be a freight rate war between San Francisco and Portland, at \$1 a ton. Yet from Portland to Tillamook some of the citizens have to pay \$6 a ton for freight. But we see competition in sight for Tillamook as well.  
When playing foot ball with a number of the boys on Tuesday afternoon, Arthur Stillwell jumped upon W. Bosley's back, and in falling fell upon his left arm, dislocating it at the elbow. He was carried to Dr. Wiley's office, who placed the injured limb in position again.  
From present indications there is likely to be a lively time electing a United States senator at the state legislature next month, and if legislators who intend to vote for H. W. Tillamook City thus far has not been molested with safe crackers and footpads, but it is just as well to be on the alert for them. As the Pacific Coast appears to be now a profitable field for them, it is just as well not to leave too much treasure in safes for them to make a haul should they decide to give this city a friendly visit.

Mr. E. Quick is around with his head bandaged up, a bottle having struck him on the cranium while unloading oats in Hadley's barn on Monday morning, inflicting a cut nearly two inches long which the doctor had to sew up. Emmet is in doubt where the bottle came from, but is under the impression that someone must have been throwing away an empty bottle, not knowing he was there. But it came near laying him out.

EDMUNDS & CO.  
Dec. 13, 1900.  
Editor Smith, of the Oakesdale Sun, and Rev. W. C. Evans, pastor of the Methodist Episcopal Church, are engaged in a bitter personal war, the former using his paper in which to "roast" the preacher, while the latter "roasts" the editor from his pulpit.

**Tax the Non-Residents.**  
As some of the roads in the county are in a deplorable condition, especially in the south part, the question arises how are they to be improved with the limited amount of money at the disposal of the county commissioners. Some people would, no doubt, favor borrowing money and improving the roads at the first opportunity. As we are opposed to the pernicious bonding system, we are not in favor of that. How then is the county commissioners going to get more money for road work? It appears to us that the non-resident property owners should be taxed higher, particularly those who are holding land for speculation. We think it only right that they should be made to pay a large proportion of the taxes for road work, as those who reside here are not only improving the county and increasing its wealth, but they do much to enhance the value of the property of non-residents. This is a question worthy of consideration, and we believe it will solve the bad road problem quicker than anything in a very few years. Let us have good roads, even if we have to tax non-resident property owners double what they are paying now. In justice to the resident taxpayers this is only right, and the Headlight is in favor of taking the bull by the horns and not let go taxing the land speculators who own property in this county until we have all the main roads in good condition for summer and winter travel. Are the resident taxpayers in favor of this?
