In falling Evans' foot caught in a stringer, which prevented him from falling 50 feet below and into the river. He was rescued from his dangerous position, still unconscious and Dr. Wiley was sent for to attend his injuries. His injuries are internal.  
For fashionable ladies' dress goods of superior quality, Cohn & Co.'s stock contains many pleasing attractions this fall. They have made a specialty of ladies' up-to-date dress materials and trimmings, also in cloaks, capes and jackets, which are marked at very low figures. Their rainy day raglans are just the thing for Tillamook. Now is the time to buy, while there is a large and splendid assortment to select from. They invite ladies from all over the county to inspect their goods.  
The welcome rain on Thursday night, and it poured down in Tillamook style, extinguished the forest fires and put a stop to more timber being destroyed, as well as clearing the atmosphere of smoke and heat. The men who left Wednesday to fight fire on the Wilson returned on Friday. There is not nearly as much damage to timber as was at first thought, for probably 100,000 feet is somewhat damaged, but a large quantity of this will be saved by being logged in the next few years. Most of the claims belonged to individuals and are in sections 14, 23, 13, 24, 12 and 25, tp 1 S, R 9 W; and sections 7, 18, 8, 17, 20, 9, 5 and 4, tp 1 S, R 8 W.  
A pretty wedding took place on Wednesday evening at the home of the bride's parents, Mr. and Mrs. J. S. Diehl, when Mr. William E. Esson and Miss Mattie Diehl, were united in the bonds of holy matrimony by Justice J. B. Alley. The house had been tastefully and artistically decorated for the occasion, the happy event taking place under a floral bell and festoon, the scene being a perfect picture of beauty when the knot was tied. Mr. and Mrs. Chas. Himes acted as best man and lady's maid. The bride was dressed in white silk and wore veil and orange blossoms, and made a pretty bride in her handsome wedding attire. After the ceremony Mrs. Diehl invited the wedding guests to a wedding banquet, which was gotten up in Mrs. Diehl's perfect and tempting style, the large wedding cake being one of the attractions. Congratulations and best wishes were showered upon the happy couple. They were in receipt of a large number of beautiful presents. The Headlight extends its congratulations, with the hope that the union will be a long and happy one.

### Editorial Snap Shots.

The board of equalization meets on the 6th of next month, and this offers a most favorable opportunity for those whose consciences are smiting them that they are not paying a just proportion of taxation upon their property to meet the board and have the assessment fixed right. Call early and avoid the rush.  
Side walks all over the city are in such a dilapidated condition that many of them are dangerous to pedestrians, so if it is impossible to obtain lumber, would it not be a wise move for the city council to declare them dangerous for fear of having to pay for broken limbs which may be caused by people being tripped up and injured.  
When the Telegram's reporter sent the message from here that \$1,500,000 of timber had been destroyed he was talking through his hat and with the object of giving those who own timber in this county a great scare. There is probably about 100,000 feet of timber burned, but this is not all destroyed if it is logged within the next few years.

The loggers did the community a good service on Friday when they boosted the fake out of town who was posing as a mute. He found some kind-hearted people whom he thought were easy to work, but when it became known that he was an impostor, and ran up against the loggers he was fairly up against it. It was thought that the impostor and his two pards were crooks.

Perhaps the least said about the unlady-like affair at the Larsen house the better. We do not care who it is, people who come to Tillamook to sell things ought to know enough to behave themselves in a ladylike and gentlemanly manner and not get down to personal scandal and acrobatic pugilism. It is a disgrace to the parties implicated and a disgrace to the city as well.

The rain storm on Wednesday was only a foretaste of what is to follow the coming winter, and to dispel any illusion that may have arisen the past summer that it had forgotten to know how to rain in Tillamook. It is not only the dairymen who are smiling, but the loggers and millmen are getting their faces also puckered up for a good laugh, for they do love to see plenty of rain.

