

Tackle the Officials, Please.

[TO EDITOR OF TILLAMOOK HEADLIGHT.]
In this week's issue of your paper I note the following: "Why should respectable citizens be singled out for prosecution on a trivial offense for not dismounting on the sidewalk when thirty feet away from pedestrians? And, on the comparison, are the women who run houses of debauchery privileged characters," etc.

Now I am a respectable lady of this city, have a husband and also children, and I look at the matter in this way. I do not uphold those disreputable women, neither do I associate with people of that kind, nor wish to see them stay here, but that is solely a matter of choice. No one is obliged to mingle with them if they do not choose, but to be run down on the sidewalks by bicyclists is not a matter of choice. Twice have I narrowly escaped being run over by someone riding a bicycle on the walks of this town, and not only that, but at the same time came near seeing my baby buggy, with my baby in it, thrown from a walk three feet high.

Isay that the bicycle ordinance referred to is a good one and let it be enforced. I do not ride a wheel, but if I did I would be perfectly willing, with the experience I have had, to dismount for the safety of other people, as well as myself, or else ride in the street.

"Do unto others as ye would that others should do unto you."
A LADY RESIDENT OF TILLAMOOK.
Feb. 15, 1901.

[We are a little undecided whether our lady correspondent is taking exceptions to our remarks, thinking, probably, that we do not favor the enforcement of the bicycle ordinance, or that she wishes to show more conclusively why the ordinance should be rigidly enforced. We take this position, if one law is to be enforced then make no exceptions with the others which are being violated. And the one we had in mind is even when we wrote the article reads like this: "To suppress, restrain and prohibit bawdy and assignation houses, houses of ill fame and prostitution." It places those in a tight place who close their eyes to this evil and make no move to suppress it.

Another correspondent asks the Headlight to explain why some business men had to pay fines for breaking one law while other business men who break other laws are not fined also. We will not undertake to answer the question, but will refer it to the city authorities, so that our correspondent can take up the gauntlet with them if he feels disposed, leaving those who started the ruction to fight it out between themselves.—Ed.]

Another Prospective City.

DEAR SIR,—I thought it might be interesting to your readers to know that quite a scene of activity prevails at Bloomsville since work commenced on the saw mill of the Yellow Fir Lumber Company, and, like other parts of the county, this place has its shingle out to be made the terminus of the proposed railroad into Tillamook, and that round house and machine shops will be built here, which will give our prospective city quite a boom and make it the county seat. As that is the talk now, you see the old town of Tillamook is not in it, for we are going to erect a college, court house, churches and business houses, and those who circulate a petition to bond or work a "graft" will be tarred and feathered and told to "Get." Of course, this is all imagination, but, to be serious, the city of Bloomsville has one industry to start out with and an effort will be made to secure others.

I will come now to the object of this letter. We have our mill almost ready for cutting lumber, and this section of the county will be greatly benefited by the mill being located here, for it will not only give employment to a number of men, but it will enable the farmers to procure first class lumber to build new houses, barns and fences, thus greatly improving and developing the country. The mill will cut 40,000 feet of lumber a day and will give employment to a number of teams hauling lumber to Tillamook City, where a lumber yard will be established, and we expect to receive a fair share of the patronage, both from old friends and those who want to help out this new industrial enterprise.

Yours truly,
W. BARKER.

Real Estate Transfers.

- Henry Lederer to M. R. Haninkrat, bond for deed.
- P. L. Buell to Wm. F. Campbell, 80 acres in sec. 4, tp. 2 S, R. 9 W.

A. W. Phelps to S. M. Robbins, various tracts.

NEHALEM.

The tug Vosburg left for Tillamook on Tuesday.

Dr. Smith of Tillamook was called to Nehalem on Sunday to attend Wm Tohl's eldest daughter.

