Latest from Portland: A railroad to Tillamook and a new water system in this city before the year closes. How these boomerangers do make us snicker.

Strange, it is not, in municipal affairs, that as soon as a city is needing supplies there's always a few persons who are on the alert to concoct and work a "graft."

Emmett Quick is now delivering for us, and we are prepared to fill your orders for groceries, dry goods, boots and shoes and deliver them to your door. D. T. Edmunds.

The Fairview sloggers didn't do a thing to the city duds on Sunday, but the latter don't intend having the stuffin' knocked out of them when they try to play ball again.

Astoria had a two-bit railroad rate for a long time. Is Tillamook City likely to get into a water rate war if another water system is put in? Competition is the life of trade.

The band boys will give a dance on Saturday evening at the opera house, and as the proceeds will go towards paying for the instruments a large attendance is expected.

There will be preaching at the Methodist church next Sunday morning, but in the evening the Children's Service will take the place of the preaching service. A cordial invitation to the public to attend these services.

Rev. R. H. Dollarhide received word from California that his son, M. M. Dollarhide, who went there for the benefit of his health, was growing worse, and Mr. Dollarhide left on the stage Wednesday to bring his son back to this city.

Somehow, it looks awfully bad to see some of our citizens sending outside for their printing. Let's be public spirited enough to support and patronize local businesses and build up local trade, and not send little or big jobs of printing outside to be done.

The river and harbor committee has left Washington on its tour of inspection and it appears to us the citizens ought to be enthusiastic and public spirited enough to send a deputation to Portland to meet the committee, and if for no other reason to express regrets that the committee is unable to visit Tillamook.

Judge R. P. Boise and Mr. J. Voorhees, secretary of the Lower Columbia Fire Relief Association, will speak at Nehalem on Wednesday, the 12th inst., upon the work of the Patrons of Husbandry and legislation. They will also speak at Fairview Grange hall on Friday, the 14th inst. There will be a Grange meeting in the day and a public meeting at night.

When Mr. B. C. Hadley stated on the street the other night that if the city was bonded for a water system before it was completed considerable of the money would be swallowed up by a graft is a truism which cannot be gainsaid. And we may add what a lively time there would be at every city election by those are anxious to get on the pay roll of the city.

Don't this sound great? The agent who came to this city and wangled the hose contract returned to Portland and kicked about poor transportation, when, in point of fact, we are now getting as good a service as can be expected, for the Sue H. Elmore has made four or five trips since the hose contract was let, but still the hose has not arrived. That man ought to be put off at Boston.

The Portland, Nehalem & Tillamook Railroad Company continues to build this railroad in the columns of the Oregonian, and if the promoters persist in this much longer they will have enough newspaper articles to reach direct from Portland to Tillamook City. All it now requires is for the Oregonian to pile on the agony a little more and then the promoters will be able to lay the line with newspaper articles.

President Hays, of the Southern Pacific, arrived in Portland on Monday and was asked this question: "Has your visit any bearing on the Nehalem railroad project?" And to this he replied: "What is that project?" He followed this with other questions as to the resources of the Nehalem country and the demand for them in Portland. "I had not heard that Portland needed cheaper sawlogs," he said. From this it would appear that the Southern has no intention at present of extending the road from Sheridan.

The Pacific Rubber Co. dunned the city for \$800 for the fire hose it has failed to deliver. Did the company think that it could hoodoo the city again? It looks that way. But the laugh won't be on city any longer if the officials refuse to accept the hose when it reaches here. A

little retaliation would be good medicine in this instance, and the city dads will, no doubt, let off some of their pent up powder at the proper time, just to show the rubber company that it can be fooled once but not fooled all the time.

Mrs. Jones takes this opportunity for thanking the people of Tillamook and vicinity for their kindness and liberality to the Oregon Children's Home Society. Mrs. B. L. Eddy and Mrs. J. D. Edwards have consented to act as local agents for said society. Anyone desiring to assist this worthy cause, who have not been called upon, or were not prepared at this time, can do so through these ladies. Anyone knowing of a homeless child, or a childless home, that would like to adopt one of the children will also communicate with the local agents.

