W. E. Martin, of Astoria, filed an answer in the circuit court at Portland to the suit of his wife, Bertha E. Martin, for a divorce, in which he denies that she was compelled to leave him because of cruel treatment. He accuses her of infidelity, and names John Reed as co-respondent. Martin alleges that about January 1, 1903, his wife left their home at Astoria, telling him she was going to Amity to visit her parents, but that her real purpose was to meet Reed in Portland. He also avers that Mrs. Martin often indulges in intoxicating liquors to excess, and made a practice of visiting different saloons in Astoria, and especially the Louvre Concert Hall. There is one child, a boy, 5 years old, and the father asks to be appointed his legal guardian. The Martins were married at McMinnville in 1895, and reside for some time in Tillamook City.

Of these two marriages nine children were born, eight of whom are living, with his faithful wife, to mourn their loss. Mr. Foster was a resident of Yamhill county for nearly 40 years, having taken a donation claim near Sheridan, which became valuable, making him one of the wealthy farmers of that county. In a letter received from Senator J. H. Mitchell, he informs us that Major W. C. Langitt has not yet made a report to the department regarding the proposed improvement of Tillamook bar. The senator concludes by saying: "I will keep following the matter up in the department here, and will do all I can to expedite the work." The letter he received from the department was as follows:

Washington, March 13, 1903.
Hon. John H. Mitchell,

Upon its receipt I shall be pleased to communicate with you further on the subject.

Gee, wiz! A man who would desert his wife and family would resurrect his grandmother and sell her body for a stiff.
* * *
Strange, but it's true, the last three fires in Tillamook were on premises belonging to members of the hose company—and they did not put up the cigars for the boys.
* * *
President Roosevelt is coming to Oregon, and by not visiting Tillamook he is missing the best part of the woolly west. But we suppose the cheesemakers of this county will vie with each other in making a cheese for Mr. Eddy to present to the president.
* * *
We looked for a democratic rooster on the public school building on Monday, but evidently the young men have not yet cut their eye teeth in practical jokes and high school yells. Rah! rah! rah! Emersonians! Rah! Cock-a-doodle-do! Emersonians!
* * *
It is reported that a smooth fellow, one of the fraternity who makes annual excursions to this county for the express purpose of milking the dairymen or their wives, worked the religious dodge last week on some of the people in the south part of the county. But what a surprise when they saw the man who had asked a blessing before meals playing cards in this city on Sunday.
* * *
If the Tillamook people ever felt proud, it should have been on Saturday evening when they listened to the pupils of the high school. Rob those young men of high school privileges and the ability they displayed on Saturday would probably never have been brought out. No better argument could be advanced for high schools, and we would like to see every section of the county enjoying the benefits of a good high school.

It may be that very little interest will be taken in the republican primaries next Saturday and the convention a week later. But, considering that Tillamook is trying to get an appropriation for the improvement of the bar, it seems to us that the people should take more interest in them than heretofore, for the next congressman from the first district will be the gentleman whom we shall have to rely upon to get \$500,000 for this project inserted in the next river and harbor bill. So it is highly important that considerable interest be taken in them so as to elect delegates who have the political pull and who are in touch with those in power and the present administration.
* * *
The Salem Journal in discussing the ability of the different persons who have been mentioned for congress has this to say about Mr. B. L. Eddy: This gentleman hails from the Tillamook country, and has fought his way to the front from the obscurity and gloom of the tall forests of the coast region. It makes very little difference whether this coming convention nominates him or not, as a lawmaker and orator in legislative bodies his reputation is securely established. If the honor of the nomination for congress should come to him, the district would remain Republican and would be represented with dignity and ability. As a lawyer and as a man B. L. Eddy ranks among the substantial of Oregon. It is not understood that he is seeking the nomination or is even a candidate and yet it would not be fair to leave him out of this cruise of the congressional tall timber of the first district.
* * *
Many of our citizens are extremely anxious that the new congressman for the first district should be a strong friend to Tillamook bar improvement. It is the height of political folly for our citizens to fall all over themselves in support of any one aspirant before they know what he is going to do for Tillamook. It may be that the shouters for Binger Hermann are barking up the wrong tree. A letter written to him on the subject on March 16th has not yet been answered. Probably he may be away from home on account of his campaign, and an answer will come in the course of a few days. As there is no assurance that Hermann will receive the nomination, it would be as well for Tillamook people to be a little more diplomatic for fear that Binger is not the choice of the republican convention. It looks a little premature, and even a little absurd, for anyone in get

into Binger's, or any other aspirant's, band wagon before we know what they are going to do for Tillamook. And for that reason it is well for Tillamook to know where its at before it commits itself.

Great Rush to Get Land.

ROSEBURG, Or., March 23.—Official notice has been issued from the Roseburg Land Office that township 31, in ranges 9 and 10, will be thrown open for entry Friday, March 27. This township consists of a large body of timber land lying almost west of West Fork, and is in the extreme southern portion of Douglas County. As there have been many "squatters" on this township there is expected a large rush at the Land Office Friday morning, for as usual the timber sharks will be ready to crowd the settlers out, as the land office officials register only those who can get to the counter in a first-come-first-served order. The last time a new section was thrown open the counters in front of the Land Office rooms were crowded with settlers, who slept there all night in order to be first at the counter, and when the doors were opened the rushing crowd broke several panes of glass and a number of fights for positions occurred.