L. McFee shipped some salted steel-heads to Frisco by the tug. He will also ship some to Seattle.

Messrs. Munroe and Drew were on the river last week helping Eason and Linkhart exhibit their moving pictures. The first night was not a success, and tickets were returned to the audience, but the second night all worked o.k.

Mr. Rob't Brown has been quite sick the past week.

Alex McDonald's dike is beginning to loom up considerable under the manipulation of Frank Lundburg.

Messrs. Philebaum and Boyakin took the gasoline launch Maria for a spin up to C. Pye's during the freshet on Saturday, making the return trip in an hour and eighteen minutes; the return trip, of three and three fourth miles, being run in fifteen minutes.

There is a fine opportunity now for some enterprising person to open up a general merchandise store or at the forks of the river as there is none at this place since the death of Mr. Fearnside. A store at this place would be a great convenience to the Nehalem people.

BLAINE.

Mr. Pearl Coulson, who has been working at the County sawmill, is at home again.

Mr. Seth Moon must be fond of losing calves as he has already lost about half a dozen this winter; we feel sorry for him.

Jno. Creevy went to the metropolis for his fruit trees.

Geo. S. Smith was seen promenading our streets this week, but getting tired of promenading alone he took his team and left for Salem for his wife.

We are sorry to hear of Miss Effie Patterson's sickness, but hope she will soon recover.

Messrs. Dee Moon and Ralph Bundy attended a party at D. P. Coulson's last Saturday night.

The foot-bridge crossing the "Little Emery" was demolished by the recent high water, the consequence is that a new bridge will have to be built before the school starts.

The citizens of Blaine have built a plank road from Beaver to the Brown school-house, but the recent snow storm has washed the planks away.

HEBO.

An extraordinary large crowd attended the dance at Chas. King's cheese factory the 14th inst.

Jerry Lewallen and sons were at Woods recently rafting some lumber up the river which they purchased at the wreck.

Chas. Jensen was down from the saw-mill to attend the dance.

N. P. Hansen has been sewing grass on his Three Rivers place.

The Kellow boys have been getting out another lot of cedar timber up Three Rivers.

It is to be regretted that some young men will attend dances and public gatherings for no other noticeable reason than to get drunk, and make a show of themselves, much to the disgust of respectable people. When a young man doesn't dance nor bring any one who does, we can see no plausible excuse for him attending a dance and disturbing the pleasure of those who do, by taking up collections, or contributing to them, to send some one after liquor, who will steal some one else's horse to ride through the mud for several miles to obtain it, merely for the sake of getting drunk and causing confusion at an otherwise harmonious and peaceable gathering. Such proceedings are loudly condemned by all right-minded people and should not be allowed to occur.

BOULDER CREEK.

Mrs. Florence Getchell, of Hebo, who has been visiting relatives and friends in this locality for the past two weeks, started for her home last Thursday. She was accompanied by Misses Lulu and Lena Bays.

Every one in our part of the country finds frequent use for pocket handkerchiefs lately, tho' not to "dry to falling tears."

Born—On Wednesday, Feb. 6th, to Mr. and Mrs. W. D. Gladwill, a daughter.

On Thursday, Feb. 7th, to Mr. and Mrs. Nicklans, a son.

Cameron and Louis Getchell came over the hills from Cedar Creek, to visit their sister, Mrs. Chopard, last week.

C. A. Smith and H. A. Chopard have been under the weather for a few days, and are now convalescent.

S. L. Brady has sold his ranch to Mr. Lucas, who moved on to it a short time ago.

We understand the Mr. Brady will work for Mr. Gladwill this coming summer.

News is scarce so an revoir till next week.

GARIBALDI.

This reached us last week after we had gone to press:

Wm. Richardson, Hiram Perry and Grant Martail left Garibaldi last Friday morning for Astoria.

Mr. Peter Svenson, while in the act of detaching his net rack from the top of a high piling, lost his balance, some way, and Pete, net, rack and all went into the bay with a terrible splash. Had it not have been for the timely aid of a friendly skiff, and he being such an expert swimmer, it might have turned out seriously, but as it was, he came off very lucky with a slightly sprained ankle.

