**Give the Women a Chance.**

The Editor of the Headlight has been discussing the gambling question of late, to the satisfaction of some people and the dissatisfaction of others. As the Editor has nothing to do with the Headlight ranch this week, the printer's devils have a right to be heard on the subject. The Editor is wrong in his argument as to how to stop gambling, and when he finds out on his return what we recommend he will fall all over himself and acknowledge that there is more wisdom in the Headlight's ink slinger than the pencil pusher. To commence, men cannot be depended upon, when they are elected to office, to carry out the oath they take to do their duty. That is just like men, and it is time for them to acknowledge that they have made a miserable failure running the city on moral lines for several years, because they have been influenced and almost owned by the gambling house people. Don't squirm, for everybody in the city have been able to see that for themselves, for to arrest a gambler in Tillamook for running a gambling game in violation of the law, why, that would be awful. Give the women a chance and let's see what they can do. Oh, yes, they could teach some of the fool men something who want to get suddenly rich bucking a gambler's "heads I win, tails you loose" game. If Tillamook City had women for officials with some of the determination of Carry Nation, there wouldn't be as many men in Tillamook making fools of themselves night after night at the gambling tables when they should be home with their wives and families.

**Fits Tillamook City.**

There is entirely too much reason, unfortunately, to suspect the Police Department of double dealing in the gambling matter. Chief McLauchlan knows perfectly well the difference between honest and bogus raids. The labors of Sergeant Church in particular lend color to the suspicion of hostility in some directions and favoritism in others. Judge Hogue is to be commended for going after this situation with a sharp stick. Whatever he resolved on and promised, let that be done without evasion or subterfuge. No police officer need be permitted for an instant to labor under the impression that he is working for the gamblers instead of the city.—Oregonian.

**Call for Road Warrants.**

All County Road Fund Warrants, Series F, endorsed prior to September 10, 1902, are now payable, and will be paid on presentation. Interest ceased from this date.

October 2, 1902.  
P. W. TODD,  
County Treasurer.

The Secretary of the Treasury has received a communication from the Collector of Customs, at Portland, Me., in which he states that the Dominion Coal Company, of Canada, is about to export to the United States 100,000 tons of anthracite coal, and asks that increased facilities be given the company for handling the same. The Department will extend every facility within the law and its discretion. The coal pays a duty of 67 cents a ton.

The Southern Pacific Railroad is preparing for the largest shipment of dried fruit for the month of October in the history of the Santa Clara Valley. The prime crop of the state will closely approach 190,000,000 pounds, of which Santa Clara County will furnish 100,000,000 pounds. The entire crop will be dried within three weeks.

Robert McClure Snyder was convicted of bribery in the St. Louis Criminal Court and was sentenced to five years' imprisonment in the state prison, after the jury had considered for 59 minutes the case which had occupied an entire week in presentation. No bondsmen were present when Snyder's conviction was made, the defense having apparently been confident its testimony concerning Snyder's residence in Kansas City would convince the jury that he was entitled to the benefit of the statute of limitation. The incarceration of the convicted man seemed to be imminent, when two of his attorneys signed his appeal bond for \$25,000, securing his release until the term of court commencing Monday. Early in this term Snyder will be sentenced and motions for an appeal and a new trial will be filed.

**Moros Loss 100.**

MANILA, Oct. 4.—Captain John J. Pershing's column has completely routed the Macin Moros in the island of Mindanao, killing or wounding 100 of them, and capturing and destroying 40 forts. Two Americans were wounded.

MANILA, Oct. 4.—On Tuesday the Moros retired to their largest and strongest fort on the lake shore, and Wednesday Captain Pershing attacked them with artillery, bombarding the enemy for three hours. At noon Lieutenant Loring, leading a squad of men, attempted to set fire to the fort. He crept under the walls and started a blaze, but the Moros discovered him and forced the Americans to retreat. During the afternoon the Sultan of Cabugalian led a sortie at the head of a band of fanatics armed with kris. They crept through the grass and sprang up and attacked the Americans. The Sultan was wounded six times and bled an American before he died. His followers were killed.

