

IMPORTANT ORDINANCES

Faced by the Tillamook City Council--Engineer's Letter on Cost Water System.

A meeting of the city council was held on Monday evening, with Mayor J. L. Briggs presiding, and the councilmen present were W. H. Reynolds, Albert Mason, S. A. Brodhead, Geo. Grayson and F. L. Sappington. Bills against the city and allowed were:

Table with 2 columns: Item, Amount. Includes W. H. Eberman (\$7.50), Wade & Briggs (\$12.61), J. A. Taft Co. (\$29.51), Water Company (\$30.00), Recorder's salary (\$10.00), Marshal's salary (\$45.00), Dr. Wiley (\$1.50).

\$10.50 was deducted from the water company's bill to pay for gate valves, and the bill for \$19 for electric lights was referred back to the committee because the rate charged the city was higher than that charged private individuals. The Headlight was given the city printing at regular rates.

Mayor Briggs had received a letter from engineers in regard to an estimate of cost for constructing a water system for the city, which, after being read, was referred to the committee having the matter in hand. It was as follows:

DEAR SIR:--Your letter of the 28th January received to-day.

The dates you mention are all necessary and in addition would like to have your decision on the number of gallons per capita per diem you will require; also the number of fire streams you will require to be maintained at one and the same time.

That is, the data required would be: 1st.--The number of cubic feet per minute at the point where it is taken from creek.

2nd.--Cross section and plan of creek, nature of the creek bed and banks, for the purpose of figuring cost of head works.

3rd.--A profile and plan of the main line showing elevations, distances and nature of soil.

4th.--Plan of city showing the districts to be served by smaller mains at the present time and also approximately the district to be served by extensions on the basis of estimated population for the next ten years.

5th.--The present population of the city and an estimate of what it will be in next ten years.

With the above data given correctly it is usual to make an estimate of cost within 10 per cent of what it can be let for by contract.

We will, if furnished with the above data, make you a preliminary estimate of what it will cost you to put in a system, for \$100.00, and if the estimate cost meets with approval, we will furnish you with the necessary plans and specifications ready for letting contract for 5 per cent of contract price. This includes five trips to Tillamook to inspect work at start, during process of construction and at your acceptance.

In estimating a system it is usual to do so on the basis of about 100 gallons per capita per diem, and also to estimate on maintaining at least four fire streams at one and the same time within a radius of about 500 feet.

Yours very truly, HUBER & MAXWELL, Engineers.

The following important ordinances were passed, every councilman voting for them:

Ordinance No. 131.

An Ordinance to prohibit and punish the keeping of bawdy houses, and to punish the inmates thereof, and to repeal Ordinance No. 32.

SPRUCE.

Rev. John Sooner representing the German Reform Church presented Sunday at one, left an appointment for April 2nd.

Mrs. Peters is quite sick with severe pains in her side.

We are in need of a creamery or cheese factory in this vicinity.

If you want to see Mr. Hayes' lip hang down, just say calves.

SAND LAKE.

We doubt if there is another locality in Tillamook county where social harmony reigns supreme as it does in the settlement of Sandlake. There is none of that narrow minded back biting and prejudice found so prevalent elsewhere.

They all harmonize socially and in a business way. They visit, kiss and shake hands and get along just fine.

Mr. Editor, we would suggest that you and your contemporary move your printing establishments to Sandlake during the coming campaign, and bask in the sunshine of Sandlake society while we. We think it would have a tendency to temper those editorials and thereby harmonize the different factions through the county.

The Editor would like to harmonize the different factions in the republican party but when men like Sappington and his faction want to be the whole thing we feel that it is an impossibility to try, and the only salutation to the difficulty is the survival of the fittest.

And now it rains and the grass is growing.

A. J. Hembre, J. Atkinson and W. C. King made a trip to Woods Saturday.

The little child of M. Sommers which has been troubled with eczema so long is very much better.

NESKOWIN.

The schooner Anita came in the bay on the 24th, after a load of canned salmon, and went out on the 28th.

Captain Labell, of the Anita was seen in our vicinity last Sunday.

The weather began to moderate on the eve of the 29th, which was very welcome after such a cold snap.

Nora Redburg left for the valley on Saturday.

The grading is all finished on the charge in the county road to Slaw creek.

Quite a surprise party at C. Christensen's last week. Come again, boys, and bring the girls along next time.

John Whiteman has rented Charlie and Dan Fletcher's ranch. The two boys intend to go to Alaska some time during this month.

Mr. Goers and family have moved to their ranch recently purchased from Mr. Bowler.

Miss Lona Christensen visited at A. M. Common's a few days this week.

Mr. Morris took a load of fish to the valley recently.

Miss Myrtle Foster visited Mrs. C. Fletcher and Mrs. Gardner this week.

Miss Edna Wood was a visitor at Mrs. Common's last Thursday.

The mail carrier was accompanied by John Westenberg, an old resident of Slab Creek last Friday.

