If you buy steel stoves of peddlers and the blamed things burn out after you pay a fancy price and used them but a few years, kick yourself for allowing the other fellow to steal from you, for that is the sequel to steel stoves and peddlers.

Mrs. Alice Townsend, of Dallas, the popular matron of the Eastern Star, came in on Sunday and visited the lodges in Tillamook and Bay City on Monday and Tuesday evenings, when a pleasant fraternal time was participated in.

Deputy Collector of Customs D. A. McLean has gone to Nehalem Bay and Tillamook on a semi-annual inspection trip. He is accompanied by C. A. Sharpster, of Walla Walla, who will visit with C. H. Wheeler, at Vosburg.—Astorian.

This is the time of year when the people in Tillamook take pity on those on "outside" who are sweltering in the heat and getting their crops destroyed. The splendid harvest weather and the cool refreshing atmosphere make Tillamook a peach of a place to live in.

Willis Powell met with a serious accident at South Prairie on Thursday night by being thrown down and tramped upon by a restive horse. He had two ribs and collar bone broken. Although badly injured, he is reported to be improving as well as can be expected.

Mr. F. E. Robinson and Mrs. J. S. Robinson, of Long Beach, Cal., have returned to this city from Nehalem, where they had gone in connection with the purchase of the Krebs mill, and will remain here several days. Mr. Robinson is looking over the county for the purpose of getting a saw mill.

Go to McIntosh & McNair's when you want farm implements, for they are the local agents for the Plano Manufacturing Company, carrying in stock the celebrated Jones' Mowers and Tedlars, recognized the best implements made in the United States; also agents for the Olds' Wagons, manufactured at Fort Wayne, Ind., which are made of the finest material that can be procured. You will save money by buying your farm implements at McIntosh & McNair's.

Mr. D. Mellema returned to Tillamook last week from Platt, South Dakota, where he had gone on a visit. He reports everything prosperous back there, boys bringing as high as \$7.90, which brings republican prosperity much in evidence. Six years ago the price of hogs was as low as \$2.50 per hundred, but that was the result of democratic policy with its hard times. Mr. Mellema experienced one cyclone while back there and found the heat oppressive, although there was frost up to the 20th of June.

Mr. J. W. Bailey, State Dairy and Food Commissioner for Oregon, left Portland on Monday evening for his annual tour through this county for the purpose of inspecting the dairies and cheese factories. He will come in by way of Sheridan and make the rounds with a team.

The annual meeting of the Tillamook County Teachers' Association will be held in this city next Monday, Tuesday and Wednesday. As we stated last week, the instructors are Prof. J. H. Ackerman, state superintendent of public instruction; Prof. David Torbet, professor of science and mathematics at Albany College; and Prof. L. H. Baker, principal of the South Salem school, and a number of other interesting institutes is expected from the program that has been arranged by County Superintendent G. B. Lamb. We are also glad to hear that Prof. Campbell, recently elected president of the state university at Eugene; Prof. L. R. Traver; Prof. Geo. W. Jones, ex-county superintendent of Marion county; and Mr. Chas. H. Jones, editor of the Oregon Teacher. Monthly, have signified their intention to be present and take part in the work of the institute, and it is more than probable that Prof. P. L. Campbell will divide the time with the state superintendent in giving a lecture on Tuesday evening, when Prof. Ackerman lectures on "The Educational Outlook." On Monday evening Prof. Tallot will lecture on "Brother Jonathan Needs You." The lectures will be preceded by a short musical program under the direction of Miss Ruth Cooper, which will be in the opera house.

The sale of the Krebs Mill has finally been consummated. Messrs. H. C. Banker and F. L. Gunn, both from Long Beach, Cal., have taken possession and will commence operating the plant at once. The location of the mill site is ideal, being placed at the forks of the north and south branches of the Nehalem River, on deep water. Any boat that can cross the Nehalem Bar can easily make this point. It is the plan of the new Company to enlarge this plant considerably for the purpose of shipping lumber in large quantities, at the same time however keeping the box factories running to its full capacity. There is an unlimited amount of low-land spruce close to the mill, which makes the first box lumber and which will keep the mill fully supplied for any length of time. Both Mr. Banker and Mr. Gunn are progressive gentlemen and will add greatly to the upbuilding of the Nehalem Valley, which has beyond doubt a flattering future. One of the strong points will be their independent line of boats to southern ports. This will open up a good trade with San Francisco and Los Angeles, and means much to the Nehalem farmer who thus far has been compelled to hire isolated from the advantages of first class transportation facilities. He can now send his cheese and other products direct to the cities at a low rate of freight. Everybody is pleased at the new move. It took considerable work to get every thing into shape, but by the untiring efforts of C. Ben Riesland, who promoted the deal, all difficulties were overcome, and the transfer was made to the perfect satisfaction of all parties concerned.

