

### GLENORA.

Miss Edna Ross is teaching our school. Arthur Recher has a bad case of swelled head, viz., the mumps.

J. F. Recher's have a bran new baby girl, born October 7th.

Salmon and trout are plentiful in the river.

Grace Recher has gone to Forest Grove to attend the academy there.

Captain Hallett and friends, of Forest Grove, who have been fishing at Harris', went home Tuesday.

### NEHALEM.

The Harrison came in on Tuesday. She will take out shooks from Kreb's mill.

Steve Scovell returned from Astoria last Wednesday where he had been to attend the funeral of Robt. Krebs as a representative of Nehalem Camp W. of W. to which Mr. Krebs belonged, and in which order he carried a policy for \$3,000.

Mrs. R. Krebs went to Tillamook on Monday to be sworn in as administratrix of the estate of her late husband.

The young people had a house-warming dance in Fred's new domicile on Saturday night.

Herman Schollmeyer's eleven year old boy accidentally shot himself in the leg with a 22 calibre rifle on Friday. The bullet struck the side of the knee, and ranging upward came out from the upper part of the thigh. He appears to be getting along nicely.

Most of the fishermen have gone to fishing, being unable to get the price they asked for.

### SOUTH PRAIRIE.

Lyman and Ernest Lamb are convalescing from the typhoid fever.

Stanley Lamb has returned to the State University at Eugene.

Supervisor Sheets has done some excellent work on our roads this fall.

The burning of Chas. Wells' barn yet remains a mystery. Evidently some one had slept there that night who smoked too freely.

Miss Hattie Marolf is attending the public school at Tillamook this year.

What are you going to do, Mr. Editor, for a Thanksgiving turkey this year? They seem to be unusually scarce in these parts.

[We are sorry, but the Editor, when in a fix, always resorts to the next best thing, and in this instance, it is to take turkey dinner on Thanksgiving day with our esteemed South Prairie correspondent, and if he has no objections, the editor will invite all his friends to participate as well, and then, sure, turkeys will be scarce at South Prairie.—Ed.]

John Marolf has perfected and patented an invention that bids fair to become a blessing to navigators, as well as a fortune to himself. It is simply an extra rudder, hung with the main rudder, but fastened to one side of it, in the hull or in a niche prepared for that purpose in the stem of the ship, in case of accident to main rudder. This extra one is to be immediately opened and swung in its place. It certainly seems to supply a long felt want in the distressing case of a lost rudder in a storm at sea. A look at the design causes one to wonder why this was not invented before.

### Out of the Ordinary.

There has been quite a spread recently of magazine stories telling what animal trainers and menagerie men do or would do in emergencies. The shortest and best anecdote has for its chief figure George

Singer, the well known English circus man. On being asked what steps he would take should a certain wild beast break out of his cage, Mr. Singer replied: "Blamed long ones."

In the recent British naval maneuvers Admiral Lord Charles Beresford introduced a complete innovation. In the event of a war at sea there is the contingency of the commander-in-chief and his second in command being killed. Without spare admirals no one would be left with experience in maneuvering a whole fleet. Lord Charles, during a whole week, caused the fleet under his command to be maneuvered by the various captains, with the result that valuable experience was gained all around.

Among the interesting things on view with the collection of books by negro authors at Buffalo is an autograph of Webster, dated March 19, 1847: "I have paid \$120 for the freedom of Paul Jennings. He agrees to work out the same at \$8 a month, to be found with board, clothes and washing, to begin when we return south. His freedom papers I give him. They are recorded in this district." This Jennings was the son of one of President Madison's slaves, his father being an Englishman of family. He became a body servant of Madison, and afterward wrote "A Colored Man's Reminiscences of President Madison."

An optician is thus quoted in the Philadelphia Record: Nine-tenths of the railroad men, pilots and men in whose business keenness and correctness of vision are a necessary adjunct possess blue eyes. Haven't you ever noticed the penetrating quality a glance from an azure tinted eye seems to have? The cold, steady look from such an eye appears to read you through and through. In a great many years of practice I've discovered that very few blue-eyed people are compelled to wear glasses. Blue eyes are very attractive, but brown eyes are the most beautiful. Intellectuality is usually denoted by gray eyes, and hazel eyes indicate a talent for music. The commonest eye is the gray eye, and the rarest is violet.

### Electrocution of Czolgosz.

AUBURN, N. Y., Oct. 14.—Cornelius V. Collins, Superintendent of the Auburn State Prison, will send a request to Secretary of State Hay to designate an official representative of the Government to be present at the electrocution of Czolgosz, the murderer of President McKinley. Only 26 witnesses will be present in the chamber of death when the sentence is executed. It was stated at the department of prisons today that reports that Czolgosz is in a continuous state of collapse, and that he breaks down and weeps every time anything is said to him concerning the electrocution, are false. Superintendent Collins had a talk with the condemned man some days ago. Czolgosz expressed no fear as to the electrocution, but said he would not care to go outside of the prison, for he believed the people would kill him. Since his confinement in Auburn several thousand letters have been received for him at the prison, as well as a large number of express packages containing flowers and fruit. The letters flowers and fruit have never reached the condemned man. The flowers and fruit it is learned, have been sent by Christian Scientists, as have a number of letters consoling him in his last moments. Other letters have come from cranks who have written about the species of torture to which they would put him if they had the execution of justice in his case.

\$1.25 pays for the Headlight to January 1st, 1903.

COME AND SEE THE  
**New JEWELRY STORE.**

I have opened up a New, Up-to-Date Stock of  
WATCHES, CLOCKS and JEWELRY next to the  
Post Office.  
C. F. FRANKLIN.