The boys are catching some very fine crabs. They say that Captain Richardson is so cranky that he will not take them to town for them.

Hick & Nelson, of Bay City, were down to Garibaldi this week on business.

Mr. Svenson and Mr. York had a very pleasant call on Mr. and Mrs. L. C. Smith, last Sunday.

Mr. and Mrs. C. A. Johnson were down last Sunday to see their papa's and mamma's again. Come again young folks, you are always welcome.

Will it be a Deadlock?

As far as is known in this city, there is no change in the senatorial deadlock at Salem. It was reported in that city that Mr. Corbett would be dropped and that Mr. Harvey Scott's name would be substituted. It is also reported that the Mitchell faction and the democrats have made a deal, but we do not think that Mitchell can secure enough votes to elect him. As the legislature adjourns tomorrow (Friday) it will not be long to wait to see whether it will be a deadlock.

Saloon Raiders Commit Murder.

LEAVENWORTH, Kas., Feb. 19.—Mrs. Rose Hudson, wife of John Hudson, a saloon-keeper at Millwood, 14 miles north of here, was shot and instantly killed last night during a raid upon her husband's saloon.

Hudson had been warned to close his saloon, but refused. About ten o'clock three men entered the place and called for drinks. When served they rapped on the counter and gave a signal. Hudson jumped from behind the bar and grabbed one of the men. In the scuffle a shot gun which the man carried was discharged, the contents entering the walls. Mrs. Hudson, attracted by the noise, ran screaming into the room, while a mob of 40 men, most of whom were masked, entered in answer to the signal.

In the melee that followed, Mrs. Hudson was shot in the head by a shotgun, the top of her head being blown off. William Webb, one of the raiders was shot in the shoulder with a revolver. Nearly 100 shots were fired. Hudson carried his dying wife into an adjoining room and the mob retired without wrecking the joint.

Sheriff Everhardy, who went to Millwood, has secured four prisoners, two of whom are John and Henry Wilson, young farmers. Others implicated will be arrested. There were no women in the mob, it being composed of farmers, all in disguise. The town is in a state of excitement and more trouble is threatened.

Prohibition Impractical.

WICHITA, Kan., Feb. 19.—At a meeting of the Ministerial Association last evening it was resolved to call a mass meeting at the Auditorium next Sunday afternoon.

Rev. J. D. Ritchie, of the Episcopal Church, president of the Ministerial Association did not attend the meeting, but has come out in an interview as opposed to prohibition. He says the saloon is so deeply grounded in American life that it is a part of our social system. A large number of people make it their club. Regulation is the best that can be done with the saloon problem.

Cudahy Kidnaped is Caught.

OMAHA, Neb., Feb. 19.—One of the three men implicated in the kidnaping of Edward Cudahy, Jr., has been arrested and is now in the City Jail. The man was arrested Saturday night, but the news was suppressed by the police until today. When the suspect was brought into the presence of young Cudahy for identification, the young man said: "This is the man who asked me to get into the wagon. There is no doubt about it; he is the man."

The police thus far refuse to divulge the identity of the prisoner, but it is known that he was arrested by two local officers. He has been under surveillance for some time, as it has been known that he had been writing letters concerning the Cudahy case, and this fact brought suspicion upon him.

Edward Cudahy told a representative of the Associated Press that the man under arrest had been identified by his son as the man who accosted him in front of the Cudahy residence and who kept him company in the house to which he was taken on the night of the abduction. Mr. Cudahy said the man had also been identified by the servant of the Partridge household who saw the letter thrown into the Cudahy lawn, and by another party, who rented the house to the two men.

May Repeal Treaty.

NEW YORK, Feb. 19.—A dispatch to the Journal and Advertiser from London says: Ambassador Choate has received instructions from Washington to impress upon the British Government the necessity for immediate action upon the Hay-Panacefote treaty.