The following rules and regulations have been compiled by the committee to govern the ball games for a pennant:

Teams contesting for the pennant shall enter under the following conditions governing the contest:

1.—An eligible team must be duly signed by the manager thereof, or by some person acting in his stead, substitutes shall be signed in the same manner as the players on the regular team.

2.—Upon the entry of a competing nine, the committee will set a time when it shall play, not less than one week after their entrance.

3.—Each entry of a team shall be lodged in writing to the chairman, and shall specify the names of the players and substitutes, and be signed by the manager or captain of the team. This entry shall be open to the inspection of the manager or captain of the opposing team.

4.—Players.—The players must have been bona fide residents of Tillamook county for thirty days preceding the date on which the "list" is made in. If members of competing teams shall be amateurs in the strictest construction of the word "amateur." No player who has at any time played base ball or indulged in any other sport for hire, money, or money prizes, or for money wages (according to the rules of the Pacific Amateur Athletic Association) shall be eligible as a member of a team competing for the Pennant. Coaches of teams shall not play on a team in this contest. Coaches shall not be allowed to direct or control the play except through the captain of the team. The coach shall have no more privileges on the field during the progress of the game, than an ordinary spectator.

5.—Protests.—Any protest against the eligibility of a team or the individual players thereof, shall be made in writing, signed by the manager and captain of the team so protesting, and handed to the committee, thirty-six hours before the time set for the game. The committee shall pass upon the merits of all protests. The team winning three games of any series shall be the permanent holders of the Pennant. If more than two teams enter the Pennant Contest, the committee will arrange for fair competition. All decisions of the umpire, during the progress of the game shall be considered final by the committee. The committee shall choose the umpire for each and every game. The committee reserves the right to make any changes in regulations or allow the substitution of qualified players at any time of its discretion.

6.—Coming! The Edison Company.

Will be at Tillamook City, one Night, Wednesday, August 6th. The most perfect reproduction of actions and sound ever exhibited in this city.

MCKINLEY'S FUNERAL TRAIN.

Arriving at Canton station, Ohio. Complete funeral cortege entering West

The Glenora House, on the Wilson River, is half way across the mountains. Good fishing and hunting, free camp grounds, fried chicken, fresh butter, abundance of cream, strawberries and other fruit in their seasons, are on the menu at the Glenora House. Try it.

Mr. William Reid, secretary of that much talked of Portland, Nehalem & Tillamook Railroad Company, who had his leg broken in this county last May, is able to be about again in Portland, and as he appears confident the road will be built, probably we shall hear in the near future a great deal of the company which thus far has only developed "hot air."

Accidents at the base ball game Sunday were numerous as well as painful. George Johnson had his shoulder dislocated and Chester Holden's nose was knocked out of whack, besides a number of mix ups in which others saw shooting stars. Get an ambulance and a corps of doctors next time you play, gentlemen.

Mr. Philip Bardou, jr., of the Evening Telegram staff, is in with his family for a short vacation, being domiciled at Bay City. He is much pleased with Tillamook, and the prosperous condition of the county, and in making a comparison of other parts of the state and other cities, Tillamook, for its size, is the most business like place in Oregon.

Messrs. W. W. Curtis, J. E. Remick and C. Stinchfield, belonging to the company which has considerable timber interests in this county, came in on the Sue H. Elmore on Tuesday. Other passengers on the steamer were Mrs. Citing, Mr. Langstaff, F. Bivitch, A. L. George, A. Nolan and several men from Astoria to pack salmon for cold storage.

When you want farm implements, sewing machines, clothing or machinery, consult the business men who advertise in the Headlight, and then you will not be imposed upon by a lot of peddlers. Patronize the home merchant, the business men who are interested in the city and county. The peddler is a foreigner to the interest of the county, and all that he is after is to work a "grait" upon the unsuspecting.

