

SPECIAL NOTICE.

Owing to the busy haying season we have postponed our Auction Sale until Saturday, July 27th, and from then on will continue on the following days and hours:

SATURDAY, July 27th, from 10 a.m. to 10 p.m.
MONDAY, July 29th, from 1 p.m. to 10 p.m.
WEDNESDAY, July 31, from 1 p.m. to 10 p.m.
FRIDAY, August 2, from 1 p.m. to 10 p.m.
SATURDAY, August 3, from 1 p.m. to 10 p.m.

TERMS STRICTLY CASH.

SALE consisting of the following CHOICE GOODS:

DRY GOODS, CLOTHING, SHOES, HATS, MILLINERY, LADIES' CAPES, JACKETS, LADIES' TAILOR MADE SUITS, MUSLIN UNDERWEAR, MACKINTOSHES, FUR COLLARETTES, CORSETS, KID GLOVES, PETTICOATS, SHIRT WAISTS, PARASOLS, UMBRELLAS AND READY MADE DRESS SKIRTS.
 This will be a chance to secure goods at your own price. Regular daily sales as usual from 40 to 50 per cent below cost, as the STOCK must be CLOSED OUT and the building vacated within the next 25 days. COME EARLY AND SECURE FIRST CHOICE.

R. JACOBSON & Co.,

Remember the place, BEALS BRO.'S BUILDING, next to the Post Office, TILLAMOOK, ORE.

Suffering in Kansas.

TOPEKA, Kan., July 13.—The suffering in Kansas from the prolonged drought is now more intense than ever. The skies are leaden and the sun's heat is intense. No immediate relief is expected. It is the opinion of some who experienced the drought of 1860 that the present dry period promises to be even more severe. It is hardly expected that there will be any lasting relief before Fall. People do not now expend so much time in worrying about the loss of the crops and the hard times which must of a necessity come. They are devoting all their energies to the exigencies of the present. With water works systems giving out, ice famines threatened, and farm products of all kinds obtaining large prices, the situation is becoming a serious one for Kansas.

The Fire Departments in Topeka, Atchison, Emporia, Lawrence and other of the larger cities have addressed appeals to the people, asking them to shut off all their hydrants whenever the fire whistle is blown, so as to give the proper amount of pressure on the water mains leading to the fires. There is not a city in the state which is to-night able to cope with a fire. Buildings have reached such an intense degree of dryness that a fire will start on the slightest provocation, and, once started in some parts of the cities, enormous losses would be sure to ensue.

Much sickness is resulting from the scarcity of good water. Boiling the water even will not remove the disease germs with which it is infected, so very low is the supply. Reports from the country districts tell that all the country streams are getting low. Mills and electric plants that were run by water power have been forced to close.

Most of the ponds have been dry for two weeks, and the question where to obtain water for stock is one of the most important propositions that has confronted the Kansas farmer for years. As a result, stock is being placed on sale at ridiculously low prices. Some have said that they would even give their stock away if some relief did not come soon, as to purchase feed for the animals would be investing more money than they are worth.

Reports from 24 Kansas counties to-night, mostly in the eastern and central parts of the state, indicate that the corn crop is not so bad off as has hitherto been published. The late product has not yet begun to tassel, and it is the general verdict that it is standing the heat remarkably well. It can be safely said that if favorable weather conditions would come at once, half a crop of corn would be obtained. But the conditions now are anything but propitious for better weather.

The livestock situation is very bad. Dairymen have been obliged to double the price of milk, so high have the prices of feed become.

Good Rain in Kansas.

KANSAS CITY, July 16.—Rain fell over an area of 80 miles around Kansas City early this morning and reports from different parts of the Southwest indicate thunder storms and lower temperature during the day or tonight.

At Lawrence, this morning enough rain fell to lay the dust, but not enough to do any practical good. At Ottawa and Wellsville, in the next county west from Lawrence, about half an inch of rain fell.

At Wellsville, there has been no rain for more than three months and some fields are too far gone to be revived.

Over an inch of rain is reported at Topeka, Kan., two counties further west. There was a fairly good shower in Kansas City early this morning, but at 11 o'clock the sky was cloudless and the weather bureau reported a temperature of 93. A good rain fell at Camden Point, Mo., three counties east of Kansas City, and it will result in much good to corn, which in that vicinity is still a dark green.