In the darkness, Wednesday night, Captain Pershing took his batteries within 100 yards of the fort, closed in his infantry lines and resumed the attack. The Moros broke through twice and attempted to escape by the beach, but were discovered and many of them were killed. The Moros abandoned the fort early on Tuesday, after 15 hours' bombardment, and Captain Pershing destroyed the rest of the forts and returned to Camp Vickers.

It is believed the moral effect of the defeat of the Moros will be great. General Davis has ordered that hostilities be stayed in order to permit the Sultans of Bacalod and other hostile Sultans to make peace.

The Sultans of Macin were confident of their ability to defeat the Americans, and vowed before the fight to enter slavery voluntarily if they themselves were defeated. General Davis has sent General Sumner, in command of the American forces in Mindanao, a congratulatory telegram on the success of Captain Pershing and the small American loss.

Members of the original United States Steel Underwriting Syndicate receive another 5 per cent dividend of \$10,000,000, notices to that effect having been sent out by J. P. Morgan & Co. This makes a fourth dividend of \$10,000,000, a total profit of \$40,000,000 on an actual outlay of \$25,000,000, a return of 160 per cent.

VICTORIA, B.C., Oct. 4.—Japan was visited by a heavy typhoon early in September, and the steamer Tartar brings advices of disaster which followed the storm. From Kagashima comes news of the loss of 600 fishing smacks and 1500 men. The steamer Karazawa Maru, which was dispatched to search for survivors, brought in about 16 men.

The Governor of Yamaguchi Ken reports 38 persons were drowned and nine others were killed by collapses during the storm at Iwakami, Yokohama, Fuji kawa, Atgo, Skino and Kawashita.

The Governor of Hiroshima Ken reports that inquiries as to the damage done by the storm up to September 12 show that 65 lives were lost. Twenty five casualties have been reported from Akigori alone. Accents of further damage and casualties were expected. The steamer Kaira Maru, 250 tons, was wrecked on Ushiki September 10.

J. C. Pope, who has a ranch near Elsie, in the Nehalem Valley, has discovered a soda mineral spring on his place that has a considerable flow. The water is being analyzed to discover its medical properties.

**Unearth Ghouls' Work.**

INDIANAPOLIS, Oct. 4.—Sensational developments came to light tonight in the investigation of the wholesale grave robberies that have occurred in this vicinity during the last few months, when detectives unearthed the 10 bodies in the cellar of the Medical College of Indianapolis. Cantrell, the leader of a gang of 10 negroes arrested a few days ago, confessed that his and other gangs had robbed many graves and sold bodies to medical colleges here and elsewhere.

Up to today every medical college in this city has been thoroughly searched for stolen bodies, but to no avail. Six bodies were found in a pickling vat at the Medical College of Indianapolis, proving they had been lawfully obtained and asserting that there were no other bodies about the buildings. Today detectives went to the college with a search warrant for the body of Wallace Johnson, which had been stolen from a grave in Ebenezer Cemetery, northeast of the city. The detectives instituted a rigid search of the building, and as a last resort raised the floor in the cellar. Digging here, in a short time they uncovered the remains of 10 bodies.

An attempt had been made to destroy the bodies with lime. The college authorities are very indignant at the latest phase, and declare that the bodies unearthed today are those of subjects dissected by the students of last year; that some of them are cadavers which were in the dissecting room when the building was burned several years ago. The detectives assert that the bodies have been but recently buried, and that the evidence of quicklime is very apparent. The bodies are of both men and women, but are in such a state that identification is impossible. Search for stolen bodies will be continued.

A mob from Eagle Lake, Tex., took Utt Duncan, a negro, from the County Jail and hanged him. Duncan, improperly clad, entered the telephone office at Eagle Lake, where Miss Lenna Harris, the night operator, was alone. The negro was arrested, and brought on a freight train to prevent lynching, but early next morning about 100 men arrived from Eagle Lake and demanded the prisoner. They were reinforced during the day, but did not succeed in securing their man until night.