NEHALEM.

Mr. D. Vedder has returned home and the machinery for his shingle mill will be on the next boat.

A co-operative cheese-factory is the talk now, in place of the corporation concern projected.

John Gerritz went to the hub Monday to be sworn in as administrator of the estate of his father-in-law, the late Wm. Edwards.

Francis Cronin is now raftman for Duncan Chisholm's logging camp.

Your plan for raising funds for bridges Mr. Editor, is all right and equitable for residents are taxed for every dollar worth of improvements made, whereas the value of the non-resident property is enhanced. Two bridges are needed for the Nehalem; one at Roys and one at the forks of the river; but under the present administration Nehalem has had nothing in the line of roads, ferries or bridges and a change will be a God-send. Commissioner Parish is O.K., but powerless at present.

First Oil in Oregon.

Willis Dodge a special messenger, arrived in Baker City last week, says a dispatch, bringing with him a bottle of the first oil struck in the celebrated Malheur Basin. The oil came from the Newell well, now being sunk by the Newell Oil Company, of Nampa, a short distance from the town of Nampa. It was obtained at a depth of 110 feet. The oil analyzes 78 per cent paraffine.

Much excitement prevails at Nampa over the discovery. The Newell company will continue to bore, and expects to get a gusher in a short time. The Mountain Home people have organized, and will commence boring in the same neighborhood in a short time. Two miles from the Newell company's well another with a three inch bore has reached a depth of 450 feet, and has also struck oil. It gives off 25 barrels per day. Engineers say this is the upper end of the Malheur Basin. There is considerable excitement in Baker City over the announcement of these discoveries.

BRUTALITY OF THE POSSEE.

Detectives Showed No Mercy On The Fugitive Riddles.

BUTLER, Pa., Feb. 2.--The terrible fate of the Riddles is the most sympathetic terms that he did not shoot Detective Patrick Fitzgerald.

"The poor boys died like dogs, literally riddled with bullets, and some one should be held responsible for the inhuman action in shooting them when entirely helpless, unarmed and unable to make the slightest defense."

Rev. Samuel Cronin, of St. Mark's Evangelical Lutheran Church, in his sermon tonight criticized severely the woman, whom he held responsible for the whole affair. He said:

"The Biddles and Mrs. Soffel made a vain flight from justice, and retribution swiftly came on them. The blindness and infatuation of this woman in leaving her husband and helpless little child for a gang of desperadoes is the worst criminal act thus far in the history of the 20th century."

Mrs. Soffel is reported to be spitting blood tonight, and her condition is not considered favorable.

Much Scarcy at Nome.

SEATTLE, Feb. 3.--The first mails to arrive from Nome, St. Michael, Council City, Rampart and other points in Northwestern Alaska were brought down from the North on the steamship Dirigo, which arrived this morning. Mail came on the Dirigo from Nome as late as November 15, from Council City as late as November 7, from St. Michael as late as November 21, from Rampart as late as December 17, from Eagle as late as January 26, and from Dawson as late as January 13.

Nothing but first class mail was received from points below Dawson, as the mail contracts do not provide for the mailing of other than letter mail via that route. It is apparent from the time required for the carriers to make the trip that they must have had a very severe time of it. Two months and two days were required to make the trip from Nome to Dawson. The contract time for the carrying of the mail is 60 days for the trip, and it is probable that this time will be made without serious difficulty after the winter weather is settled and the trail is in better condition.

Scarcy is prevailing in and about Nome to an alarming degree. There were but few potatoes left in the district, and a great lack of all kinds of fresh vegetables was apparent. Many of the poor prospectors who were unable to get out in the fall are "hibernating" in their cabins, and it is among this class that the most pronounced cases of scarcy were found. The poor of Nome were proving a heavy tax on the charity of the camp. Destitution was general. The winter was mild, and an early break up was looked for. Travel over the country was greatly impeded by the mild weather. In many places the tundra had been too soft to bear up travelers and communication with outlying camps was cut off.

To Our Patrons and Friends.

After a careful review of our past year's business, we have concluded that it is no longer profitable for us to continue a credit system, and have concluded to sell for spot cash, small profits and quick sales will be our watchword. We kindly ask all who are indebted to us to come in and settle their accounts and greatly obliged.

McINTOSH & McNAIR.

While a crowd of Yakima Indians were driving a band of about 500 ponies from the Washington side of the Columbia River to The Dalles, which are to be shipped to the cannery at Linnton, near Portland, the ice broke and a large number of animals fell into the cold water of the river near its middle, which is very deep. Many sank to the bottom of the icy waters and were seen no more, some were rescued at once, while several remained in the terrible cold waters for almost an hour covered with water, all except their heads, before they were rescued. A large crowd of citizens watched the work of rescue from the river bank.

It has been demonstrated to everybody's satisfaction that the best admirals make the poorest politicians.

With his birthday celebrations, receptions and sleigh rides, Emperor William is keeping the royal dragons busy.