We are reliably informed that the Tillamook Herald has obtained a new editorial writer in the person of Mr. Claude Thayer, and for fear we may be considered discourteous for not doing so before, the Headlight hastens to congratulate him on filling such an important position in the community. And now as a moult of public opinion, whether for weal or for woe, shake Bro. Claude, for we realize that we have a word-painter of no mean ability as a compeer. Hence, our congratulations in a fraternal spirit.

There are seven pupils from outside districts attending the public school in this city who are taking the high school studies, Prof. Whitney having 34 pupils altogether. That alone is proof that the high school studies are appreciated and a great advantage to those who are able to take them, especially to those in outside districts. It was the outside districts which defeated the high school proposition at the last election, but we are glad to know that the pupils in the outside districts have not been deprived of obtaining high school studies in the public school in Tillamook City. Besides the high school pupils the professor has the eighth grade in his room, making a total of 57.

The people of Portland are deserving of commendation for the promptness with which they raised a large sum of money for the sufferers in the recent destructive fires in Oregon and Washington. The business men and wholesale merchants of that city showed a liberal disposition when the appeal was made, and of all the donations they make from time to time, none will be appreciated as much as the one just made for the sufferers in the recent fire. This, surely, should be the means of creating a more kindly feeling towards Portland in a commercial sense, for the city that did the right thing in an emergency is certainly

entitled more of the trade of the state than cities like San Francisco.

The last article on Tillamook County, written by Mr. A. Holman, of the editorial staff of the Oregonian, appears in this issue. It will be noticed that Mr. Holman, in his short visit here, grasped the situation and gave a concise writeup of the county, for which he is deserving of our thanks. The Oregonian has done much the past few years to elucidate the conditions in Tillamook and to point out the needs of the county. Mr. Holman has done the same thing, and his remarks about railroad connections with Portland are to the point and certainly should awaken some amount of interest in that city if it is wanting a valuable feeder. He rightly points out that Tillamook is not in a position to build a railroad herself, for were the citizens able to do so, we believe they would have done so long ago, for they are energetic and progress enough to do so if they had the means. It is again up to Portland to see what the capitalists of that city will do. By all means Tillamook should have a railroad before the Lewis and Clark Centennial.

### Hay's Loses Contest Cases.

OREGON CITY, Sept. 22.—Four more of Charles E. Hays' contests against timber claims in Tillamook County have been decided against him by a special ruling of the Commissioner of the General Land Office, and the decision of the office sustained. The entries in the cases are Arthur Sanders, Catherine L. Brown, Rocilla M. Sanders and Caleb M. Martin, and the decision of the Commissioner reviews the testimony offered by the contestant. In these cases Hays made the same allegations that he made in all of his contests—that the entries, Claude Thayer, Morris Leach and Clark Hadley entered into a contract under the timber and stone act to obtain cer-

tain land for speculation; that the contestee was to make the entry, and the other parties furnish the necessary money; that the contestee was to hold the land in trust for the benefit of all the parties; that the other parties were to sell the land, the profits to be divided equally; that the entries never personally examined the land; that the affidavit made to secure the entry is untrue, and contestee knew the affidavit was untrue when made.

After the testimony for Hays was in the attorney for the contestee moved to dismiss, for the reason that the evidence did not sustain the allegations of the complaint, and the Register and Receiver sustained the motion and dismissed the contest. Hay appealed to the General Land Office which dismissed the appeal, affirmed the action of the local office and ordered the cases closed. The decision says that the appeal bears no evidence that notice was served on the contestees, as required by the rules of practice.

### Notice to Taxpayers.

Notice is hereby given that on Monday, the 6th day of October, 1902, the County Board of Equalization, will convene at the office of the County Clerk, of Tillamook County, Oregon, said board to continue in session from day to day or one week, and publicly examine the assessment rolls, and correct all errors in valuations, description, or qualities of land, lots or other property, and all persons interested in said assessment are hereby requested to appear at said time and place, for the purpose of correcting any errors that may appear in their assessment, as no errors can be corrected after the adjournment of said board.
