

OVER TWO MILLION POUNDS OF MILK.

Annual Meeting of the Tillamook Dairy Association.

The annual meeting of the Tillamook Dairy Association was held on Monday afternoon in the court house. There was a large meeting of stockholders, over which Mr. Thayer presided. The report of Mrs. Frank Severance, secretary of the association was read, the principal items of which showed that the creamery had transacted the following business:

Amount of milk received	2,199,869 lbs.
Test	4.1
Butter fat	90,270 lbs.
Milk used for butter	2,075,343 lbs.
Butter manufactured	95,986 lbs.
Milk used for cheese	124,517 lbs.
Cheese manufactured	12,424 lbs.
Received for butter	\$21,965.75
Average price received for butter fat, per pound	22.7-10 c.
Received for cheese	\$1151.59
Average price received for cheese, per pound	11.10-100 c.

The expenses of the creamery for last year amounted to \$2,168.59; cost of new building, \$2,141.30; cost of new machinery, \$859.05. The directors elected were John Morgan, James Williams, G. Murof. Mr. Claude Thayer was elected treasurer by acclamation. A complimentary vote was accorded Mrs. Severance for her fidelity and faithful services as the secretary of the association for several years. Mr. F. H. Holden brought up the question of the consolidation of the Red Clover Factory, the Tillamook Dairy Association and the Tillamook Creamery Company, it being proposed to appoint one person from each factory to act as salesmen. Mr. Thayer explained to the Association the method that is proposed to form a board of trade of the different creameries. He contended that by doing so the dairymen could buy their supplies at a lower figure, they would all have an opportunity to see the offers made for butter and cheese if a small office was established, and he thought by getting together they could get a better price for their products. He instanced several cases where cheese had been sold for 11c. at the factory and before it was shipped out it had sold for 13c. By the executive committee dealing direct with the purchaser he thought it would do away with the profits of the middle man. He did not know exactly how a board of trade amongst the dairymen would work, but it would cost nothing to go into a combine for a common interest.

Long Prairie Creamery.

The annual meeting of the Long Prairie Creamery was held on Monday. The Secretary's (Henry Rogers) report was read and approved, which showed the following figures:

Milk received	771,265 lbs.
Test	3.81
Butter fat	29,413 lbs.
Average per cent over run	13 1/2
Butter manufactured	33,357 lbs.
Total amount paid out	\$7,582.24
Net for butter fat	23.50c. lbs.
Net price for butter	20 1/2c. lbs.

It was decided to make cheese the coming season, or as long as the patrons think cheese is paying best. Henry Rogers, J. F. Martin and D. Curtis were re-elected salesmen. Henry Rogers was chosen secretary; J. F. Martin, chairman; and C. & E. Thayer, treasurer. All the officers were elected by acclamation. The price for making cheese is to be 15c. per pound, but should the average price at other factories be 1 1/2 cents, then the lower price will be changed. It was agreed that the patrons haul the cheese to Tillamook City free of charge to the proportion of their milk.

How Fulton Won.

At 11 o'clock the opposition made a futile attempt to unite upon the name of H. W. Scott, of Portland. Mr. Scott received the unanimous support of the Multnomah delegation for two ballots. On the third ballot, or the 18th of the evening, when the minute hand of the clock was pointed to within three minutes of midnight, Mr. Nottingham, of Multnomah, arose as his name was called and made the first break from the Portland members for Mr. Fulton. He was followed by Mr. Banks, and then, after several other changes had been made by Representatives Fisher and Jones. Mr. Jones' vote, however was not needed—he was the 46th man. To Senator Daly, of Benton county, the fortune of completing the triumph of the candidate of Astoria fell. He was the 45th, and it took 45 to elect.

When Mr. Nottingham abandoned his Multnomah colleagues Mr. Fulton had 35 votes. It had been arranged that the Marion delegation would vote for Mr. Scott on the next ballot, and if Mr. Nottingham had seen fit to abide by the wishes and plans of his delegation, it is quite probable that Multnomah county would have been successful in its effort to elect a man from Portland. With his conversion to Mr. Fulton the tide in the direction of that gentleman set in, and on him, therefore, rests largely the responsibility and the honor of naming the new United States senator.—Oregonian.

Bright's Disease.

The largest price ever paid for a prescription, changed hands in San Francisco, Aug. 30, 1901. The transfer involved in coin and stock \$112,500.00 and was paid by a party of business men for a specific for Bright's Disease and Diabetes, hitherto incurable diseases.

They commenced the serious investigation of the specific Nov. 15, 1900. They interviewed scores of the cured and tried it out on its merits by putting over three dozen cases on the treatment and watching them. They also got physicians to name chronic, incurable cases, and administered it with the physicians for judges. Up to Aug. 25 eighty-seven percent of the test cases were either well or progressing favorably.

There being but thirteen per cent of failures, the parties were satisfied and closed the transaction. The proceedings of the investigating committee and the clinical reports of the test cases were published and will be mailed free on application. Address John J. Fulton Company, 420 Montgomery St., San Francisco, Cal.

TILLAMOOK ROAD.

The scheme to build a grand highway to connect Clatsop and Tillamook, Astoria and Tillamook city, meets a hearty approval in Tillamook. The Headlight insists that the officials of the two counties shall get together on this matter without any delay. In fact, it is expected they will do so. The Clatsop officials are well enlisted in the scheme. They have only delayed action until the legislature shall adjourn so that they could have a certainty as to what road laws would govern them during the next two years. The session has now practically ended and all the changes are in sight.

It will be a great enterprise for both counties, opening up the best portions of each. It will come, too, at a time when other enterprises will co-operate in the development of that region. There is every indication that the A. & C. R. R. will soon be extended to Tillamook City from Seaside. Close observers see in the purchase of the Wheeler Lumber Co. a move in that direction or rather an indication of a policy on that line.

It is believed that the Harriman interest has bought out the Astoria road. It is expected its first step will be to extend the line down the coast. The Hammond Lumber Co., of New Jersey, that owns hundreds of thousands of acres of timber land along the proposed line, are the most likely purchasers of the timber of the Wheeler Lumber Co. That company has just acquire all the Astoria subsidy lands of the Astoria Company, or, rather, the deed for them made last July, has just been recorded. The time seems ripe for a move on the line of railway extension to Tillamook.

It is also an opportune time for the extension of our county road system to the same point.—Astoria Daily News.
