

A Denial.

[TO THE EDITOR TILLAMOOK HEADLIGHT.] Sir,—Certain parties having spread the report that the socialist party of Tillamook county have withdrawn their nominations and are affiliating with the democratic party.

The undersigned feels himself called upon to deny any and all such statements and to brand them as mere fabrications formulated by designing persons for personal or party ends.

The Social Party is in the field to remain, and every member of said party will do his whole duty on the day of election in his unequalled support of the socialist party nominees, and will do all in his power toward the election of the entire socialist ticket.

The socialists have no preference for either of the old parties or their policies, and they will work and vote undeviatingly for the success of socialist principals until successful at the polls.

C. F. KELLER, Organizer, State Socialist Party of Oregon.

The Culture of the Heart.

[TO THE EDITOR TILLAMOOK HEADLIGHT.] Body, brain and heart are the chief constituents of a well developed man or woman.

The gymnasium is devoted to the culture of the body, when muscular strength is developed. The school is devoted to the culture of the brain when knowledge is attained to the highest degree. But what of the heart? Every word, act, and thought, of our lives, originates in the heart, whether for good or bad.

The culture of the heart is of far more importance than the body or brain and does not interfere with either. I am quite sure in saying that more than 95 per cent of the people in our prisons and asylums are the direct result of an uncultured heart.

A heart of stone, no feeling, no sympathy, no remorse. The child's heart is innocent, its acts, words and thoughts are simple. If left to itself it will grow up to weeds, but if the good seed is planted it will absorb the strength, and occupy the ground.

Compulsory training or schooling never amounts to much. It is the self disposed pupil that succeeds best. Yet every child looks to some one for a certain amount of advice and restraint.

A right heart is a source of joy and peace. Like begets like; if we are false hearted we will associate with those who are unreliable. No matter how strong or how much a man knows if he is faint hearted he cannot trust himself or any one else.

There was never a time in the world when the culture of the heart was as necessary as now. Imitation, adulteration and fraud have almost attained perfection. Body and brain have need of the heart, without it they are like the ship before the wind without ballast or the engine without a governor, it soon runs away with itself.

Why not have school to teach the right functions of the heart, kind words, gentle actions and pure thoughts. There are people who never use any thing but the contrary.

We cannot associate with others without partaking of their disposition. If they are kind and cheerful we are soon in the same mood, but if sullen and morose we are like wise. We may appear, but no man can be other than what he is at heart, which is the only true standard of man or womanhood.

NETARTS.

C. F. Hohart of Long Beach is stopping on the Bay and will probably spend the Summer here.

George Coffman and Mr. Baty came over from Tillamook river last Saturday and are putting in their gardens.

It is rumored that the Netarts saw mill has been leased and will begin operation in the soon.

Miss Mable Easter, of Tillamook, is visiting with friends for a few days.

Rev. Gabriel Sykes of Tillamook was at Netarts during this week.

Miss Martha Molesworth, of Wasco, Oregon, has been employed to teach the Netarts school, in district No. 7 the coming summer.

SOUTH PRAIRIE.

It seems pleasant to have sunshine and warm weather after the cold rains and frost of last week.

McIntosh & Co. have put a new vat in their factory here in South Prairie.

Miss Carry Wells is helping her aunt with her work while sick with the chicken-pox.

The quarantine has been lifted from Maroll's and Johnson's families.

Road supervisor Sheets has three teams hauling gravel on the road, which is greatly needed.

Last Sunday was an ideal summer day. Every family that could seemed to be out fishing or hunting for spring flowers or hunting for some one at home.

Charles Wells has bought the 4 acre tract of land belonging to Addie Harris, consideration \$220.

Late gardening is the order of the day.

Real Estate Transfers.

in I.O.O.F. cemetery. J. L. Briggs, et. ux., to Robert L. Waide, und. 1/2 interest in lot 4 of block 9, town of Lincoln.

Addison H. Harris, et. ux., to Charles S. Wells, 3 acres in sec. 7, tp. 2 S, R. 9 W.

BAYAN IS CAPTURED.

Moro Stronghold Now in the Hands of Americans.

WASHINGTON, May 4.—The War Department today received a cablegram from General Chaffee, indicating that the campaign against Sultan Bayan, one of the principal Moro chiefs, has been completely successful.

