OLSEN & CO., The Tillamook House Furnishers.

Notice to the Public.

Ex-County Judge W. W. Conder and Jeff Wallace will supply me with dressed beef for twelve months, they having entered into a contract to that effect and to furnish the primest of beef. They are now feeding 35 head of steers, which are in splendid condition for beef. They will also furnish me with dressed mutton and veal, the best that can be procured.

As certain parties are trying to hurt me in business by setting about false reports, I make this statement to satisfy my numerous customers that I am getting the best of meats from reliable men.

As some people gave me only a few weeks to remain in business, I am still here and doing a thriving business in our live little town and amongst some live business men.

Letter from Sitka.

[EDITOR OF THE TILLAMOOK HEADLIGHT.]

DEAR SIR,—Being requested by several to write a letter to the Headlight concerning my trip to Sitka, I will do so with the best of my ability. On arriving here, from Juneau, Alaska, some two months ago, everything was in the height of beauty. We were about 55 hours on the way, usually taking from 24 to 30, but the Queen, being a tourist boat, stops at all wayside places and in that way we got to see most, or the greater part of S. E. Alaska. Our stay at Skagway was about 12 hours so of course all hands "took in the town," so to speak. From there our next stopping place was Killisnoo, a very old place consisting mostly of natives, but having a large fishery there, principally for herring, abstracting the oil and shipping it away in large barrels, and the fish, what remains of it, is converted into gannet for fertilizing the soils. I ate some of the nicest raspberries and strawberries there I ever ate in my life, being invited to partake of some, which we readily did.

From there we proceeded to a place called Rodman Bay, a mining camp, but that being away back in the mountains we hadn't time to go there. They were building a small railroad there for some future use as the mines were paying well. Our next place was our destination, Sitka, and a more beautiful spot cannot be found on earth. It was formerly a Russian town, founded by one Baronoff in the early 40's, but now, of course, is intermixed by all nationalities. The island is called "Baronoff" after the founder and there is also an old log hotel here by that name. There are several old buildings here of origin, viz: The Tea house; The block house; The Greek church, built in 48, and several old mission buildings. Gov. Brudev, of Alaska, and Dr. Sheldon Jackson were among the early missionaries and still reside here. I had the pleasure of hearing both gentlemen speak. They were both engaged in the early wars with the Indians, but they faithfully labored on and now most all the natives are of the Christian faith. Sitka is situated on the shores of the ocean, but the sea swell is broken off by some 50 small islands, covered with green foliage, which makes it very picturesque. The groves with their many winding paths are perfect in beauty, especially those leading to Indian river, which place seems to be quite a resort for pleasure seekers. Hot springs is another place of interest, where many go for the purpose of bathing in not artificially heated water, and, strange to say, this spring comes from a mountain which is perpetually covered with snow, yet it is so hot when it reaches the bath house that it has to be made half and half.

There are also several quite high mountains here. The Seven Sisters, Mt. Edgecon, once a volcano, and Mt. Cross. This mountain has perpetual snow and is so formed as to have the snow form a cross. Hence the name.

There are also some soldiers stationed here.

There is now a controversy about removing the capital to Juneau as this is so far out of the way of the general run of boats, mail arriving here on an average of twice a month.

I forgot to add that on the way up here from Juneau we saw several large and beautiful glaciers, among which was the noted Murier Glacier.

The Government has just erected a large observatory here and are now engaged in building some very large coal bunkers.

Just as I am writing I hear the wistle of a boat, so "hurry" for some mail. With regards to my Tillamook friends, I am, yours respectfully,

MRS. EMMETT BATES,
Sitka, Alaska.

Oct. 21, 1901.

BLAINE.

Hello, here we are again, after an absence of two months. We have all been out to the valley picking hops and prunes. Some got good prunes and some got bad ones.

Mr. Fisher, recently from Idaho, starts for Salem this week.

Jene Rowland informs us that while out hunting for cattle Sunday evening, he accidentally ran upon a young bear in a dying state, and a stranger lying near by seemingly in great distress, as his groans could be heard some distance.

Ab. Grist has taken a contract of Perli Coulson to build a woodshed.

We understand that Mr. Cady, since returning from the valley, has been buying beef cattle of Mr. Lucas, which he contemplates killing for the local market.

Tott Patterson is finishing up a fine pastel painting for Mr. James Martini.

Notice to Shippers.

All freight carried by the Pacific Navigation Company's steamers is payable at the Company's office on Lamb's wharf in Tillamook City as soon as checked and ready for delivery.

All local and back charges must be paid before freight leaves the wharf.

PACIFIC NAVIGATION COMPANY,
B. C. LAMB, Agent.

SAND LAKE.

Marvin and Emmitt Webb have got nicely located in their new houses.

Mr. Waymire and wife, of Woods, were on the lake visiting with his relatives this week.

M. Sommer and W. C. Wolfe are at home from fishing. They report good success.

The cranberry crop was light this year, but the crop was all gathered and sold at good prices. Four hundred bushel was about the yield all told.

Huckleberry pickers are numerous of late.

The improvement on our roads gives people a chance to get in here.

