Let's quit chewing the rag about this and that and whoop her up for a Fourth of July celebration in this city, for nothing will be accomplished if we keep beefing. Show your patriotism by subscribing liberally, whether you make anything out of it or not. Now who's going to head the list with \$50?

A large number of the cities in Eastern Oregon have taken steps to make it interesting for the river and harbor committee when it arrives in Oregon about the 28th of this month. And can't Tillamook make it interesting as well? Of course it could, if it would only bestir itself in that direction.

Mr. P. McIntosh returned from a business trip from the Sound and Portland last week. He says the letter from the commission merchants, wanting 1 1/2c. per pound for handling Tillamook cheese, is not troubling him in the least, for he has decided not to ship any more cheese to the Portland wholesale merchants on commission.

Every district school should be well supplied with maps, charts and other paraphernalia, the law allowing the directors the privilege of expending a limited sum every year for that purpose. As we understand a number of schools are poorly supplied in this respect, now is a good time to procure them when most of the schools are in session.

Superintendent G. B. Lamb is visiting the schools in the south part of the county this week, and, we suppose, is as dignified as ever. If George should take some of the school narms by surprise with "Booh!" we'll gamble most of them would suddenly exclaim "Oh!" But we won't say another word for fear of getting into trouble with the profession.

Mr. F. S. Fairhurst, of Carson, Or., came in on Monday, having business at the circuit court. Since he was here at the last term of court he met with an accident, a log rolling over him and injuring him. He was one of the passengers on the stage which broke down in the mountain on Sunday, and it was peep-a-day when he hoofed it into the city next morning.

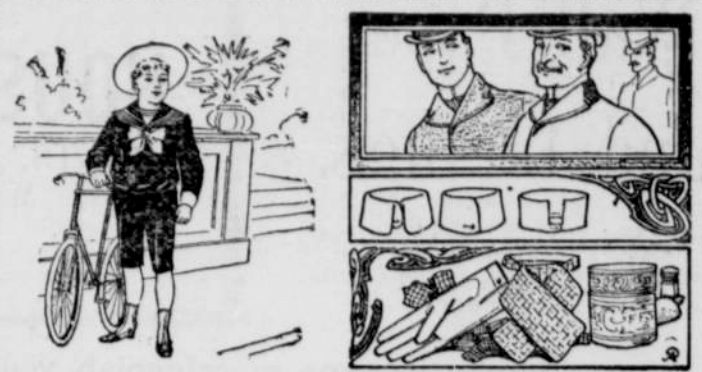

The band boys having declined to take hold of the Fourth of July celebration, the hose company again wrestled with the subject at their regular meeting on Wednesday evening. Fire Chief P. W. Todd stated that a large number of the citizens wanted a celebration, and he thought that something ought to be done in the matter, suggesting that a committee be appointed to solicit subscriptions. After a lively discussion this was agreed to and the committee was appointed.

The contract has been signed by Mayor D. Wiley, President A. J. Cohn and Recorder Thos. Coates, granting Mr. H. J. Withey a franchise to put in a water system with eight inch iron pipes, the work to be completed in six months. Mr. Withey agrees also to furnish water for municipal purposes free and will charge fifty cents per month for each faucet. We hope we are mistaken, but we have very little faith in the genuineness of this proposition and that we shall be surprised if it materializes. Time will soon tell, however.

We rise to remark that the 1000 ft. of hose ordered by the city council did not reach its destination when the steamer arrived here Friday, and we presume it is still somewhere between Boston and the jumping off place of the Northwest. And still holding the floor, we would like to remind the agent of the Pacific Rubber Co., who shot off his mouth in Portland about bad transportation, that this is the sixth trip of the steamer since he said the fire hose would be here on the next steamer. Well, Christmas is coming and the hose may be here by that time.

If the people who have come to Oregon the past few months for the purpose of locating in this state could only feast their eyes upon the luxuriance of the grass and clover crop at the present time in Tillamook country they would soon be satisfied that this is an ideal dairying country, for here plenty of feed can be grown and there is never a scarcity of it either in winter or summer. Grass is king in Tillamook and Old Bossy is a gold mine to the thrifty dairymen in this county, and there's plenty of room for hundreds to locate and make homes and independent livings.

**CLOTHING that KOOKS WELL** is not always the kind to buy, but they must be the kind that **WEAR WELL.**

In other words they should be as **GOOD AS THEY LOOK. OUR IDEA OF GOOD QUALITY** is perhaps different from some others, **Not Cheaper, But Better for the Money,** is what we think should first be considered.

We want to **SELL YOU YOUR CLOTHING,** and therefore do not wish to palm off on you some inferior article for the Genuine, but appeal to your judgment, knowing you to be reasonable.

**A Poor Cow** costs its owner as much to keep as a good one, and therefore **IS DEAR AT ANY PRICE.**

Likewise **A Poor Suit of Clothes** cost nearly as much to make as a good one, and therefore quality must be taken from the **Material Alone,** in order to make the whole cheap, leaving the **Suit Not Worth Having.**

But when you combine quality of material with the making you obtain a good suit, one you can **guarantee,** and one which will be a pleasure to sell, and a **pleasure** for anyone to wear.

You can wear one of these suits for years, knowing they will not fade, bag or rip, while perhaps your neighbor's which is of the cheap John grade, is sun-burnt, faded, bagged, twisted and knock-kneed within a few weeks.

We have cheap suits, which we will sell you with the profit off, so you will have as good for the money as any one can sell you.

We recommend the better quality. We would advise you to buy the better quality and to buy from your home merchant, one who **expects to remain here,** who **pays taxes,** and one who has his **capital invested here,** and will be here to stand good for his guarantees.

If you do not wish to trade with us, you have others who are taxpayers and permanent residents, trade with them.

It is the money of the taxpaying merchant that helps to pay **County Officers Salaries,** build **Roads, Bridges,** pays for **Butter, Eggs, Cheese, Wood, &c.**

It is the taxpaying merchants that employ clerks, carpenters, painters, buys lumber, builds buildings, and improves the county generally.

It is the taxpaying merchants names you see at the head of every subscription list for charitable, benevolent or patriotic purposes for public improvements.

Are they entitled to your patronage? We think they are.

What applies to our clothing, applies as well to our whole stock. Come and see for yourselves.