Miami County, Kan., two counties south from Kansas City experienced a good rain last night, the first since April 13. It came too late to benefit early crops.

Prospect is Now Hopeful.

CAPE TOWN, July 16.—Sir John Gordon Sprigg, in the course of his address before the Vigilance Committee, expressed the opinion that the aspect of affairs is more hopeful than at any time

since the outbreak of hostilities. Communications are passing between General Lord Kitchener and the Cape Government regarding the best way to be taken in view of bringing the war to a speedy close. Mr. Sprigg is satisfied that such an arrangement will be reached between General Kitchener and the Cape Government, and that a very considerable improvement may be looked forward to in a short time. He believes the Cape Parliament will meet before the end of October and was confident the government will have sufficient majority to carry any necessary measures. He said a customs conference including all the states and colonies of South Africa, probably will be called toward the close of the year.

Mr. Sprigg said he is entirely satisfied that as long as Lord Salisbury remains in power there will be no shadow of anything in the nature of going back. He deprecates the suspension of responsible government as it may possibly cause changes in the position of the British political parties.

The Cape Government entirely sympathizes with the announced policy of the Imperial Government, he said. The Cape Cabinet has been rendering all possible support to the Imperial Government and intends to continue its support with full assurance that the imperial authorities will not vary their policy, which he understands is to wipe out the last vestige of republicanism in South Africa. England, Mr. Sprigg added, has consulted the Cape Cabinet in regard to South Africa's future. The Cabinet strongly holds the opinion, which is shared by the Imperial Government that first there must be period of military rule followed by a crown colony government for the new colonies. The Cape Government recommended a large scheme of immigration. Federation must not be hurried.

He Did Not Win It.

PARIS, July 13.—M. Santos-Dumont, the Brazilian aeronaut made the official trial of his balloon in the attempt to win the prize of 100,000 francs offered by Henry Deutsch for a manageable balloon before a committee of the Aero Club today. Starting from the Parc de Mudon, he reached the Eiffel tower in a quarter of an hour, and, after sailing around the tower, started to return to the Parc de Mudon, but lack of motive power resented a descent at Boulogne-Sur-Seine. The trials will be resumed later.

The condition of the winning of the Deutsch prize is that the trip from St. Cloud to the Eiffel tower and back must be made in half an hour. Santos Dumont started at 7:40 A. M. He reached the Eiffel tower in 15 minutes, turned around it, and had begun his return trip when the motor failed and the aeronaut ripped the silk of the balloon, fearing disaster unless he could quickly reach the ground. The balloon pitched forward head foremost into a clump of trees on the Rothschild estate, near Boulogne, where it was caught and suspended in the branches on the opposite side of the Seine from the starting-point. Santos Dumont was not hurt.

A number of spectators had congregated on the platform of the Eiffel tower to watch the trial. They cheered the balloonist as he rounded the tower. The wind, which was lacking during the first part of the trip, sprang up after Santos Dumont started on the return journey, and probably is responsible for the collapse of his machinery, as the balloon was seen to turn partly over on its side. It is calculated that, but for the accident, the trip from the Parc de Mudon around the tower and back would have been accomplished in 50 minutes. M. Dumont will make another attempt in a few days.

Shot the Rapids.

NIAGARA FALLS, N. Y., July 14.—Carlisle Graham this afternoon made his fifth successful voyage through the Whirlpool rapids in a barrel. The start was made from the Maid of the Mist, landing below the falls. The barrel was caught in an eddy and circled about a little above the cantilever bridge for a quarter of an hour. The stronger current in the middle of the stream finally jerked it out of the eddy into the foaming waters of the rapids. Passing under the second bridge the barrel had a nar-

row escape from being dashed to pieces against the stone abutments of the bridge. The passage through the rapids was swift. It took the barrel five minutes to reach the eddy from the starting point and 20 minutes to get out of it, but it took only three and a half minutes to pass through the rapids and the whirlpool, a distance of about a mile. Graham was slightly bruised about the elbows and knees, but he was otherwise unharmed.

Cutworm Again in Active Evidence.

TACOMA, July 13.—The variegated cutworm (peridrome saucia) which made sad havoc last summer practically all of the region west of the Cascade Mountains, has again made its appearance. The vanguard of the cutworm army was first noticed a few days ago in the Puyallup Valley, and the worms are increasing with great rapidity. It was about this time last year when the cutworms first made their appearance. They were in such numbers as to devastate thousands of dollars' worth of gardening and crops.

