Editorial Snap Shots.

Say, is cock fighting legal in Tillamook county?

If you pull up stakes and leave the county you'll wish you hadn't if they strike a "gusher."

It would be a good joke, in boring for oil, an artisan well should be struck in a county that can boast of 150 inches of rainfall.

Now that the oil question is up again, it would be well to ask what the oil lands are worth some of our people invested in somewhere in Montana?

There's one thing certain, no one can kick because the illuminating power of the electric lights is not giving the city good service.

So Paddy Lynch has been found guilty of kidnaping. Astoria ought to go down on its marrow bones and offer up a prayer of thankfulness.

Will anyone second this motion? We move that the money collected for the defunct athletic club be turned over to the piano fund of the public school.

Tillamook's population is on the decline and no effort is being made to stop it or bring in new settlers. And yet Tillamook is the garden spot of Oregon with unlimited resources.

Since the Tracey and Merrill escapade, from the daily reports which appear in the newspaper, sheriffs and their deputies are having tough and fatal experiences capturing outlaws.

What was the cause of the grave yard silence at the city council on Monday night after the electric light franchise ordinance had been passed to its second reading? Was it an ill omen?

There is one thing the HEADLIGHT has not forgotten, the voters of Tillamook county require Binger Hermann to speak out in no uncertain sound what he is going to do for the improvement of the bar.

Ex-Senator Joseph Simon will feel himself in an embarrassing position when he hears the crowd cheering on the President's visit to Portland. Little Joe will feel his littleness and unpopularity most keenly.

When any more city franchises are applied for it would be well for the city dads to discuss their intrinsic value and the annual license they should pay to city, for telephone, telegraph and electric light poles and wires does not beautify a city.

Now what's to be done with the two mean cows around town, is something that Marshal Clemons is up against, for there are trained burglars at opening garden gates and devouring garden truck. Arrest them for trespassing and damaging property, Clyde.

The Tillamook county delegation to Eugene district republican convention had to make requisition for the democratic rule in order to get across the mountains, when homeward bound. Be it said, however, Brother B. L. Eddy did not ride the brute, and is, therefore, still faithful to his chosen political party.—North Yamhill Record.

After years of procrastination Klieki, at county, in the state of Washington, has at last obtained railroad connections, the line from Goldendale to Lyle, on the Columbia river, being finished. It will be Tillamook's turn, in the sweet by-and-by, to have railroad connections, if we survive to see it after so much railroad procrastination have been doped into Tillamookers the past twelve years.

The accident to Shamrock III, is but another demonstration that for English waters yachts must be built staunch enough to withstand the sudden squalls which they have to encounter there, and as this is the second accident that Sir Thomas Lipton's challengers have met with, it is plain they have passed the

Advertisement for CHAS. I. CLOUGH, Reliable Druggist, Tillamook. Features 'DUVOY'S SARSAPARILLA COMPOUND' and 'EUREKA Harness Oil'.

danger line when they undertake to build and sail yachts in English waters which are to compete with yachts built for and to sail in American waters.

Some of our citizens say Tillamook needs population, others say Tillamook needs new industries and saw mills for the export trade, while others say we require a weekly pay roll. The HEADLIGHT says Tillamook has the resources, the natural advantages and the timber at its back, and should have population, industries and a weekly pay roll, but the trouble is we all want to pile into the "pay car" without helping it along to keep up the supply. In other words, we are all looking for the other fellows to start industries and create a weekly pay roll. That's the trouble.

The democrats claim they are going to elect Mr. Reames, the untried nominee for congress. Probably they could if the republicans get into another factional fight and allow Mr. Reames to slip in that manner. But there is not going to be a factional fight in the district, consequently he will be unable to overcome the republican majority of 7,372 last year, when the figures were: Tongue, rep., 23,585; Weateerford, demo., 16,213; Ramp, prohi., 2,576; Gould, socialist, 2,185. Mr. Reames will poll the democratic vote, that is all, which is by far too big a minority to ever expect to turn into a majority.