The result was accomplished by a gallant assault on the principal Moro fort and its capture, after a number of the leading Moros had been killed. The cablegram, which was received this afternoon, was as follows:

"Adjutant-General, Washington.—Following is the full substance of Brigadier-General George W. Davis' message from Bayan:

"Eighty-four survivors Bayan surrendered unconditionally this morning at 7 o'clock. Sultan Bayan, Raja Munda Bayan, Sultan Kandapatan and all leading Dattos dead and many of their followers. Assault on the principal fort, which surrendered last night, one of the most gallant performances of American arms. Colonel Frank D. Baldwin and his regiment deserve all praise for hand-to-hand struggle in four lines of ditches under walls of fort. These trenches are lined with Moro dead from rifle fire.

They have never seen or heard of any performance excelling this gallant fight.

"It was my painful duty to report that the overthrow of Moro power was not accomplished without severe loss. One officer and seven enlisted men killed; four officers and 30 enlisted men wounded. Will telegraph list later.

"After 84 survivors marched out this morning as prisoners and was understood they were all, eight others, who had concealed themselves in rubbish inside the fort, made a break for liberty, but not succeeded. Some Moro wounded tried to stab soldiers trying to help them. It is impossible to state number of Moros killed, many lying in tall grass. The surrender saves us from siege and starving out. Impossible to have carried works without scaling ladders, which were ready. Intend to retain prisoners until two or three small adjacent forts occupied, then will consent to their release, holding as hostages eight or ten of the principals, and release the others.

"The force in line of advance consisted of four mountain guns, 470 rifles. This fully sufficient. Could not have used more men advantageously. Had we sent strong column it would only have swelled casualty list. One neighboring Datto has already represented himself as a friend, and I expect a general coming in shortly, when the weight of the blow is known. The dead sent to Malabang for burial.

"In light of present knowledge could have besieged the principal fort, and in time forced the surrender, but that would probably have resulted in a sortie for freedom, and escape for many. By attacking them they have been completely crushed—the only kind of lesson these wild Moros seems to be able to profit by. Shall invite Sultan Tarlac to pay me a friendly visit, if he does not tell us of his initiative. Has fort further east in plain sight, and of same strength as was Bayan, on beautiful table land, thousand acres, fine upland rice, and urging people to return to its cultivation.

"The result to follow this action very important, namely, it secures respect for United States authority in the center of Moro savagery.

MANILA, May 5.—Eighty-four Moro prisoners under guard made an attempt to escape to-day. At a preconcerted signal they got between the soldiers forming the guard and a company at dinner. The latter, realizing what had happened, fired on and pursued the Moros, killing 35 of them and capturing nine. The other fugitives escaped.

Tragedy at Los Angeles.

LOS ANGELES, May 4.—In a fierce battle with detectives late this afternoon, Dr. E. W. Aldrich, of Chicago, was killed and City Detective Hawley seriously wounded. The fight occurred at the office of Dr. Aldrich in the Hotel Savory, at Fourth and Broadway.

Captain of Detectives Bradish, City Detective Hawley, a Chicago officer, and a reporter went to Aldrich's office to serve requisition papers which the Governor had granted on the requisition papers which the Governor had granted on the request of the Governor of Illinois, for the return of Aldrich to Chicago, where he was wanted to answer to the charges of perjury and bigamy.

When the officers entered the room, Detective Hawley immediately began reading the document. Aldrich stood in the doorway of his private office, and as soon as he realized the purport of the paper, he turned and seized a pistol off his desk, but before he could level it at the officers he was seized by Bradish and Hawley.

In the scuffle Aldrich placed the revolver to Hawley's back and fired. The bullet entered below the shoulder blade and imbedded itself in the muscles.

Shaking off the officers, Aldrich rushed into his private office, locked the door, seized a rifle and began firing through the glass door. One of the bullets here, he missed the reporter, and others imbedded themselves in the door. Bradish fired through the door, the bullet striking Aldrich two inches below the navel, perforated the bowels. Realizing that he was cornered, Aldrich placed the muzzle of the rifle to his nostril and pulled the trigger. The bullet entered the brain. He died instantly. His self-inflicted wound left not a trace.

Not much is known of Aldrich in this city. He came here some time ago and opened sumptuously furnished offices in the Hotel Savory, where he apparently had conducted a successful business.

Spotted Fever Epidemic.

HELENA, Mont., May 4.—Dr. M. F. Longway, of Great Falls secretary of the State Board of Health, and a party of scientists, composed of Dr. Frank W. Trapagan, chemist and professor of natural sciences at the Agricultural College, Bozeman; Emil Storz, of Helena, an eminent bacteriologist, and Earl Starin, of Great Falls, left heretoday for the Bitter Root Valley, Mont., to inquire into the causes of the mysterious malady known as spotted fever, which is causing a panic in that region. Every case of the disease has been fatal, and up to the present time it has baffled all the physicians who have tried to investigate it. Several eminent New York scientists have been invited to assist in the investigation now commenced by the state.
