Notice to Taxpayers.

Notice is hereby given that on Monday, the 6th day of October, 1902, the County Board of Equalization, will convene at the office of the County Clerk, of Tillamook County, Oregon, said board to continue in session from day to day for one week, and publicly examine the assessment rolls, and correct all errors in valuations, description, or qualities of land, lots or other property, and all persons interested in said assessment are hereby requested to appear at said time and place, for the purpose of correcting any errors that may appear in their assessment, as no errors can be corrected after the adjournment of said board.

Dated, Tillamook, Oregon, August 19th, 1902.

County Assessor.

Big Bargain in Dairy Farms.

This is an opportunity seldom met with to buy two fine dairy farms at a bargain, both situated at Blaine, in the South part of Tillamook county:

Dairy farm, 159 acres, 15 acres in meadow, which cut 20 tons of hay this summer, rest in timber and brush, small house, barn and orchard. To be sold for \$700; or \$300 down and \$400 on mortgage.

Fine Dairy Farm, 100 acres of rich bottom land, 40 acres of which in meadow and about 40 acres in timber, good house, three barns and orchard. To be sold for \$3,000, or \$1,800 down and \$1,200 on mortgage.

This is a snap for the money and seldom met with in Tillamook county, as the owner is only putting it in the market for the reason he has to go south. There is about \$800 worth of barberry bark on the place. Near good school and only one mile from creamery.

If you mean business and want to buy this snap, call at the Headlight office.

For Sale.

One Columbia river net and line. Enquire of J. A. Biggs, Barnegat, Or.

An Eastern paper quoted President Roosevelt as saying to a friend that he would sacrifice a second term to secure reciprocity with Cuba. This may have been said, but, of course, everybody knows that the cause of Cuba would not be advanced by any such sacrifice, and it will not be necessary. If Roosevelt made the remark, it shows he thinks that the promise made should be redeemed. Recent reports from the island show that there is a strong conservative element in the island that is trying to prevent the hotbeds from ruining the country by offensive methods toward the United States. Intimations have already been given that the proposed tariff increases are ill advised, and the attempt to float the big loan in advance of any treaty arrangements with the United States is regarded as injudicious.

NESTOCTON.

Several horses have had narrow escapes on the long trussel, near Blum place. It is dangerous and should be rebuilt. If it is not attended to pretty soon the county will have some damage bills on their hands.

Mr. Benton and wife, from Sheridan, gave us a call as they returned to their home from Netarts and reported a pleasant trip.

There will be quite an exodus from this valley about the 25th or 26th inst. to the various hop fields. I would advise them to take plenty of butter and cheese with them. I speak from former experience.

John Blum says if there is a young lady who is tired of single blessedness, just apply to him at Nestocton, or by phone. Age does not count in this contest for a limited time. He is tired of mixing his dough when his bread is not good. Now, don't be bashful.

The Pleasant Valley Cheese Association is making arrangements to build an addition to its factory, 30 x 40 feet, to provide for the increase of the milk that comes to the factory. Things will grow in Tillamook, even the milk business.

Your correspondent is informed that two farms in this locality changed hands lately, and I hear rumors of more people moving in. What is the matter with C.B.R.?

NETARTS.

Mr. Mills, of Pleasant Valley, was on the beach Monday.

W. H. Easter, the Tillamook liverman, brought a load over from Tillamook Saturday night to attend the dance.

Chas. Hodgdon and wife are in from Portland visiting his mother and brother.

Dr. Mills was called to Netarts Monday at midnight to attend little Millie Phelps, who is in a critical condition. Her recovery is very doubtful.

John Sheets and family, of Long Prairie, are camping on the beach for a few days.

E. Page and wife, of Portland, and Mrs. M. Page and Mrs. Case of Tillamook are rusticing on the beach for a week or two.

Frank Easter made a flying trip to Netarts Monday night, returning Tuesday morning.

Netarts has quite a lot of campers at the present writing.

Geer and the Rewards.

SALEM, Aug. 18.—In response to a question as to his position on the convict rewards and the developments in the case, Governor Geer today said there were no new developments and that no claims had been filed for capturing Tracy outside of the Creston party. Speaking of the payments of reward, the Governor said: "The Governor of Oregon has nothing to do with offering or paying rewards for escaped convicts. My opinion is, however, that Mrs. Waggoner should be paid perhaps one-half of the Merrill reward, and that the Tracy reward should be divided equally between the five men who actually captured him and the boy Goldfinch."