The Tillamook Lumber Co.'s saw mill is again chewing up saw logs, and we regret there are not a dozen like industries in this city doing the same thing, for then business would be rushing and the question of Tillamook City becoming a manufacturing center would be settled. But what are our business men and capitalists doing to bring this about? What inducements does Tillamook City offer? These are pertinent questions which are of paramount importance and which we should like to see our business men, our profession men and our capitalists get together and discuss. It may cost a few hundred dollars, or probably a few thousand dollars, to get a number of export saw mills started here, but the increase in business and the large amount of money brought here and put in circulation would soon make it plain that it is a right move and should not be delayed longer. Lumber was never in such great demand as it is today and at such high price, and still crawling higher.

The proposition made by Mr. J. B. Wetherell to bore for oil in Tillamook county appears to be a liberal and fair offer to settled the vexed question whether oil can be found here or not, should be taken up. Experienced coal miners and expert oil men have told us on frequent occasions that we have coal and oil in Tillamook, the surface indications being exceedingly promising. That is as much as we know about it, and the only practical way to ascertain is to bore into the bowels of the earth and find whether the treasures are there, and this cannot be done without considerable expense.

They may strike it rich and it may end without finding anything, but it will demonstrate whether we have these resources. Two thousand dollars is comparatively a small sum and there should be no trouble in raising it, for if oil or a paying vein of coal is ever struck in this county look out for a big boom in Tillamook. There is very little to loose in making the experiment, but big stakes if oil or coal are found. Oil was found in California, and if we are to judge from what experts tell us, the indications in Tillamook are far better than they were there. No geologist or oil expert can say positively that oil will be found in any location, so it is purely an experiment, with this feature about, that all surface indications in Tillamook are exceedingly promising. It is now up to the citizens if they want to put \$2000 into the experiment. It may be money well invested, and it may not, but there is one thing the HEADLIGHT is curious to know and the people anxious to find out, have we untold wealth hid away in the bowels of the earth in Tillamook county? Until experiments have been made to reach it it will remain there until doomsday.

Dr. P. J. Sharp, the experienced dentist is located in Dr. Wise's dental parlors, and is prepared to do nothing but first class work and give the best of satisfaction. If your teeth need fixing call upon him.

General News.

The lumber and shingle industries of the Northwest are handicapped in their quest for markets by lack of railroad cars. The shingle industry is especially depressed. It labors under such an overplus of product that in Washington mill-owners are prone to shut down their plants and many have already done so.

A decree has been published in Finland describing measures for the maintenance of order in Finland. Under this decree the governor-general is empowered, when he deems it necessary, to close schools, shops and factories, to prohibit private meetings, dissolve private meetings, dissolve private associations and expel from Finland all persons who are considered undesirable. Expulsions, however, excepting in cases which do not permit of delay, must receive imperial sanction. Persons expelled may be ordered to reside in certain places within the empire. The decree becomes operative in three years.

Since Cleveland made his speech on the negro question he has received high praise from the press, both North and South, but especially papers of the South. If Cleveland had but one term behind him, nothing could prevent his nomination by the Democratic party next year. It is evident from what Democrats say generally that the third-term bugaboo is the one thing that prevents them from considering him as one of the available men. The South especially rejoices at the manner in which he has spoken on the negro question, and the third-term question would not prevent the votes from that section being cast for him. But even the Southern Democrats realize that Northern states must be carried in order to have a show of success.

Professor Leroy Fewer, an aeronaut, of Houston, Tex., has met with a serious accident before thousands of spectators there. He made a successful ascent of 3000 feet in the air and cut loose with his parachute in good trim. While attempting to shift the course of the parachute on its downward flight, one of the ropes snapped, almost reversing it and causing the balloonist to lose his hold when within 150 feet of the ground, and the man fell, turning over and over in the descent. He struck in a soft slough which he had been trying to stay clear of, and this alone prevented his instant death. One arm was broken in two places, two ribs and his nose were broken, and there are believed to be internal injuries. The man is still alive.