The city park question should not be allowed to hang fire. It is something that every wide-awake city should have, and if the land formerly used for the race track could be bought for about \$100 an acre it would be a good investment. It may be that land in some other place could be obtained at about the same figure which would answer the purpose equally as well.

Mr. Norman Olson and Miss Nancy Harris were married on Saturday evening at the home of Mr. Harris, at Fulton, Oregon. The ceremony was performed in the presence of relatives and many friends by Rev. J. Kratt, of Portland. The house was beautifully decorated with ferns and flowers. At the conclusion of the ceremony, following the congratulations, a fine lunch was served.

The Columbia River Packers' Association sent in several men on the steamer Sue H. Elmore, which arrived on Tuesday, for the purpose of handling the salmon caught in Tillamook Bay. The fish, after being cleaned and iced, will be shipped to the association's cold storage plant at Astoria. Casks and ice will be shipped from Astoria. It is expected that the company will commence taking fish on Friday.

Mr. H. E. Lounsbury, traveling freight agent for the Southern Pacific, is making the tour with Mr. Bailey to transact some business for that company. They reached Tillamook City on Wednesday.

The Rev. D. A. Watters, Presiding Elder of the M. E. Church for the Salem district, will hold the fourth quarterly conference services of the Methodist church in this city as follows: Thursday evening he will deliver the address at the prayer service at 8 P.M. Next Sabbath, July 27, he will preach at 11 A.M. and at 8 P.M.; and at the Episcopal League services at 7 P.M. Special music will be rendered by the children's choir and the principal address will be given by Mr. Watters. The quarterly conference business meeting will be held on Saturday, July 26, at 1 P.M.

As there is a call for photographs for the purpose of advertising the Lewis and Clark Centennial, it would be a good idea for Tillamook county to have a number of pictures taken especially for that purpose. It would not only advertise the centennial, but will advertise the county. The local photographers should take this matter in hand, and a number of interesting institutes is expected from the program that has been arranged by County Superintendent G. B. Lamb. We are also glad to hear that Prof. Campbell, recently elected president of the state university at Eugene; Prof. L. R. Traver; Prof. Geo. W. Sealed Bids.

Sealed bids will be received at the County Clerk's Office up to and including the 2nd day of September, 1902, for the painting of the Big Nestucca River Bridge, near the farm of W. W. Conder, and the Trask River Bridge, near the farm of C. R. Hunt. Said bridges to be painted one coat in a good workman like manner, with Princess Metallic, of Fire Proof Roof and Bridge Paint; all materials to be furnished by the bidder.

HOMER MASON, County Clerk.

Dated July 23rd, 1902.

By order of the County Court.

May Never Be Caught.

SEATTLE, July 22.—The hunt for Convict Tracy seems to have been abandoned entirely and the outlaw is now free to roam the woods at ease—at least, until he again makes his appearance at some farmhouse for food.

It has been proven beyond a doubt that Tracy did not have two ex-convicts with him in the cabin at Sawyer Lake, and also that the story that he was badly wounded by buckshot from J. A. Bunc's gun was absolutely unfounded. The story of the seriousness of the wounds was given out by an ex-convict, who imposed upon Sheriff Cuddehe.

Tracy may have escaped across the mountains from Covington, and some of the officers fear he may now never be captured. They believe that he will disguise himself and make his way to some Eastern city.

## STOP THAT COUGH.

A good many people have thought that a cough didn't amount to much—most excellent people whose friends were sorry to lose them. Now don't make this mistake—a cough is the first step toward serious and often fatal sickness; stop it right there.

Our Syrup, Tolu Tar and Wild Cherry, 25c., 50c., and \$1.00 bottles, has proved a marvellous cough stopper. If you've just begun to cough, the 25c. size will fix you; if it's an old cough, try a larger bottle. It always relieves, and except in the most desperate cases it always cures.

And everything a well-stocked drug store ought to have, we have.

## Sewing Machines.

Now is the time to buy a new Sewing Machine for \$22.00, with drop head and all the latest improvements at MCINTOSH & MCNAIR'S. It is the BONITA SEWING MACHINE, and they range in price from \$22 to \$35, with ball bearings. They are little beauties, perfectly made and something new on the market. These machines are a better article than the peddlars are charging \$65 and \$75 for.