Mr. Choate will call upon Lord Lansdowne and tell him the United States expects a decision on the treaty before March 4.

Mr. Choate has been informed unofficially of the disposition of the United States Senate to repeal the Clayton-Bulwer treaty and pass the Nicaragua Canal bill if the pending treaty be not accepted. And he will tell the Secretary of State for Foreign Affairs just what the situation in the Senate is.

He has received no intimation of any sort from the British Government as to what its decision will be, but there is good reason for saying that England is inclined to temporize, feeling that by delay and perhaps by alternative suggestions she may obtain some modification of the terms of the treaty itself, or some set-off against what she considers her concessions.

Ambassador Choate's instructions from Washington are imperative, and he will make Lord Lansdowne realize that whatever he intends to do must be done quickly.

NOTICE FOR PUBLICATION.

Department of the Interior,
Land Office at Oregon City, Ore.,
February 16th, 1901.
Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the Register and Receiver, at Oregon City, Oregon, on April 1st, 1901, viz:
ERICK HEMSTROM,
If E. No. 1185, for the S 1/4 of Sw 1/4, sec. 3, E 1/2 of Nw 1/4 and Lots 3 and 4, sec. 10, Tp. 3 N, R. 8 W.
He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz:
David T. Meedell and Delmar Springer, of Nehalem, Oregon; John Erickson, of Ilwaco, Washington; Frederick Blockell, of Olney, Oregon.

OPPOSITE THE POST OFFICE,
TILLAMOOK, OR.

One hundred thousand able-bodied tramps, who would rather walk than work, or ride than eat, costing \$25,000,000 a year to society, and at all times a moral burden upon the public conscience—in these figures are the debits of an idle class which moves on when it has to and which vacillates between city and country with all the regularity of dwellers on the city boulevards. According to the figures from the national estimates, Chicago harbors one-twentieth of the brotherhood of the country and pays \$1,257,500 for the infliction.

TO PREVENT DECAY.

Wood Preserver Used by Uncle Sam on Yamhill River Work.

Merits of Avenarius Carbolinum Recognized by National, State and Municipal Governments.

The fame of Avenarius Carbolinum has steadily extended, as the only bona fide preserver of wood, since its discovery in Germany thirty years ago. It has stood all tests of climate, soil and water and steadily lived down all pretended rivals. Today it is not only employed in all countries for the preservation of wood used for household articles such as houses, barns, fences, etc., but the national governments, both of Europe and America, have recognized its value in saving public constructions from decay.

Following their example cities and counties have also adopted Avenarius Carbolinum for bridges, pavements, etc., and the leading ship builders and railroad companies have shown their faith in its merits by treating ship timbers, cars, telegraph poles and ties with the same never failing preventative against climatic decay and rapacious wood boring vermin, both of land and water.

Great bodies move slowly, and only act after mature deliberation. It may therefore be safely stated that governments and corporations did not employ Avenarius Carbolinum until fully convinced of its money saving as well as wood preserving qualities. Private individuals desirous of lengthening the life of wood work and at the same time curtailing expenses, need not fear to follow the precedents established.

Recent local examples proving the truth of the above statements are not wanting. The reconstructed Madison street bridge in Portland has been treated with Avenarius Carbolinum, as has also the pavement at the intersection of four streets in that city where the heaviest street car and wagon traffic converge. The latter use of the compound was made at the earnest solicitation of street car managers who confidently look for gratifying results.

The gentlemen in charge of the United States engineer department for Oregon are now applying Avenarius Carbolinum to the dams and lock work on the Yamhill river, a flattering tribute to its merits which was certainly not extended until searching investigation satisfied the authorities that it was a measure of practical economy.

Fisher, Thorsen & Co., of Portland, Or., are sole Pacific coast agents for Avenarius Carbolinum, and it can be found at WARD & BROS., Tillamook, Or., who will gladly supply information regarding its accomplishments.
