No investment in sight pays as well as advertising. A Missouri man advertised for a wife and caught a widow with five children.

Ex-President Cleveland has decided not to spend the summer at Gray Gables this year. Perhaps he was prompted by a desire to escape another repetition of Joe Jefferson's fish stories.

Every soldier returning from the Philippines praises the islands as a region of great undeveloped riches. On the average about a fourth of a returning regiment remains behind to engage in business.

The sovereign camp, Woodmen of the World, has decided that in the future if a member engage in the liquor business he shall be expelled, and camps refusing to take this action shall have their charters revoked.

Last year the coinage of gold in the United States amounted to \$107,937,110, bringing the total of gold coined from the foundation of the mint to \$2,147,088,113. At the present rate that total will be duplicated within the next twenty years.

Fourteen new divisions of the Brotherhood of Railway Trackmen of America were chartered during the month of March and the force of organizers is being constantly increased. The effectiveness of their work is proving their value to the order.

The final report of the Galveston relief committee shows that the total contributions of money were \$1,243,495 and of provisions and supplies \$250,000 in value. The American people should be proud of the record they made in this as in all others when the cry of distress came up.

The nominal capital already invested in the Texas oil fields exceeds belief, but the craze goes on unabated. Somebody is going to get hurt and somebody else is going to make millions. It surpasses the Klondike madness. And, speaking of the Klondike, where is it? Did it slide off the earth?

It is reported that Father Amado, the runaway priest from Guadalajara, who took with him 100,000 belonging to religious societies of that city and was accompanied by a young woman of one of the best families, has crossed the frontier into the United States. He has grown a beard.

Andrew Carnegie has given £2,000,000 to establish free education in four Scotch universities, Edinburgh, Glasgow, Aberdeen and St. Andrews. He stipulates that the beneficiaries be his "Scotch fellow countrymen" only, no English, Irish, Colonial nor foreigners. The fund will apply to medical as well as to commercial education and will be placed in the hands of trustees, who will defray the expenses of Scotch students benefited under the scheme.

Babecock, of Wisconsin, is a bull in the high tariff china shop. His latest declaration is that Congress will fall very far short of its duty if it shall fail to abolish duties on all articles controlled by combinations that fix prices regardless of the consumer, and that are no longer in the slightest need of protection. Now listen to the gnashing of teeth that may be heard from the joss-house of the trusts in which "infant industries" that arrogantly rule markets are set up as idols for the worship of a select circle of votaries who grow fat upon legalized extortion.

Cuba will accept the Platt amendment. This is the burden of the recent news from the island. Undoubtedly this forecast is correct. The amendment is in Cuba's interest, as well as in that of the United States. Cuba, in fact, has an even greater interest in the maintenance of the idea outlined in the Platt measure than has the United States. All this will become plain to intelligent Cubans as they study the measure in all its details and realize the position they would be in without this country's support. The Havana constitution framers will grasp this fact. Under the coaching of the

United States in their effort to run a government of their own the Cubans will be in excellent hands.

The overland automobile trip to San Francisco to New York City, under the auspices of the Cleveland Plaindealer, and conducted by Alexander Winton and Charles B. Shanks, began its journey Monday morning at 7:15 o'clock, when from in front of Ferries' building, in San Francisco, Mr. Winton started his horseless carriage on the trip over plains, mountains, valleys and deserts. This is the longest trip of its kind ever taken in the United States, if not in the world, and each day's progress will be watched with interest. The Eastern destination in New York, where a packet from General Shafter will be delivered to General Miles. The projectors of the trip expect to make the run across the country in very fast time. The route taken will probably measure 4000 miles.

The Minnesota legislature passed a number of bills affecting farmers. A new law prohibits the sale of oleo or any imitation butter colored yellow, and makes such sale a misdemeanor. Formerly the stuff was allowed to be sold if properly labeled. The Torrens system of land title registration is to be tried in the counties of Ramsey, Hennepin and St. Louis (the counties embracing St. Paul, Minneapolis and Duluth). If it proves a success in these counties it is to be hoped that at the next session it may be made applicable to the whole state. The gross earnings tax bill, which was passed after a hard fight, provides that with the sanction of the people at the next general election the railroads of the state shall be compelled, after January 1, 1903, to pay a gross earnings tax of 4 per cent in lieu of all other taxes.

The first exclusively married men's organization ever founded in Colorado filed articles of incorporation with the secretary of state. It is known as the Supreme Order Married Men's League of America, and none but benedicts in good standing are allowed to join. Widowers, both grass and sod, are barred, and a man who has never enjoyed conjugal bliss could not get in even if he had powerful influences and all the money in the world back of him. The objects of the order, as stated in the papers, are to unite fraternally married white men under the age of 55 and of good moral character and reputable occupation, to encourage their social and mental culture, and to render material aid to members of those depending upon them for support. By its good work among the married men the order expects to encourage matrimony among their single brethren. The order has also an insurance branch which grants \$4,000 to a wife upon the death of her husband.

There is no natural enemy of the salmon and other oodj fishes which works greater destruction than do the sea lions which congregate in hundreds and perhaps thousands off the mouth of the river at certain seasons of the year and even follow schools of fish into the bay. How many salmon each of these mammals kills every day is purely a matter of conjecture, but instances are known where, in single sea lion has killed and eaten eighteen salmon within a very few minutes. While that is no doubt, far above the average, yet it is certain that many thousands of royal Chinooks are destroyed every year by these ests. A vast amount of valuable fishing gear is also destroyed each year by the lions. They will often become entangled in a gillnet or trap and before being released will by their slashing and biting tear the web into shreds. The amount of damage done every season by these animals would be difficult to estimate, but it is certainly enormous and their utter extermination would be of untold benefit to the people of the Coast, and especially to everyone interested directly or indirectly in the fisheries of the Pacific Northwest.

9th Month.....	38	9	164	200	193	96

The above report is made for your careful consideration. Please preserve it and compare each month's report next year with this, and you will be more able to see the rise or decline in school interests in Tillamook. Yours truly,  
 B. O. SNUFFER, Teacher.

**Shamrock II. Disabled.**

SOUTHAMPTON, May 22.—The cup challenger, with King Edward and a party on board, was totally dismantled today by a squall, off Cowes, Isle of Wight. The King, who was on deck, had a miraculous escape. The topmast, mainmast and bowsprit were broken short off. The disaster occurred while arrangements were being made for the start off Brambles buoy.

LONDON, May 22.—During the race between the two Shamrocks and the Sybilla, in the Solent today, a sudden squall struck the yachts. The topmast of Shamrock II. was carried away and then her mainmast went by the board, carrying all her sails with it and leaving her practically a wreck. The topmast of Shamrock I. was also carried away in the squall. No one was injured on board the yachts. The squall struck the yachts broadside on.

**The Red Shoe House.**

I have just received a well selected stock of Ladies' and Gentlemen's Shoes, direct from Chicago, for summer wear, which I shall be glad to show.  
 If you want a shoe for ease, comfort and wear, call at