C. A. Tonneson, a prominent Washington agriculturist, and others, who have made a study of the methods of the cutworms, and their raiding proclivities, do not believe they will appear in numbers to do any great amount of damage this year. It is thought that the pupae of the worms have been afflicted with a parasite during the past winter, which has swept entire colonies out of existence. The metamorphosis of the worm is accomplished by its burrowing into the earth, after it has run its race. There it goes into the pupa state and somewhat resembles the chrysalis of a butterfly, and in its apparently safe subterranean retreat spends the winter. There is a minute insect, however, which often hunts up and deposits an egg in the pupa, and this upon hatching out, feeds upon the pupa nest in which it is hatched.

These parasites are among the best friends the farmer has and Mr. Thomsen and others are inclined to believe that they have been doing an immense amount of business during the past winter, considering the enormous amount of worms that went into the pupa state. In the Puyallup Valley and other portions of Western Washington the number of the worms was incredible, and after they had cleaned up gardening and farm produce, they turned their attention to the trees of the forest, wild vegetation and undergrowth. Orchards were not exempt, the worms climbing the trees and voraciously attacking the foliage.

Bank Burglars Hold Ohio Village at Bay.

COLUMBUS, O., July 16.—A gang of six or seven robbers wrecked the Ressler & Ashbrooke Bank at Alexandria, in Licking County, about 1 o'clock this morning. The strong box resisting their efforts and they overlooked a package of \$1500 in our vault, which they blew almost to pieces. Four charges of dynamite were exploded to open the vault.

The noise aroused citizens, who surrounded the building, but the robbers remained in the bank for an hour, making repeated attempts to force the strong box, meanwhile keeping up an exchange of shots with the villagers. Finally the bandits fled in two rigs which had been previously stolen.

There was only \$800 in the strong box, the package of \$1500 having been received too late to be placed therein last evening. The loss is recovered by insurance.

\$300,000 in Klondike Gold.

SEATTLE, Wash., July 13.—The steamship Humboldt, Captain Bonifield arrived this morning from Skagway with 40 passengers and \$300,000 in Klondike gold. The treasure was distributed between a dozen passengers from Dawson, and varied in sums from \$1000 to \$62,000. These people left the interior subsequent to July 4, and bring news that three of the river steamers are partly wrecked on the river between Dawson and White Horse. The Humboldt left Skagway July 9.

A strange feature concerning the personnel of the Humboldt's Dawson passengers is the fact that four women possess about one-third of the treasure which came out on the steamer. They are Mrs. Frank

Baker and her daughter, Miss Baker, Mrs. Sam Williamson and Mrs. Andrew Nass. The Bakers, mother and daughter, possess \$62,000, Mrs. Nass \$28,000, and Mrs. Williamson has one of the finest collections of nuggets that ever came from Klondike. Among the other passengers who brought gold are J. McBride and J. Coyle, \$20,000; D. W. Jones, \$48,000; Ladue Mining Company, \$50,000, and there was a consignment to the Canadian Bank of Commerce, amount unknown.

Purser Shoup reports that considerable gold has been started down the river from Dawson and will come out via St. Michael and the ocean route. Several large consignments left Dawson after July 1, but the exact amount is not known. It will be brought down on the Roanoke and several of the other ocean steamers from Nome.

NEHALEM.

The Elmore came in on Saturday, and took out a load of salmon.

The tug Vosburg returned from Astoria on Saturday.

The Mill Company is having land cleared off for residences.

C. A. Himple, of Clatskanie, is on the river, having improvements made upon his farm.

Foard & Stokes, of Astoria, were with us last week fishing and otherwise enjoying themselves.

Mrs. Geo. Dean, one of Nehalem's pioneers, is visiting with her daughter and other friends.

In answer to a query in last week's Headlight, Bill Chisholm says the sheriff was bound for the Celestial Kingdom to collect poll taxes from the Chinamen.

The Germans have a young preacher here now. There are a great number of girls in the German families and their last preacher captured one, or was captured himself.

BEAVER.

Elder C. C. Bell, of Philomath, Oregon, accompanied by his wife and daughter, also a Miss McDonald on Friday night last stopped with J. R. Finley, on Saturday, went on to Tillamook City, where on Sunday the elder held his first quarterly meeting.