SALEM, Aug. 18.—Governor T. T. Geer is in receipt of a letter from Dr. E. C. Lanter, of Creston, Wash., one of the posse that captured Tracy. The doctor states that he was one of the first men to reach Tracy's dead body, and he took the 45-caliber Colt's revolver out of the dead outlaw's hand. He wished to secure the revolver, scabbard and belt, and keep them as mementos of the chase and capture, and asks the Governor for an order on Sheriff Gardener, of Lincoln County, who now has those articles in his possession. The Governor will probably give Dr. Lanter the desired order for the weapon and accoutrements.

A Snap in Real Estate.

For sale, a most desirable farm, on the Nehalem bench, containing 97 acres and well improved, with house and barns, fine lake of twenty acres, cranberry patch and fruit trees. Splendid location for a summer resort. To be sold for \$2,000.—Erbin Carter, Garibaldi, Or.

Oregon School Funds.

Another condition of state matters that is giving rise to some discussion is the fact that the state treasurer has just reported that he has on hand over a half a million dollars belonging to the permanent school fund of the state. This money accrues from the sale of state lands, and if possible to loan it, the interest is apportioned to the school fund in the different counties. There is no apparent demand for this enormous sum of \$550,000, or any part of it, consequently it lies idle in the state treasury. Under existing laws it cannot be loaned only upon real estate security, and there is much spirited discussion in regard to so changing the law that this money might be put out on other kinds of security. Many people are now advocating the practicability of amending the law so that this money could be loaned to counties and school districts, and undoubtedly there will be legislation to that effect proposed at the next session, whether it becomes law or not. It is proposed that the governor, treasurer and attorney-general constitute a board to pass upon applications for such loans, and the money be loaned according to law and such regulations as the board might create. This method of loaning school funds is in vogue in some states, and it is found to be fraught with better results than the old method.—Oregon City Enterprise.

Growth of Trust Companies.

The comptroller of the currency is said to feel some anxiety over the increase in the number of trust companies organizing nowadays, regarding this as an element of danger if another panic should occur. Official reports from New Jersey shows that thirteen new companies have been organized since January and the records of nearly all the states now show a great multiplication of these institutions.

Comptroller Ridgely is quoted as saying that the trouble with a trust company is that it does a banking business without the safeguards of a bank. It is supposed to be under state supervision and inspection, but in many the supervision is far from adequate and there is little if any regulation. The companies are permitted to do business without maintaining any reserve to speak of. Their charters of incorporation permit them to hold real estate and to transact almost any kind of business, and there are undoubtedly many instances where trust funds are embarked in speculative enterprises which are far from legitimate. The multiplication of these institutions is a phase of financial development or evolution which certainly may involve some such danger as the comptroller of the currency suggest. They have been very active for the past two or three years in pretty much every kind of investment, legitimate and otherwise, and there is reason to believe that not a few of them are in a condition that could not withstand any severe financial pressure. There is very substantial ground, undoubtedly, for the anxiety respecting these companies expressed by Comptroller Ridgely and the authorities of states in which these companies are doing business should look after them closely.

A personal denial from ex-Quartermaster General Egan of the stories that he had challenged W. P. Harlow to fight a duel in Sonora, Mexico, is printed. He says there is not a word of truth in the whole story.

The Duty of Citizens to the Public School.

[TO THE EDITOR TILLAMOOK HEADLIGHT.]

America can only succeed in its mission of freedom of mankind as it transforms individuality into humanity. The shop transforms the individuality by running the man through a machine, until it takes ten men to make a shoe, and each man is but one-tenth of a man; society transforms individuality by slavery to fashion; the government, by law; philanthropy, by fanaticism—Boston righting the wrongs of Chinamen in San Francisco; New York, of the Indians in Arizona; Ohio, of the negroes of Alabama; and Georgia, of the Mormons of Utah.

It remains for the public school, placing as it does the children of the rich and poor under the direction of skilled instructors and good disciplinarians, for the best six hours of the day, for the best five days of the week, for the best forty weeks of the year, with its prestige, and its methods, old and new, to transform individuality into humanity in the impressionable years.

In view of this service, in view of their opportunities and responsibilities, what are the duties of the citizen to the public school?