Smallpox at Shaniko and Prineville has already claimed six victims, and of the ten unfortunates suffering in the pesthouse at the present time two are not expected to recover. Dr. Woods Hutchinson returned from a visit to the infected districts after an absence of ten days, and reported that the attending physicians believe they have the malady under control. Dr. Hutchinson states that all the patients in both towns have been removed to isolated pesthouses and the exposed buildings thoroughly fumigated. All the persons in Prineville who have been exposed to the epidemic have been vaccinated, and are subject to examination for developments for the disease every day. At the order of the Board of Health every person in Shaniko who has been vaccinated, and all the other necessary precautions have been taken for the prevention of any further spreading of the disease.

Christ Benson, the murderer of David Morrell, the Thurston County jailer, was found guilty of manslaughter, the jury returning a verdict after seven hours spent in the jury-room. The courtroom was crowded when at 9:30 the jury filed in and the verdict was read. Benson was extremely nervous as he was waiting for the reading of the verdict, and when his attorney informed him that his neck had been saved, he buried his face in his hands and sobbed for joy. Neither Benson nor his attorney had hoped for an acquittal, and the verdict was good news to the defendant. Benson will have to serve his term of one year for larceny before entering upon his sentence for his greater crime. It is the opinion that he will get the full extent of the law and receive a sentence of 20 years in the penitentiary.

Offer of Seven Cents for Fish.

ASTORIA, Or., April 21.—The first indication of a war between the fish buyers has appeared in the offer of Lindenberg, the cold-storage dealer, of 7 cents per pound for all chinook salmon of 25 pounds or over that weight. The price for these fish has been 6 cents, which is being paid by all other buyers. The result is that Lindenberg is getting a large portion of these big fish, and unless the number of them increases soon the others will have to meet the price to get any.

Eversince Lindenberg, whose principal place of business is Berlin, has been buying fish on the Columbia he has paid about half a cent a pound more than any other buyer, and to him more than any one is attributed the high price of the raw fish during the past few years. He claims that he can pay 25 cents per pound if necessary, and still make a good profit.

The catch during the past few days has been considerable, but the fish taken are nearly all small, weighing less than 15 pounds. Some steelheads are being caught, but they are the late run of the winter fish of this species, and being

about 3 cents per pound. The summer run of steelheads is expected to start soon, when the price will jump up to 3 cents per pound, at least.

Sandbagged and Bound to a Tree.

WHATCOM, Wash., April 21.—At Maple Falls last night two unknown men sand-bagged, robbed and then bound to a tree in the woods nearby, Charles Anderson, a logger, whom they enticed to a cabin in the outskirts of the village. After leaving their victim tied out in the forest nearby, the robbers went to the village where they cashed a \$50 check which they had taken from him, and then, becoming frightened, returned to the place where they had left their supposed helpless victim, to murder him, but found him gone.

They then made their way into the forest and have, up to this time, succeeded in evading the large force of citizens who searched for them all last night and this morning.

Ordinance No. 145.

An ordinance to repeal ordinance No. 43. The same granting an ordinance granting Clarke E. Hadley a franchise, privilege and easement to install, maintain and erect an electric light plant in Tillamook City, Oregon. The people of Tillamook City do ordain, as follows: That ordinance No. 143, being an ordinance granting Clarke E. Hadley a franchise, privilege and easement to install, maintain and erect an electric light plant in Tillamook City, be and the same is hereby repealed.

Read first time April 20, 1903, at 8:45 o'clock p.m. Read second time April 20, 1903, at 8:45 o'clock p.m. By unanimous consent of the members of the Common Council present put to its third reading on this night of its introduction and read for the third time in open Council, April 20, 1903, at 8:47 o'clock p.m., and being now before the Council on the question: "Shall the ordinance pass?" the vote resulted as follows: Ayes, 4; noes, 0. Whereupon the ordinance was declared duly passed.

TJOS. COATES, City Recorder. Approved April 20th, 1903. C. W. TALMAGE, Mayor.

After that date all negatives remaining will be destroyed. These negatives are all in first class condition and will last a lifetime if properly taken care of.

A. G. REYNOLDS.

For Sale.

A dairy farm of 72 acres, situated on the Nestucca river at Beaver, Oregon. Good location, near a cheese factory, school-house, church and store. Price, \$3000.—For particulars write or call on J. R. Finley, Beaver, Tillamook county, Oregon.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a long time many years ago a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, it has become a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally, in doses from two to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