Judge Sappington with a few men who are helping, will, in a few days have the bridge over Beaver creek.

Beaverites think a word of praise to the Indians of Grand Round, as well as Mr. Shortage, who combined have done such permanent work along the needed places between Hebo and Grand Round store. Just think of it, Mr. Shortage on his part has now placed substantial bridges over all the streams, and where the hill was steep has made such changes that a person passing over the road would not know that they were going over the coast range of mountains.

The Free Methodist seem to be well satisfied with their new minister.

Judge Cander passed our burg in route to the hub on Friday last.

Beaver has a good crop of hay as usual and we are in the midst of harvesting.

BLAINE.

Summer at last has come and Blaine farmers are cutting their hay.

Mr. Monroe Switzer and Miss Fannie Lynch, of McMinville, were visiting friends and relatives last week.

Mr. Harry Patterson had a severe attack of inflammatory rheumatism in his arms last week from milking, he says, but by the way he smiles we are inclined to doubt it.

Mr. Chas. Sears and wife were pleasant callers on Mrs. Sturgeon last Sunday.

We are glad to hear that Mrs. Roy Coulson is able to be out again.

Mr. John Moon while out in the mountains last week hunting for cattle, happened to run across two wild pups which he has at his place.

Mr. Lloyd Henderson and family returned from Sheridan on Monday.

Mr. Dave Coulson, of Beaver, was a caller on Mr. Rowland last Sunday.

Mr. Ab. Grist has sold his old horse, so we see him on foot up and down the road.

COULSONBURG.

Haying is in full blast at the present writing.

Quite a crowd attended the Woolf creek meeting on the 7th, Rev. Dollarhide preaching his farewell sermon.

J. R. Dillow, of California, was shaking hands with friends here last week.

P. R. Coulson and family, of Blaine, visited with his parents the fore part of the week.

Miss Minta Swabb is home from Philomath College.

The Sabbath school hour has been changed at the Woolf Creek school-house to eleven o'clock. Let everybody turn out.

Mr. A. Powland and wife, Jake Nicolas, Miss Lou Bays and Fannie Lynch were callers at N. Coulson's last Saturday.

N. Coulson and wife had a close call while returning from the Fourth at Beaver, just as they were starting to cross Woolf Creek the horse became unmanageable, throwing itself and upsetting the buggy over the bank into the creek, the buggy falling on Mrs. Coulson. It was thought for awhile that a serious accident had happened, but fortunately no bones were broken, and N. Coulson has concluded to sell his blooded mare, as she is not safe for old people to drive.

Rev. Dollarhide, wife and daughter left for Salem last Monday. Our best wishes go with them in their new field of labor.

BOULDER CREEK.

Every one is busy making hay while the sun shines.

Mrs. Perry Huston was visiting her daughter, Mrs. Lay Ford, last week.

A party of health seekers are camped beside Boulder creek, near its mouth.

Miss Lou, daughter of C. A. Smith, has come in from the valley, to spend the summer with her father.

Miss Fannie Lynch, formerly of this place, but now residing in the valley, has been visiting her numerous friends here for a few days.

H. A. Chopard killed the fatted calf last week in honor of the return of his wife, who has been away for the past three weeks, visiting friends and relatives at Hebo, Beaver and Ocean Park.

Little Ora Brady has been quite ill for a few days, but was some better at last accounts.

Mrs. Hatty Ford and little daughter, spent Sunday with Mr. and Mrs. H. A. Chopard.

Misses Lulu Bays and Fannie Lynch spent Sunday at C. A. Smith's.

When we read of the terrible heat in the East we feel like congratulating our selves on the fact of being Tillamookers, don't we?

THE RED SHOE STORE.

Just received a neat and well selected Stock of foot ware of summer goods. For Gentlemen, Ladies', Misses and Children Shoes direct from Chicago. It will pay you to examine my GOODS and PRICES before purchasing elsewhere.

NOTICE—No charge for sewing rips or nailing soles of shoes that get loose bought of me.

P. F. BROWNE,
Salesman.

H. Crenshaw,
DEALER IN
Harness,
Saddles,
Whips,
Robes, etc.

The most complete line and the lowest prices in the county.
Repairing a Specialty.

THE BEST HOME NEWSPAPERS.

The HEADLIGHT and the OREGONIAN.

One Year for \$2.25.

The Headlight is the Best Newspaper in the County.

Also the Best Advertising Medium.
