On Friday as the King of Belgium was leaving the Cathedral at Brussels, a bystander rushed toward him and fired a revolver. The King sprang back unharmed and remained cool. Before the would be assassin could shoot again he was seized, disarmed and held a prisoner. There is great feeling against the king because of his brutal treatment of the late queen, and thousands that stood about the door of the Cathedral and witnessed the attack upon him, turned away with feelings of sorrow that if it had not been successful, the remark was frequently heard, even made by the court officers, that it would have served him right if the bullet had found its mark. However, the king escaped unhurt. Cool and proud he continued on his way to the Palace, never changing countenance or acting in any way as though there had been any unusual occurrence.

General News.

Rev. Frank Hangate, until a few days ago pastor of the First Baptist Church at Paynesville, Ohio, was arrested, charged with producing a criminal operation on 17-year-old Phoebe McCowen. A civil suit for \$10,000 damages for seduction was instituted at the same time by the girl's mother. Astounding revelations of great loss of life and property by the eruption of the Santa Maria volcano are being made daily, says a cablegram from Guatemala City. Eruptions continue. Many hundreds of human beings perished and the destruction of property is considered greater than that in the Island of Martinique by the eruption of Mount Pelee.

According to a special to the Daily Mail from Sydney, N. S. W., darkness enshrouded the city of Melbourne, and balls of fire fell and set fire to several buildings. The people were thrown in a state of panic, as they thought the world was coming to an end. A similar cloud of red dust hung like a pall over the city of Sydney and many inland towns.

A campaign against tuberculosis has been inaugurated in New York city by the Charity Organization Society. Lecturers will visit the crowded districts, address the tenement dwellers in various languages, in the hope of inculcating ideas which will check the spread of the disease. Special attention will be paid to the negro section, where the death rate is higher.

John Nystrom, a Swedish sailor on the United States army transport Sumner, sacrificed his life while attempting to save an American flag which had been torn by a gust of wind from the stern of the vessel's steam launch. He plunged into the water and secured the banner, but was caught by the strong ebb tide and drowned before he could be reached by a boat.

Two distinct shocks of earthquake were felt in Salt Lake City, shortly before 1 o'clock on Monday. Clocks were stopped in various parts of the city, but no serious damage is reported. The shock was felt at a number of points in Southern Utah. Pine Valley, in Washington County, reports two sharp shocks about 1 o'clock, the movement being heavy enough to damage chimneys and throw crockery from shelves. The disturbance seemed to be from north to south.

At Empora Kan., Judge Madden in the District Court decided that a man had the right to bury his wife alive. The case was the City of Emporia vs. Professor Vanora et al., an injunction being asked to prohibit the professor giving an exhibition of hypnotism by burying his wife underground, and leaving her buried six days. The city claimed the exhibition endangered life. The hypnotists claimed the city had no right to draw a distinction against this kind of execution.

Herman Kuffman, 3-year-old son of a tobacco dealer living in the Bronx, has died from the effects of a fly bite inflicted last Wednesday. A few hours later a small spot made by the bite developed to a swelling which extended over the entire cheek. The swelling continued to spread until the whole upper portion of the child's body was distended. The doctors were powerless to give relief and finally the victim died. His playmates say the fly was an ordinary "blue bottle." The physicians believed the insect was infected with erysipelas germs.

C. C. Vaughn, a commercial tourist, was arrested for damaging hotel property at Junction City, and arraigned before Justice Clark. Vaughn and his wife were stopping at the hotel the first of the week, and because the fare did not suit them. Vaughn destroyed the bedding in their room before they left town. A warrant was sworn out for their arrest, and Constable Miller overtook them at Jefferson, Wednesday, returning to Junction on the night overland. Vaughn pleaded guilty and was fined \$50 and costs, which amounted to \$25.