T. J. Harris and family have got back home again. Mr. Harris has made some money mining while he was gone.

T. Owens has bought and filed on the old McGehee place and will move on it in the spring.

Young people are getting quite plenty on the lake once more.

T. B. Turney is doing some ditching for W. C. King.

Norman Olsen is the guest of T. J. Harris.

The cheese factories of H. M. Farmer, W. C. King and Wm. Ruenicas have closed down for the winter.

L. A. Hoyt has bought a band of goats.

W. C. King is on the sick list.

H. Farmer, of Bay City, is the guest of W. C. King. He is enjoying a hunt on the lake.

Hot Fire Under Ground.

STEVENSON, Wash., Nov. 4.—The residents of this place were thrown into great excitement this morning when J. T. Tatton and W. Udill reported that they had discovered a coal deposit on fire within a quarter of a mile of the town. The greater part of the population turned out to see what was the matter. A subterranean fire is burning in a crevice in the rocks with a sulphurous smell. So hot is the fire that it was difficult to make any headway at excavation. It is a wonder to the people here and is thought to be coal or gas on fire. In the near vicinity of the fire are small veins of coal running back from the Columbia River. Some years ago a coal prospector sunk a shaft some 50 feet, but abandoned it. Recently coal prospectors were operating in the neighborhood and declared there were excellent indications of coal and gas. They bonded much of the property in the immediate neighborhood.

Nicaragua has given notice of the termination of the treaty of 1867, granting the United States authority to build a canal across that country, also the treaty of 1870.

The crew of the Colombian gunboat Darien has mutinied and the vessel is now in the hands of the insurgents. The Darien has been operating on the Panama side of the isthmus. She is one of the recent acquisitions to the Colombian Navy and is of small size.

A plot to massacre the American garrison at Moncada, Province of Tarlac, Island of Luzon, has been revealed by the wife of one of the conspirators. Several town officials are implicated. The woman who revealed the plot hid a detective beneath a house in which the leaders of the conspiracy were meeting. Arrests followed and many incriminating papers were seized.

STOPS PAIN

Athena, Tenn., Jan. 27, 1901.
Ever since the first appearance of my menses they were very irregular and I suffered with great pain in my hips, back, stomach and legs, with terrible bearing down pains in the abdomen. During the past month I have been taking Wine of Cardui and Thedford's Black-Draught, and I passed the monthly period without pain for the first time in years.

What is life worth to a woman suffering like Nannie Davis suffered? Yet there are women in thousands of homes to-day who are bearing those terrible menstrual pains in silence. If you are one of these we want to say that this same

WINE OF CARDUI
will bring you permanent relief. Consult yourself with the knowledge that 1,000,000 women have been completely cured by Wine of Cardui. These women suffered from leucorrhoea, irregular menses, headache, backache, and bearing down pains. Wine of Cardui will stop all these aches and pains for you. Purchase a \$1.00 bottle of Wine of Cardui to-day and take it in the privacy of your home.

For advice and literature, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

Salmon Cannery Consolidation.

ASTORIA, Or., Nov. 4.—Articles of incorporation of the Sanborn-Cutting Company were filed in the County Clerk's office here to-day. The incorporators are: George W. Sanborn, R. F. Wilson and G. C. Fulton, and the capital stock is \$300,000, divided into 300 shares of \$1,000 each. The principal office of the company is to be at Astoria and the object of the company is to engage in catching and packing fish on the Columbia River and Puget Sound, and in Alaska or British Columbia.

In speaking of the organization of the company, Mr. Sanborn said it is the consolidation of his cannery and that of the Cutting Packing Company. A new cannery equal in capacity to any on the river will be erected on the water front now owned by the latter company. The new cannery will be ready for use by the opening of the next fishing season. A meeting will be held in a few days to complete organization. Mr. Sanborn will be elected president and general manager, and Mr. Francis Cutting, of San Francisco, vice-president. As to whether the company will engage in the cold-storage business or conduct canneries in Alaska, Mr. Sanborn said that nothing had yet been decided upon.

Captain J. C. Voss and A. K. Luxton, the adventurous Canadians, who sailed from Vancouver early in July in an Indian dugout canoe for a voyage around the world in her, arrived at Apia safe and sound October 10, having traveled in that time a distance of 6400 miles. After leaving Vancouver, B. C., they sailed for 56 days without seeing land or sail of any description, and on August 31 they landed at Penrhyn Island. From there they cruised to Apia, arriving Oct. 10. The venturesome travelers remained but a few hours in Apia—only long enough to secure a supply of water and provisions—and then set sail for Sydney by way of Fiji. Both men were in good health, and expressed themselves as satisfied that they would be able to complete their undertaking.

Labor's scheme for an organization to fight the injunctions of Judges and courts against strikers has been realized by the founding of the Chicago Anti-Injunction League, at a special meeting of the officials of the Chicago Federation of Labor. Provision for starting a vast sinking fund to wage legal battle in court against the imprisonment of any strikers or pickets under the injunction processes is a notable feature of the new body.

Card of Thanks.

We wish to express our thanks to the many kind friends who showed their kindness and sympathized with us in our bereavement caused by the death of Captain S. Thompson.