It is now 13 years since the HEADLIGHT made its first appearance, for with this issue brings another year of its existence to a close, the first paper being issued on June 8, 1888. So it is the HEADLIGHT's birthday tomorrow. During these years the paper has faithfully, fearlessly and zealously devoted itself to the progress and development of Tillamook county and the best interest of the citizens, and this it will continue to do in the future. If the HEADLIGHT is a little plain spoken at times, then this is not a bad trait in its character, for the public press, to amount to anything, must be untampered with, fearless and independent.

Mr. Kasper Schlappi was getting his milk cans into his wagon at the South Prairie creamery on Saturday morning, when the team became scared and started off. In reaching for the reins he was thrown from the wagon and caught in one of the wheels and was whirled around with it, and while in that position had his right arm broken near the wrist, the muscles of his legs badly strained and a wound on the head. Dr. Wiley was telephoned for and he immediately started to attend to the man's injuries. It was thought that Mr. Schlappi might be internally injured, but he is improving as well as can be expected after meeting with so serious an accident.

Talk about the wholesale merchants of Portland being desirous of holding the trade from Tillamook county, we are inclined to think that their determination not to handle Tillamook cheese unless they receive 1½ cents per pound for so doing is poor thanks for the large amount of business they have received from Tillamook merchants, who handle a large proportion of the cheese manufactured in this county. San Francisco nor the Sound wholesale merchants would never think of serving their best customers like this. If the Portland wholesale merchants insist upon being so exacting and will not reciprocate, then they must not complain, if they lose more of the trade from Tillamook.

All the members of the city council were present at the meeting on Monday, and besides the water franchise ordinance, the council took up the matter of Congressman Tongue's reply to the invitation of the river and harbor committee to visit Tillamook. It having been seen that the committee could not come and that it was likely that Mr. Burton, chairman of the committee would visit Oregon later, it was decided to send an invitation to that gentleman and Mr. Tongue to visit this county for the purpose of looking over the situation in regard to government improvements of the bar and bay. Bills allowed were: Water company, \$30; recorder's salary, \$10; Electric Light Co., \$41.55; marshal's salary, \$40.

CLOTHING, HATS, SHOES, Furnishing Goods, Groceries, Flour and Feed.

CLOTHING THAT LOOKS WELL is not always the kind to buy, but they must be the kind that **WEAR WELL.**

In other words they should be as **GOOD AS THEY LOOK.** OUR IDEA OF GOOD QUALITY is perhaps different from some others, **Not Cheaper, But Better for the Money,** is what we think should first be considered.

We want to **SELL YOU YOUR CLOTHING,** and therefore do not wish to palm off on you some inferior article for the **Genuine,** but appeal to your judgment, knowing you to be reasonable.

A Poor Cow costs its owner as much to keep as a good one, and therefore **IS DEAR AT ANY PRICE.**

Likewise **A Poor Suit of Clothes** cost nearly as much to make as a good one, and therefore quality must be taken from the **Material Alone,** in order to make the whole cheap, leaving the Suit **Not Worth Having.**

But when you combine quality of material with the making you obtain a good suit, one you can guarantee, and one which will be a pleasure to sell, and a pleasure for anyone to wear.

You can wear one of these suits for years, knowing they will not fade, bag or rip, while perhaps your neighbor's which is of the cheap John grade, is sun-burnt, faded, bagged, twisted and knock-kneed within a few weeks.

We have cheap suits, which we will sell you with the profit off, so you will have as good for the money as any one can sell you.

We recommend the better quality. We would advise you to buy the better quality and to buy from your home merchant, one who **expects to remain here, who pays taxes,** and one who has his **capital invested here,** and will be here to stand good for his guarantees.

If you do not wish to trade with us, you have others who are taxpayers and permanent residents, trade with them.

It is the money of the taxpaying merchant that helps to pay **County Officers Salaries, build Roads, Bridges, pays for Butter, Eggs, Cheese, Wood, &c.**

It is the taxpaying merchants that employ **clerks, carpenters, painters, buys lumber, builds buildings,** and improves the county generally.

It is the taxpaying merchants names you see at the head of every subscription list for charitable, benevolent or patriotic purposes for public improvements.

Are they entitled to your patronage? We think they are.

What applies to our clothing, applies as well to our whole stock. Come and see for yourselves.