He owes the school uniform loyalty. Such is the relation of home, society, and the school, and such the peculiarity of discipline, that disloyalty to the school, the teacher, or the system works untold mischief.

NON-INTERFERENCE.—There is a great temptation for a man of culture, especially if he has had school experience, to annoy the teacher by insisting that work be done in his way. Three such parents can rob a school of its harmony and the teacher of his peace of mind.

INTELLIGENT, SKILLFUL, DISCRIMINATING SUPERVISION.—It is not the teacher that needs supervision, but the school in its entirety. The Superintendent or the principal is not to teach by proxy; he is not a "boss" placed over the teacher; he is not a spy upon them. He is the executive of the teachers, as well as of the directors; he is the representative of the citizens as a whole. Teachers must be relieved of many diverting details and distracting responsibilities by having as their co-laborer a judicious superintendent.

THE BEST TEACHER.—The teacher is the unit of force in the public school system. There is no power that can make a good school where there is not a good teacher. On the other hand, the best teacher cannot make a thoroughly good school, if a sufficient number of circumstances conspire to thwart his effort.

It is the duty of citizens, in public and private, by silence at one time and courageous utterance at another, to make circumstances conspire to the best success of the teacher.

Keep the school out of politics and politics out of the school.

Elect only men above personal and political suspicion as members of school boards.

TENURE-OF-OFFICE OF TEACHERS.—Every community should rise in its majesty and demand that the teacher's official tenure be secured. It is a disgrace for this enlightened age to allow the teachers to ask and urge for themselves the tenure that should be accorded them with their heartiness.

GENEROUS AND CHEERFUL FINANCIAL SUPPORT.—As society is constituted, there is no test of interest, devotion and loyalty so great as the financial. Such is the present demand upon the nervous energy, such the draft upon time, as well as strength, such the natural unfitness for lucrative employment after retirement from teaching, that the profession needs evidence of great financial loyalty.

According to statistics based on the number of Jewish burials recorded by the Board of Health and compiled by the Jewish World, the Hebrew population of New York City is estimated at 584,788. In Manhattan alone every fourth man or woman is a Jew or Jewess. The Jewish burials amounted in 1901 to 7997, and as the death rate in the most congested Jewish district is little over 15 per 1000, this implies a population of 533,133 in the middle of 1901. Since that time no less than 39,225 Jews have arrived at New York and stayed there, while by natural increase of births over deaths another 12,400 would be added up to August 1 of this year, making a grand total of 584,788. The number of Jewish marriages in Manhattan alone in 1901 was 5062, which at a very high marriage rate of 15 per 1000 would imply a population of 506,200, to which is to be added the 70,000 Jews of Brooklyn and the increase by immigration and excess of births, as before.

E. Tribble is the hero of a desperate hand-to-hand encounter with two bears, and that he escaped with his life was due in part to the visit of President Roosevelt to that part of the country two years ago. Mr. Roosevelt showed the old guide just how to give the coup de grace to a bear with the knife. Tribble, while in the mountains, was surprised by a grizzly and succeeded in dispatching him a la Roosevelt. When confronted by another big bear he dispatched it in a like manner. Tribble was covered with wounds but managed to crawl to his horse and ride to camp at Rifle, Colo., where he lost consciousness.

The Standard Oil trust has advanced the price of gasoline 1 cent a gallon. That would seem very insignificant. The railroads proposed to advance the wheat rate 1 cent per hundred pounds. That also seems a trifling increase. But when these pennies all drop into the corporation slot they will mount into the millions and millions.

Time-expired South African soldiers have been the victims of a curious delusion which is causing the officials of the United States Embassy considerable annoyance. Former British soldiers who have served against the Boers have been applying in numbers at the Embassy for enlistment in the American Army in the Philippines. They all say a report was in circulation at Cape Town and Durban that the United States was enlisting ex-British soldiers for service in these islands. At the London Embassy scores of applicants have been turned away greatly disappointed.

The non-execution by the Turkish Government of agreements reached long ago on several questions affecting the interests of American citizens has led to somewhat strained relations between the United States Legation and the Porte. United States Minister Leishman has informed the latter that he will not discuss other matters until the terms of the settlements already agreed upon are carried out. Diplomatic critics anticipate further undue delay, and that this will possibly lead to a sharp reminder by the United States.