James McCuen, of Hermosillo, Mex., who is now visiting friends in Los Angeles, says that recently a Seri Indian, one of the mainland tribe who was employed on his cattle ranch, told him that there are seven white men held as prisoners on Tiburon Island. It is believed by those who heard the story of the prisoners that among them are Lieutenant R. E. L. Robinson and his partner, Mr Logan, of Cleveland, who went to the island ten years ago and never returned, and Captain Porter, of San Diego, another of the several persons whom it has been reported were massacred and eaten by the Indians.

Before the would be assassin could shoot again he was seized, disarmed and held a prisoner. Mayor D. B. Grant, of Ashland, Ore., has appointed A. L. Kitchen as a special on the city police force to meet the necessity claimed by the Ashland Anti-Saloon League. The extra officer is to enforce the law against the illicit sale of liquor and gambling. Mr. Kitchen is the president of the league. The City Council has also instructed the City Recorder to collect the fines imposed last year against Houch and Dame and H. Salomon, by the Recorder's Court, for violating of liquor ordinances. This case was appealed and confirmed by the State Supreme Court, but for some unexplained reason the fine has never been paid into the city treasury.

Fatal Hunting Accident.

LA GRANDE, Nov. 17.—Frank Radford a young man from Minden, Neb., was fatally shot at the McAllister farm today. He had gone duck hunting with Arthur, the 13-year-old son of D. A. McAllister, and the boy in putting his gun through the fence, discharged it, and the whole load of shot struck Radford. They were only ten feet apart, and a hole two inches in diameter was torn in the man's abdomen. Dr. Richardson went out from this city, but Radford only lived 15 minutes. He had been an employe on the McAllister farm, but was lately working at Union, and was at the place on a visit. He will be buried here. The boy is wild with grief at the fatality.

Logs Advance in Price.

ST. HELENS, Or., Nov. 15.—It is expected that the price of yellow fir logs will be advanced from \$7.50 to \$8 per 1000, Monday morning, along the Columbia River. Yellow fir logs bring a much higher price than ordinary fir, and are in great demand. The St. Helens Lumber Company bargained for a quantity of yellow fir logs from a logging firm, and took along a check for \$2025 to day for the same, but were told that they could not have the logs until Monday. It is believed that this delay in delivery was made to give the log-owners an opportunity to advance the price. In addition to the price of the logs already mentioned, it costs 30 cents for towage to deliver them to the mill. The advance in the price of yellow fir will probably cause another advance in the price of certain kinds of lumber.

Safe Crackers at Newberg.

NEWBERG, Nov. 16.—After an interim of about four years the depot at this place was broken into by an unknown burglar last night and the safe robbed. The robber made his entrance through the freight room and was so well acquainted with affairs that he was able to open the safe with the combination. An express package which arrived last evening for the Chehalis Valley Milling Company, and which contained \$1180, was taken out. Nothing else except some Western Union receipts is missing. There is no clue to the identity of the burglar, but it is evident that he was well acquainted with the situation, as it is seldom that there are sufficient valuables in the safe to pay for the risk of getting them. It is not every fellow, too, who could calmly work the combinations. For some years it was counted an annual frolic for some one to break into the depot, but this is the first time it has occurred since August Satchell well has been in charge, and also the first time when any appreciable amount has been lost.

Bright's Disease.

The largest sum ever paid for a prescription, changed hands in San Francisco, Aug. 30, 1901. The transfer involved in coin and stock \$112,500.00 and was paid by a party of business men for a specific for Bright's Disease and Diabetes, hitherto incurable diseases. They commenced the serious investigation of the specific Nov. 15, 1900. They interviewed scores of the cured and tried it out on its merits by putting over three dozen cases on the treatment and watching them. They also got physicians to name chronic, incurable cases, and administered it with the physicians for judges. Up to Aug. 25 eighty-seven percent of the test cases were either well or progressing favorably.

There being but thirteen per cent of failures, the parties were satisfied and closed the transaction. The proceedings of the investigating committee and the clinical reports of the test cases were published and will be mailed free on application. Address John J. Fulton Company, 420 Montgomery St., San Francisco, Cal.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J.
